

SPRINGER BRIEFS IN CRIMINOLOGY

Lia Ahonen

# Violence and Mental Illness

## An Overview

 Springer

# **SpringerBriefs in Criminology**

SpringerBriefs in Criminology present concise summaries of cutting edge research across the fields of Criminology and Criminal Justice. It publishes small but impactful volumes of between 50–125 pages, with a clearly defined focus. The series covers a broad range of Criminology research from experimental design and methods, to brief reports and regional studies, to policy-related applications.

The scope of the series spans the whole field of Criminology and Criminal Justice, with an aim to be on the leading edge and continue to advance research. The series will be international and cross-disciplinary, including a broad array of topics, including juvenile delinquency, policing, crime prevention, terrorism research, crime and place, quantitative methods, experimental research in criminology, research design and analysis, forensic science, crime prevention, victimology, criminal justice systems, psychology of law, and explanations for criminal behavior.

SpringerBriefs in Criminology will be of interest to a broad range of researchers and practitioners working in Criminology and Criminal Justice Research and in related academic fields such as Sociology, Psychology, Public Health, Economics and Political Science.

*This volume is dedicated to my late mentor  
and dear friend Prof. Rolf Loeber and his  
wife and partner Magda Stouthamer-Loeber.*

## **Acknowledgements**

I am grateful to David P. Farrington for his critical and valuable comments on an earlier version of the manuscript. I am also indebted to Dirk Rodenburg for comments on the manuscript. I would also like to extend my sincere thank you to Kaylee Klingensmith who has provided me with effective editing and comments on readability of the manuscript. In addition, I am most grateful to the participants in the qualitative study presented in this volume.
