

SPRINGER BRIEFS IN CRIMINOLOGY

Wesley G. Jennings
Nicholas Perez
Chris Delcher
Yanning Wang

Opioid Prescribing Rates and Criminal Justice and Health Outcomes

SpringerBriefs in Criminology

SpringerBriefs in Criminology present concise summaries of cutting edge research across the fields of Criminology and Criminal Justice. It publishes small but impactful volumes of between 50-125 pages, with a clearly defined focus. The series covers a broad range of Criminology research from experimental design and methods, to brief reports and regional studies, to policy-related applications.

The scope of the series spans the whole field of Criminology and Criminal Justice, with an aim to be on the leading edge and continue to advance research. The series will be international and cross-disciplinary, including a broad array of topics, including juvenile delinquency, policing, crime prevention, terrorism research, crime and place, quantitative methods, experimental research in criminology, research design and analysis, forensic science, crime prevention, victimology, criminal justice systems, psychology of law, and explanations for criminal behavior.

SpringerBriefs in Criminology will be of interest to a broad range of researchers and practitioners working in Criminology and Criminal Justice Research and in related academic fields such as Sociology, Psychology, Public Health, Economics and Political Science.

Acknowledgments

The authors would like to acknowledge the staff and director of the Controlled Substance Utilization Review and Evaluation System (CURES), Tina Farales, for making California's Prescription Behavior Surveillance System (PBSS) data archive available. In addition, the authors acknowledge the Prescription Drug Monitoring Program (PDMP) Training and Technical Assistance Center (TTAC) at Brandeis University and its efforts to establish and maintain the Prescription Behavior Surveillance System (PBSS) project.

A special thanks to Eugene Shin and Christian Eisinger for creating figures and Nailah Horne for the manuscript review.

This project was supported by Grant No. 2017-PM-BX-K038 awarded by the Bureau of Justice Assistance, which is a component of the Department of Justice's Office of Justice Programs that also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the authors and do not necessarily represent the official position or policies of the US Department of Justice.

Contents

1	Introduction to the Opioid Crisis	1
	References.	3
2	County-Level Prescribing Rates: Aggregated and Disaggregated	5
2.1	California’s Prescription Behavior Surveillance System (PBSS)	5
2.2	Aggregated County-Level Prescribing Rates.	5
2.3	County-Level Prescribing Rates by Sex	7
2.4	County-Level Prescribing Rates by Age	7
2.5	County-Level Prescribing Rates by Major Types of Drugs.	8
2.6	County-Level Prescribing Rates by Mean Daily Dosage	8
2.7	County-Level Prescribing Rates by Days in Treatment.	8
2.8	County-Level Prescribing Rates by Multiple Provider Episode Rates.	9
2.9	County-Level Prescribing Rates for Opioid Naïve Patients.	9
2.10	County-Level Prescribing Rates by Top 1% of Prescribers.	9
2.11	Summary	10
	References.	11
3	Association Between Community Characteristics and Opioid Prescribing Rates	13
3.1	Research Question 1	14
3.2	Data Sources	14
3.3	Dependent Variable	14
3.4	Community Characteristics	15
3.5	Analytic Strategy	15
3.6	Results	16
3.7	Summary	19
