Acknowledgments

Many talented and hardworking people gave their best effort to produce *Mastering AutoCAD 2019 and AutoCAD LT 2019*. I offer my sincerest gratitude to those individuals who helped bring this book to you.

Heartfelt thanks go out to the editorial and production teams at Sybex for their efforts. Jim Minatel made sure things got off to a great start and provided support from beginning to end. Karthiga Mani skillfully managed the development process. Richard Hawley did an excellent technical editing job and offered many great suggestions. On the production side, Athiyappan Lalith Kumar kept the production end of things running smoothly.

Thanks also go to Denis Cadu, who has always given his support to our efforts over many projects. Jim Quanci always gives his generous and thoughtful assistance to us author types. Thanks to Elinor Actipis for providing help with general Autodesk matters. Finally, thanks go to Alison Keller, Daniel Kuhman, and KB Lee of the AutoCAD Customer Counsel and the AutoCAD team for generously allowing us to have a look at the prerelease software.

And a great big thank you to my family and friends, who have been there for me through thick and thin.
