

SPRINGER BRIEFS IN
APPLIED SCIENCES AND TECHNOLOGY

Jeffrey Kok Hui Chan
Ye Zhang

Sharing by Design

Springer

**SpringerBriefs in Applied Sciences
and Technology**

SpringerBriefs present concise summaries of cutting-edge research and practical applications across a wide spectrum of fields. Featuring compact volumes of 50–125 pages, the series covers a range of content from professional to academic.

Typical publications can be:

- A timely report of state-of-the art methods
- An introduction to or a manual for the application of mathematical or computer techniques
- A bridge between new research results, as published in journal articles
- A snapshot of a hot or emerging topic
- An in-depth case study
- A presentation of core concepts that students must understand in order to make independent contributions

SpringerBriefs are characterized by fast, global electronic dissemination, standard publishing contracts, standardized manuscript preparation and formatting guidelines, and expedited production schedules.

On the one hand, **SpringerBriefs in Applied Sciences and Technology** are devoted to the publication of fundamentals and applications within the different classical engineering disciplines as well as in interdisciplinary fields that recently emerged between these areas. On the other hand, as the boundary separating fundamental research and applied technology is more and more dissolving, this series is particularly open to trans-disciplinary topics between fundamental science and engineering.

Indexed by EI-Compendex, SCOPUS and Springerlink.

Acknowledgements

The idea of this book first emerged from our many conversations as long-time colleagues and best friends on sharing, cities, ethics, and design at the Department of Architecture, National University of Singapore. These conversations evolved over a number of years, but they were all greatly enriched by the knowledge and insights of colleagues, friends, and family members along the way. Here, we would like to thank all of you.

The momentum of this book took shape during our participation in the “NUS-Tsinghua Design Research Initiative: Sharing Cities”. And so, first and foremost, we would like to express our gratitude to Ng Teng Fong Charitable Foundation (Hong Kong). Without its sponsorship and support—both financial and intellectual—the “NUS-Tsinghua Design Research Initiative: Sharing Cities” would have been impossible, and likewise, also the several papers on space and sharing that we published, which subsequently paved the way to the birth of this book.

Our special gratitude also goes to our most generous, understanding, and supportive editors from Springer Nature: Megana Dinesh and Anthony Doyle. They received our book proposal with great enthusiasm, and our often abrupt requests were always received—and granted—with a generosity that greatly encouraged us to go further. Thank you, Megana and Anthony.

Here, we would like to extend our sincere thanks to Prof. Ho Puay Peng and Associate Professor Wong Yunn Chii from the Department of Architecture, National University of Singapore, and Prof. Li Xiaodong and Prof. Zhang Yue from the School of Architecture, Tsinghua University for their strong leadership in the “NUS-Tsinghua Design Research Initiative: Sharing Cities”. We benefited immensely from their encouragement and support. We are especially grateful to our colleagues of this project, namely, Tan Teck Kiam from the National University of Singapore, Huang He, Martijn de Geus, Long Ying, and Liu Sha from Tsinghua University; and Seah Chee Huang, Tan Chee Yong, Brian Hwui Zhi Cheng, Shawn Eng Kiong Teo, Jonathan Christian Yi Ren Chin, and Karen Tan from DP Architects. Their collegiality, generosity, insights, and criticality helped to shape our thinking as we developed the ideas in this book.

Also, there are always many supportive colleagues and friends behind even a small book such as this one. We are truly grateful and indebted to the following individuals during the preparation and writing of this book (listed in alphabetical order of the last name): Cheah Kok Ming; Lilian Chee; Cho Im Sik; Jason Woon Siong Chong; Simone Shu Yeng Chung; Heng Chye Kiang; Richard Kong Fatt Ho; Thomas Kong; Lam Khee Poh; Lim Sun Sun; Joseph Ee Man Lim; Lim Hwee Lee; Tomohisa Miyauchi; Jurgen Rosemann (& Vivienne Chiu Yuan Wang); Ruzica Stamenovic; Imran Bin Tajudee; Tan Beng Kiang; Teh Kem Jin (& Sylvia); Teo Yee Chin; and Zdravko Trivic.

We would like to thank all the students from the M.Arch program in the National University of Singapore and from the English Program of Master in Architecture, Tsinghua University, who participated in the NUS-Tsinghua Joint Design Studio on Sharing Cities from 2017 to 2020. Our thanks also go to those student who conducted their M.Arch theses under “NUS-Tsinghua Design Research Initiative: Sharing Cities”, namely, Ong Guo Xiang and Gabriel Yong Woon Ng (2017); Kenny Han Teng Chen and Shi Yan Jie (2018); Yeow Yann Herng, Jessica Ho and Lam Ching Yan (2019). Our discussions and debates with all of you, as well as the hard questions that you posed, have sparked many important ideas and questions in this book. Moreover, He Zhuoshu, Research Assistant of the “NUS-Tsinghua Design Research Initiative: Sharing Cities” deserves special mention, especially for his invaluable work in searching and compiling the research materials during the preparation of this book.

Finally, we reserve our wholehearted thanks to each member of our family. From Jeffrey: Thank you, Felicity Hwee Hwa Chan (& Ji-Jon Sit), Dad and Mom. From Ye: my wife Zhuang Danshuo deserves the deepest and warmest thanks for her love, patience, and tolerance over the past year—not only for her forbearance with my lack of company during her pregnancy, but she also helped me going through the challenging period of writing with confidence. I would also like to sincerely thank my parents, whose support has always been the source of courage in my life.

Contents

- 1 Introduction: Connecting Sharing and Design** 1
 - 1.1 What Exactly Is Design? 3
 - 1.2 The Many Meanings and Significance of Sharing Today 4
 - 1.3 Why Is There a Need for Sharing by Design? 6
 - 1.4 An Overview of This Book 8
 - References 8
- 2 Assessing the State of Sharing in the Sharing Economy** 11
 - 2.1 Sharing as a Social Act 11
 - 2.2 Is Sharing Fully Reflected in Framing the Sharing Economy? 13
 - 2.3 Is Sharing Fully Practiced in the Sharing Economy? 18
 - 2.3.1 Access 19
 - 2.3.2 Sharing with Strangers 20
 - 2.3.3 Digital Platforms 23
 - 2.4 A Complex Picture 24
 - 2.5 A Need for Enhanced Sharing 26
 - References 26
- 3 Sharing by Design** 31
 - 3.1 Why Is Sharing Ascendant Today? 32
 - 3.2 Reflexivity in Design: Ought Sharing Be Designed? 34
 - 3.3 Design by Capital 35
 - 3.4 A Concise Case Study: Co-living in Starcity San Jose 36
 - 3.5 Design by Commoning 39
 - 3.6 Co-housing: An Example of Design by Commoning 40
 - References 41
- 4 How to Design a Sharing System?** 45
 - 4.1 The Design Principles of Elinor Ostrom’s CPR Systems 46
 - 4.2 Justifying the Systems Approach for Sharing by Design 47

4.3	Specifying the Components of the Sharing System	50
4.4	The Environment (of the Sharing System)	51
4.5	The Goal (of the Sharing System)	52
4.6	The Guarantors (of the Sharing System).	53
4.7	The Performance Measures (of the Sharing System)	54
4.8	The Stakeholders (of the Sharing System)	56
4.9	The Resources (of the Sharing System)	56
4.10	The Social Forces (of the Sharing System).	57
4.11	The Enemies (of the Sharing System)	59
4.12	A Brief Simulation of Designing a Waste-to-Energy Sharing System.	60
	References	62
5	Sharing Ethics	65
5.1	Why Is Ethics Important for Sharing?	67
5.2	Sharing Ethics: A Preliminary Outline	68
5.3	Three Key Distinctions	69
5.4	Sharing Ethics as Virtues	71
5.5	Sharing Ethics as Principles of Justice and Beneficence	72
5.6	Sharing Ethics as Ethical Expertise	74
	References	75
6	Teaching Sharing by Design	77
6.1	The Architectural Studio as the Site of Teaching Sharing by Design	78
6.2	The Systems Approach for Sharing by Design: A Framework	79
6.3	Case Study: An Urban Design Studio on Sharing Cities	82
6.4	Background of the Urban Design Studio	82
6.5	Scheme One: Sharing Infrastructure	83
6.6	Scheme Two: Sharing Open Education	87
6.7	Discussion: Implication of the Systems Approach-Oriented Pedagogy for Design	89
	References	92
7	Conclusion	93
	References	96
	Index	97
