

Alternative Investments

CAIA Level I

FOURTH EDITION

DONALD R. CHAMBERS

MARK J. P. ANSON, KEITH H. BLACK, HOSSEIN B. KAZEMI

Alternative Investments

The Wiley Finance series contains books written specifically for finance and investment professionals as well as sophisticated individual investors and their financial advisors. Book topics range from portfolio management to e-commerce, risk management, financial engineering, valuation and financial instrument analysis, as well as much more. For a list of available titles, visit our website at www.WileyFinance.com.

Founded in 1807, John Wiley & Sons is the oldest independent publishing company in the United States. With offices in North America, Europe, Australia and Asia, Wiley is globally committed to developing and marketing print and electronic products and services for our customers' professional and personal knowledge and understanding.

PART 1

Introduction to Alternative Investments

CHAPTER 1

What Is an Alternative Investment?	3
1.1 Alternative Investments by Exclusion	3
1.2 Alternative Investments by Inclusion	4
1.2.1 Real Assets	4
1.2.2 Hedge Funds	6
1.2.3 Private Equity	6
1.2.4 Structured Products	7
1.2.5 Limits on the Categorizations	8
1.3 The Blurred Lines between Traditional and Alternative Investments	8
1.4 A History of Alternative Investing: The U.S. Case	10
1.5 Investments are Distinguished by Return Characteristics	11
1.5.1 Diversification	11
1.5.2 Illiquidity	12
1.5.3 Inefficiency	13
1.5.4 Non-Normality	13
1.6 Investments are Distinguished by Methods of Analysis	14
1.6.1 Return Computation Methods	14
1.6.2 Statistical Methods	15
1.6.3 Valuation Methods	15
1.6.4 Portfolio Management Methods	16
1.7 Eight Other Characteristics that Distinguish Alternative and Traditional Investments	16
1.8 Five Goals of Alternative Investing	18
1.8.1 Adding Value through Active Management	18
1.8.2 Achieving Absolute and Relative Returns	19
1.8.3 Pursuing Arbitrage and Return Enhancement	19
1.8.4 Reduced Risk through Diversification	20
1.8.5 Avoiding Obsolescence	20

1.9	Two Pillars of Alternative Investment Management	20
1.9.1	Empirical Analysis	21
1.9.2	Economic Reasoning	21
1.9.3	Viewing Alternative Assets in a 2×2 Framework	22
1.10	Overview of This Book	22
	Review Questions	23

CHAPTER 2

	The Environment of Alternative Investments	25
2.1	The Participants	25
2.1.1	The Buy Side	25
2.1.2	The Sell Side	28
2.1.3	Outside Service Providers	29
2.2	Alternative Investment Structures	33
2.2.1	Limited Liability and Passive Investments	33
2.2.2	Corporations and Limited Liability Companies	34
2.2.3	Limited Partnership Structures	34
2.2.4	Bankruptcy-Remote Entities	35
2.2.5	Entities Facilitating Investor Taxation Differences	35
2.3	Key Features of Fund Structures	36
2.3.1	The Four Key Partnership Documents	37
2.3.2	Corporate Governance in Private Funds	38
2.3.3	Investment Objectives, Fund Size, and Fund Terms	38
2.3.4	Management Fees and Expenses	39
2.3.5	Global Regulations and Fund Structures	39
2.4	Financial Markets	40
2.4.1	Primary Capital Markets	40
2.4.2	Secondary Capital Markets	41
2.4.3	Third and Fourth Private Markets	42
2.5	Regulatory Environment	42
2.5.1	Five Primary Forms of Hedge Fund Regulation	43
2.6	Liquid Alternative Investments	43
2.6.1	The Spectrum of Liquid Alternatives Products	43
2.6.2	Growth and Growth Factors in Liquid Alternatives	44
2.6.3	Three Constraints against Achieving Alternative Investment Benefits through Liquid Products	45
2.6.4	Four Factors Determining Performance of Liquid Alternatives Compared to Private Placements	46
2.6.5	Empirical Analysis of Liquid Alternative Investment Performance	46
2.7	Taxation	47
2.7.1	Income Taxation	47
2.7.2	Other Taxes and Withholding	48
2.8	Short Selling	49
2.8.1	The Institutional Mechanics of Short Selling	49
2.8.2	The Mechanics of Short Selling to the Short Seller	50
2.8.3	Special Situations Involving Short Selling	51
	Review Questions	52
	Notes	53

CHAPTER 3

Quantitative Foundations	55
3.1 Return and Rate Mathematics	55
3.1.1 The Compounding Assumption	55
3.1.2 Logarithmic Returns	56
3.1.3 The Return Computation Interval and Aggregation	56
3.2 Returns Based on Notional Principal	57
3.2.1 The Challenge of Returns on Positions with Zero Value	57
3.2.2 Notional Principal and Full Collateralization	58
3.2.3 Partially Collateralized Rates of Return	59
3.3 Internal Rate of Return	60
3.3.1 Defining the IRR	61
3.3.2 Computing the IRR	61
3.3.3 IRR Measurement Intervals	63
3.4 Problems with Internal Rate of Return	64
3.4.1 Complex Cash Flow Patterns	64
3.4.2 Comparing Investments Based on IRRs	66
3.4.3 IRRs Should Not Be Averaged	67
3.4.4 IRR and the Reinvestment Rate Assumption	68
3.4.5 Modified Internal Rate of Return	68
3.4.6 Advantages and Disadvantages of Modified Internal Rate of Return	71
3.4.7 Time-Weighted Returns versus Dollar-Weighted Returns	72
3.5 Other Performance Measures	73
3.5.1 Ratios as Performance Measures	73
3.5.2 The Public Market Equivalent (PME) Method	74
3.6 Illiquidity, Accounting Conservatism, IRR, and the J-Curve	75
3.6.1 Accounting Conservatism and Early Fund Losses	76
3.6.2 Accounting Conservatism and Deferred Recognition of Gains	76
3.6.3 The J-Curve	76
3.7 Distribution of Cash Waterfall	77
3.7.1 Cash Waterfalls	77
3.7.2 The Compensation Scheme	78
3.7.3 Incentive-Based Fees	80
3.7.4 Aggregating Profits and Losses	80
3.7.5 Clawbacks and Alternating Profits and Losses	81
3.7.6 Hard Hurdle Rates	83
3.7.7 Soft Hurdles and a Catch-Up Provision	83
3.7.8 Incentive Fee as an Option	84
Review Questions	85
Note	86

CHAPTER 4

Statistical Foundations	87
4.1 Return Distributions	87
4.1.1 Ex Ante and Ex Post Return Distributions	87
4.1.2 The Normal Distribution	88
4.1.3 Log Returns and the Lognormal Distribution	88

4.2	Moments of the Distribution: Mean, Variance, Skewness, and Kurtosis	90
4.2.1	The Formulas of the First Four Raw Moments	90
4.2.2	The Formulas of Central Moments	91
4.2.3	Skewness	92
4.2.4	Excess Kurtosis	92
4.2.5	Platykurtosis, Mesokurtosis, and Leptokurtosis	94
4.3	Covariance, Correlation, Beta, and Autocorrelation	94
4.3.1	Covariance	95
4.3.2	Correlation Coefficient	95
4.3.3	The Spearman Rank Correlation Coefficient	97
4.3.4	The Correlation Coefficient and Diversification	98
4.3.5	Beta	99
4.3.6	Autocorrelation	100
4.3.7	Higher-Order Autocorrelation and Partial Autocorrelation	102
4.3.8	The Durbin-Watson Test for Autocorrelation	104
4.4	Interpreting Standard Deviation and Variance	104
4.4.1	Standard Deviation and Typical Deviations	104
4.4.2	Standard Deviation of Normally Distributed Returns	105
4.4.3	Properties of Variance	107
4.4.4	Properties of Standard Deviation	108
4.5	Testing for Normality	111
4.5.1	Why Are Some Returns Markedly Non-Normal?	111
4.5.2	Moments-Based Tests for Normality with Data Samples	112
4.5.3	The Jarque-Bera Test for Normality	113
4.5.4	An Example of the Jarque-Bera Test	114
4.6	Time-Series Return Volatility Models	114
	Review Questions	116

CHAPTER 5

	Foundations of Financial Economics	117
5.1	Informational Market Efficiency	117
5.1.1	Further Definitions of Informational Market Efficiency	117
5.1.2	Forms or Levels of Informational Market Efficiency	118
5.1.3	Informational Market Efficiency and “Efficient Inefficiency”	119
5.1.4	Six Factors Driving Informational Market Efficiency	120
5.1.5	Factors Influencing Informational Efficiency in Alternative Asset Markets	121
5.2	The Time Value of Money, Prices, and Rates	122
5.2.1	Zero-Coupon Bond Prices and the Time Value of Money	122
5.2.2	Deriving Interest Rates from Zero-Coupon Bond Prices	123
5.2.3	Determination of the Short-Term Interest Rate	124
5.2.4	Estimating the Term Structure of Interest Rates with Zero-Coupon Bonds	124
5.2.5	The Yield Curve and Its Approximation	125
5.2.6	Bootstrapping the Term Structure of Interest Rates with Coupon Bonds	126

5.3	The Three Primary Theories of the Term Structure of Interest Rates	127
5.3.1	The Unbiased Expectations or Pure Expectations Theory	127
5.3.2	The Liquidity Preference or Liquidity Premium Theory	127
5.3.3	The Market Segmentation or Preferred Habitat Theory	128
5.3.4	Managerial Implications of the Three Term-Structure Theories	128
5.4	Forward Interest Rates	129
5.4.1	Implied Forward Rates	129
5.4.2	Implied Forward Rates with Annual and Continuous Compounding	129
5.4.3	The Term Structure of Implied Forward Rates	131
5.5	Arbitrage-Free Models	131
5.5.1	Underlying Concept of Arbitrage-Free Models	132
5.5.2	Applications of Arbitrage-Free Models	132
5.5.3	Arbitrage-Free Pricing in Spot Markets	133
5.5.4	Carry Trades with and without Hedging	133
5.6	Binomial Tree Models	134
5.6.1	The Mechanics of a Binomial Tree That Lead to a Normal Distribution	134
5.6.2	A Simplified Binomial Tree Model for a Stock and a Call Option	135
5.6.3	The Nature and Power of a Risk-Neutral Model	136
5.6.4	The Advantage to Binomial Tree Models and Their Extensions	136
5.7	Single-Factor Default-Free Bond Models	137
5.7.1	Traditional Duration	137
5.7.2	Duration for a Fixed-Coupon Bond	138
5.7.3	Duration for a Bond Portfolio	138
5.7.4	Managing the Duration of a Long-Only Bond Portfolio to a Target	139
5.7.5	Duration for Securities with Stochastic Cash Flows	140
5.7.6	Duration as the Longevity of a Zero-Coupon Bond of Equivalent Risk	141
5.7.7	Hedging or Immunizing a Long-Short Portfolio with Duration through Time	142
5.7.8	Extensions to Traditional Duration	143
5.8	Single-Factor Equity Pricing Models	143
5.8.1	Single-Factor Asset Pricing	143
5.8.2	Ex Ante Asset Pricing	145
5.8.3	Ex Post Asset Pricing	146
	Review Questions	148
	Note	149

CHAPTER 6

	Derivatives and Risk-Neutral Valuation	151
6.1	Foundations of Forward Contracts	151
6.1.1	Forward Contracts, Delivery, and Settlement	151
6.1.2	The No-Arbitrage Approach to Determining Forward Prices	152

6.1.3	Determining the Forward Contract Price of a Zero-Coupon Default-Free Bond	152
6.1.4	Forward Prices, Expected Spot Prices, and Risk Neutrality	154
6.1.5	Forward Prices, Expected Bond Prices, and Term-Structure Theories	154
6.2	Forward Contracts on Rates	155
6.2.1	Forward Rate Agreements	155
6.2.2	Forward Rate Agreements and Implied Forward Interest Rates	156
6.2.3	Forward Rates and Their Extensions	157
6.3	Forward Contracts on Equities	157
6.3.1	Determining the Forward Contract Price of a Stock with No Dividends	157
6.3.2	The Forward Contract Price and Accrued Funding Costs	158
6.3.3	The Forward Price, the Riskless Interest Rate, and Risk Neutrality	159
6.3.4	The Forward Price of a Financial Asset Is an Equality Given the Riskless Interest Rate	160
6.3.5	Determining the Forward Contract Price of a Stock with Dividends	161
6.3.6	Four Cases of the Forward Curves of Financial Asset Prices	162
6.4	Forward Contracts on Assets with Benefits and Costs of Carry	165
6.4.1	The Benefits and Costs of Carry	165
6.4.2	The Forward Price of a Commodity	166
6.4.3	Four Factors Differentiating Forward Pricing on Financial and Physical Assets	167
6.4.4	Challenges Involving Measuring Storage Costs and Convenience Yields	168
6.4.5	Short Selling of Physical Assets	169
6.4.6	Forward Contracts with Nonzero Market Value	170
6.5	Forward Contracts Versus Futures Contracts	171
6.5.1	Trading Differences between Forward Contracts and Futures Contracts	171
6.5.2	The Mechanics of Marking-to-Market	172
6.5.3	Marking-to-Market and Counterparty Risk	173
6.5.4	Marking-to-Market and the Time Value of Money Effect on Risk	174
6.5.5	Marking-to-Market and the Time Value of Money Effect on Prices	175
6.5.6	Futures Trading and Initial Margin	176
6.5.7	Marking-to-Market and Maintenance Margin	176
6.6	Managing Long-Term Futures Exposures	178
6.6.1	Futures Contracts with Different Settlement Dates	178
6.6.2	Rollover Decisions Alter Long-Run Returns	179
6.7	Option Exposures	180
6.7.1	Option Risk Exposure Diagrams	180
6.7.2	Long and Short Positions in an Underlying Asset	180
6.7.3	Call and Put Exposures	182
6.7.4	Covered Call and Protective Put Exposures	182

6.7.5	Exposures of Two-Position Spreads	183
6.7.6	Exposures of Two-Position Combinations	183
6.7.7	Put-Call Parity and Option Collars	185
6.8	Option Pricing Models	186
6.8.1	An Option on a Portfolio	187
6.8.2	The Black-Scholes Call and Put Option Formulae	187
6.8.3	The Black Forward Option Pricing Model	188
6.8.4	The Currency Option Pricing Model	188
6.9	Option Sensitivities	188
6.9.1	The Five Most Popular Sensitivities	188
6.9.2	Unlimited Sensitivities	189
6.9.3	Using Option Sensitivities for Risk Management	190
	Review Questions	190
	Notes	191

CHAPTER 7

	Measures of Risk and Performance	193
7.1	Measures of Risk	193
7.1.1	Semivariance	193
7.1.2	Semistandard Deviation	194
7.1.3	Semivolatility	194
7.1.4	Shortfall Risk, Target Semivariance, and Target Semistandard Deviation	194
7.1.5	Tracking Error	195
7.1.6	Drawdown	195
7.1.7	Value at Risk	196
7.1.8	Strengths and Weaknesses of VaR	197
7.2	Estimating Value at Risk (VaR)	198
7.2.1	Estimating VaR with Normally Distributed Returns	198
7.2.2	Estimating VaR with Normally Distributed Underlying Factors	200
7.2.3	Two Primary Approaches to Estimating the Volatility for VaR	200
7.2.4	Two Approaches to Estimating VaR for Leptokurtic Positions	200
7.2.5	Estimating VaR Directly from Historical Data	201
7.2.6	Estimating VaR with Monte Carlo Analysis	202
7.2.7	Three Scenarios for Aggregating VaR	202
7.3	Benchmarking and Performance Attribution	203
7.3.1	Benchmarking Overview	203
7.3.2	Types of Benchmarks	203
7.3.3	Performance Attribution	204
7.4	Ratio-Based Performance Measures	204
7.4.1	The Sharpe Ratio	205
7.4.2	Four Important Properties of the Sharpe Ratio	207
7.4.3	The Treynor Ratio	207
7.4.4	Four Important Properties of the Treynor Ratio	208
7.4.5	The Sortino Ratio	208
7.4.6	The Information Ratio	209
7.4.7	Return on VaR	210

7.5	Risk-Adjusted Return Measures	210
7.5.1	Jensen's Alpha	210
7.5.2	M^2 (M-Squared) Approach	211
7.5.3	Average Tracking Error	214
	Review Questions	214
	Notes	214
CHAPTER 8		
	Alpha, Beta, and Hypothesis Testing	215
8.1	Overview of Beta and Alpha	215
8.1.1	Beta	215
8.1.2	Alpha	216
8.2	Ex Ante Versus Ex Post Alpha	217
8.2.1	Ex Ante Alpha	217
8.2.2	Ex Post Alpha	218
8.3	Single-Factor Models and Regression	220
8.3.1	Simple Linear Regression and the Single-Factor Market Model	220
8.3.2	Ordinary Least Squares Regression	221
8.3.3	Outliers	221
8.3.4	Autocorrelation	222
8.3.5	Heteroskedasticity	222
8.3.6	Interpreting a Regression's Goodness of Fit	223
8.3.7	Performing a t -Test on Regression Parameters	224
8.4	Inferring Ex Ante Alpha From Ex Post Alpha	225
8.4.1	Two Steps to Empirical Analysis of Ex Ante Alpha	225
8.4.2	Lessons about Alpha Estimation from a Fair Casino Game	225
8.5	Return Attribution, Alpha, and Beta	226
8.5.1	A Numerical Example of Alpha	227
8.5.2	Three Types of Model Misspecification	228
8.5.3	Beta Nonstationarity	229
8.5.4	Can Alpha and Beta Be Commingled?	230
8.6	Ex Ante Alpha Estimation and Return Persistence	230
8.6.1	Separating Luck and Skill with Return Persistence	231
8.6.2	Interpreting Estimated Return Persistence	231
8.7	Return Drivers	231
8.7.1	Beta Drivers	232
8.7.2	Passive Beta Drivers as Pure Plays on Beta	232
8.7.3	Alpha Drivers	233
8.7.4	Product Innovators and Process Drivers	233
8.8	Using Statistical Methods to Locate Alpha	234
8.8.1	Four Steps of Hypothesis Testing	234
8.8.2	The Error of Accepting a Hypothesis	236
8.8.3	Four Common Problems Using Inferential Statistics	236
8.8.4	Type I and Type II Errors	237
8.8.5	An Example of Erroneous Conclusions with Statistical Testing	238
8.9	Sampling and Testing Problems	239
8.9.1	Unrepresentative Data Sets	239

8.9.2	Data Mining versus Data Dredging	240
8.9.3	Backtesting and Backfilling	240
8.9.4	Cherry-Picking and Chumming	241
8.10	Statistical Issues in Analyzing Alpha and Beta	242
8.10.1	Non-Normality and the Cross-Sectional Search for Alpha	242
8.10.2	Outliers and the Search for Alpha	243
8.10.3	Biased Testing and the Search for Alpha	243
8.10.4	Spurious Correlation, Causality, and Beta Estimation	244
8.10.5	Fallacies of Alpha and Beta Estimation	245
	Review Questions	246
	Notes	247

PART 2

Real Assets

CHAPTER 9

	Natural Resources and Land	251
9.1	Natural Resources Other Than Land	251
9.1.1	Economic Roles and Vehicles of Natural Resources	251
9.1.2	Natural Resources as Exchange Options	252
9.1.3	Moneyness as a Crucial Factor in Natural Resource Development	253
9.1.4	Moneyness Differences and Natural Resource Development	254
9.1.5	Why Some In-the-Money Options Should Not Be Exercised Immediately	255
9.1.6	Implications of Moneyness for Risk of Natural Resources	256
9.2	Land	256
9.2.1	Land in Anticipation of Development	256
9.2.2	Land as an Option	257
9.2.3	Example of Land as a Binomial Option	258
9.2.4	Risk and Return of Investing in Land	260
9.3	Timber and Timberland	261
9.3.1	The Structure of Timber and Timberland Ownership and Management	261
9.3.2	Four Publicly Traded Ways to Obtain Exposure to U.S. Timber Returns	263
9.3.3	Three Key Benefits and Three Key Disadvantages of Timber Investment	263
9.4	Farmland	263
9.4.1	Farmland Valuation	264
9.4.2	The Structure of Farmland Ownership and Management	265
9.4.3	Demand for and Supply of Agricultural Products	266
9.4.4	Three Key Benefits and Three Key Disadvantages of Farmland Investment	266
9.4.5	Methods of Accessing Exposure to U.S. Farmland Returns	267
9.4.6	Three Factors of Multiple-Use Option Values	267

9.5	Valuation and Volatility of Real Assets	268
9.5.1	Smoothing of Reported Values Can Reduce the Perceived Riskiness of an Asset	268
9.5.2	Smoothing of True Values to Reduce Reported Risk Measures	269
9.5.3	Managed Returns and Volatility	270
9.5.4	Appraisals and Return Smoothing Due to Behavioral Biases	270
9.5.5	Four Causes of Return Smoothing Due to Reliance on Infrequent Transactions or Stale Data	271
9.6	Pricing and Historic Data Analysis	272
9.6.1	A Model of Stale Prices	272
9.6.2	The Effect of Stale Pricing on Historic Mean Returns	272
9.6.3	The Effect of Stale Pricing on Volatility	274
9.7	Contagion, Price Indices, and Biases	275
9.8	Key Observations Regarding Historical Returns of Timberland	278
9.9	Key Observations Regarding Historical Returns of Farmland	278
	Review Questions	279
	Notes	279
CHAPTER 10		
	Commodities	281
10.1	Investing in Commodities Without Futures	281
10.1.1	Three Disadvantages of Direct Investment in Physical Commodities	281
10.1.2	Hotelling's Theory and Attractive Direct Commodity Returns	282
10.1.3	Simon and Unattractive Direct Commodity Returns	283
10.1.4	The Idiosyncratic Risks and Two Betas of Commodity-Related Equities	284
10.1.5	Commodity-Linked Exchange-Traded Funds and Notes	285
10.1.6	Three Advantages and One Disadvantage of Commodity-Linked Notes	286
10.1.7	Commodity-Linked Notes Example	286
10.2	The Term Structure of Forward Prices on Commodities	288
10.2.1	Costs of Carry for Commodities	288
10.2.2	Harvests, Supply Elasticity, and Shifts in Demand	290
10.2.3	Backwardation and Contango	291
10.2.4	How Backwardation and Contango Reflect Cost of Carry in a Perfect Market	292
10.2.5	Backwardation and Contango in an Imperfect Market	292
10.2.6	The Basis of Forward and Futures Contracts	293
10.2.7	Calendar Spreads on Forward Contracts	294
10.2.8	The Return on a Calendar Spread	294
10.2.9	The Risks of a Calendar Spread	295
10.3	Rolling of Forward and Futures Contracts	296
10.3.1	Why Returns on a Futures Contract Can Differ from the Spot Return	296

10.3.2	Components of Futures Returns	296
10.3.3	Two Interpretations of Rolling Contracts	298
10.3.4	Roll Yield and the Slope of the Forward Curve	299
10.3.5	Roll Yield, Carrying Costs, the Basis, and Alpha	300
10.3.6	The Strategy of Rolling Contracts Affects Return Expectations	301
10.3.7	The Impact of Rolling Contracts on Alpha	301
10.3.8	Three Propositions Regarding Roll Return	302
10.4	Normal Backwardation and Normal Contango	302
10.4.1	Normal Backwardation	303
10.4.2	Normal Contango	303
10.4.3	Interpreting Normal Backwardation and Normal Contango	303
10.4.4	Keynes and Normal Backwardation	304
10.4.5	Commodity Forward Curves, Storage Costs, and Inventory Variation	305
10.4.6	Commodity Forward Prices and the Market Segmentation Hypothesis	305
10.4.7	Option-Based Models of the Forward Curve for Commodities	306
10.5	Commodity Exposure and Diversification	307
10.5.1	Four Explanations of Commodities as Diversifiers	307
10.5.2	Commodities as Diversifiers in a Perfect Market Equilibrium	308
10.5.3	Commodities as Diversifiers in the Presence of Market Imperfections	309
10.5.4	Commodities as Diversifiers against Unexpected Inflation	309
10.6	Expected Returns on Commodities	310
10.6.1	Empirical Evidence on Long-Run Commodity Price Changes	310
10.6.2	Theoretical Evidence on Expected Commodity Returns	310
10.6.3	Irrelevancy of Commodity Price Expectations to Returns on Futures Contracts	311
10.7	Commodity Futures Indices	312
10.7.1	Construction and Uses of Commodity Futures Indices	312
10.7.2	Commodity Futures Indices	313
10.7.3	Production-Weighted Long-Only Commodity Indexes	313
10.7.4	Market-Liquidity-Weighted Long-Only Commodity Indexes	314
10.7.5	Tier-Weighted Long-Only Commodity Indices	314
10.8	Commodity Risk Attributes	314
10.8.1	Four Favorable Characteristics of Commodities with Respect to Event Risks	315
10.8.2	Commodities as a Defensive Investment	315
10.8.3	Commodity Prices and Institutional Investing Demand	316
10.9	Observations Based on Historical Returns	318
	Review Questions	318
	Notes	318

CHAPTER 11

Other Real Assets	319
11.1 Commodity Producers	319
11.1.1 Natural Resource Prices as a Driver of Operating Firm Performance	319
11.1.2 Evidence on Commodity Prices and the Equity Prices of Operating Firms	320
11.1.3 Commodity Prices and Operating-Firm Equity Return Correlations	321
11.2 Liquid Alternative Real Assets	322
11.2.1 Structure of MLPs and the MLP Sector	322
11.2.2 Tax Characteristics of MLPs	323
11.2.3 MLP Valuations and Distribution Rates	324
11.3 Infrastructure	325
11.3.1 Seven Elements That Help Identify Investable Infrastructure	325
11.3.2 Economic versus Social Infrastructure	326
11.3.3 Public-Private Partnerships in Infrastructure Investing	327
11.3.4 Risks and Government Regulation of Infrastructure Investing	329
11.3.5 Stages of Infrastructure	330
11.3.6 Infrastructure Investment Vehicles	330
11.3.7 Twelve Determinants of Infrastructure	332
11.3.8 Opportunities and Allocations in Infrastructure Investments	335
11.4 Intellectual Property Overview	336
11.4.1 Characteristics of IP	338
11.4.2 Intellectual Properties and Six Characteristics of Real Assets	339
11.4.3 A Simplified Model of Intellectual Property	340
11.5 Cash Flows of Intellectual Property	341
11.5.1 Film Production and Distribution Revenues	341
11.5.2 Film Production and Distribution Expenses	342
11.5.3 Film Financing	343
11.5.4 Film Profitability	344
11.6 Visual Works of Art and Historical Performance Data	344
11.7 R&D and Patents as Unbundled Intellectual Property	346
11.7.1 Accessing R&D through Patents	346
11.7.2 Patent Acquisition and Licensing Strategies	346
11.7.3 Patent Enforcement and Litigation Strategies	347
11.7.4 Patent Sale License-Back Strategies	348
11.7.5 Patent Lending Strategies	348
11.7.6 Patent Sales and Pooling	348
11.7.7 Risks to Investment in Patents	349
11.8 Intellectual Property Conclusions	349
Review Questions	350
Notes	350
References	350

CHAPTER 12

Real Estate Assets and Debt	353
12.1 Categories of Real Estate	353
12.1.1 Equity versus Debt	353
12.1.2 Domestic versus International	354
12.1.3 Residential versus Commercial	354
12.1.4 Private versus Public	355
12.1.5 Real Estate Categorization by Market Size	355
12.2 Advantages, Disadvantages, and Styles of Real Estate Investments	355
12.2.1 Five Potential Advantages of Real Estate	356
12.2.2 Three Potential Disadvantages of Real Estate	356
12.2.3 Real Estate Styles Overview	357
12.2.4 Core Real Estate Style	357
12.2.5 Value-Added Real Estate Style	358
12.2.6 Opportunistic Real Estate Style	358
12.2.7 Differentiating Real Estate Styles with Eight Attributes	359
12.2.8 Three Purposes of Real Estate Style Analysis	359
12.3 Real Estate Style Boxes	361
12.4 Residential Mortgages	363
12.4.1 Fixed-Rate Mortgages	363
12.4.2 Interest-Only Mortgages	367
12.4.3 Variable-Rate Mortgages	367
12.4.4 Other Types of Mortgages	370
12.4.5 Residential Mortgages and Default Risk	371
12.5 Commercial Mortgages	372
12.5.1 Commercial Mortgage Characteristics	372
12.5.2 Commercial Mortgage Default Risk	373
12.5.3 Financial Ratios for Commercial Mortgages and Default Risk	374
12.6 Mortgage-Backed Securities Market	375
12.6.1 Residential Mortgage Prepayment Options	375
12.6.2 Measuring Unscheduled Prepayment Rates	376
12.6.3 Pricing RMBS with PSA Rates	378
12.6.4 Commercial Mortgage-Backed Securities	379
12.7 Liquid Alternatives: Real Estate Investment Trusts	380
12.8 Key Observations Regarding Historical Returns of Mortgage REITs	382
Review Questions	384
Notes	384

CHAPTER 13

Real Estate Equity	385
13.1 Real Estate Development	385
13.1.1 Real Estate Development as Real Options	385
13.1.2 An Example of a Real Estate Project with Real Options	386
13.1.3 Decision Trees	387
13.1.4 Backward Induction and Decision Trees	388

13.2	Commercial Real Estate Valuation	389
13.2.1	Three Reasons for the Emphasis on Commercial Real Estate Equity	390
13.2.2	The Comparable Sales Approach as a Major Valuation Approach	390
13.2.3	The Profit and Cost Approaches	391
13.2.4	Cap Rates and the Perpetuity Valuation Approach	391
13.2.5	The Income Approach as a Major Valuation Approach	393
13.2.6	Transaction-Based Methods (Repeat-Sales and Hedonic)	394
13.2.7	Two Advantages of Appraisal-Based Models over Transaction-Based Models	394
13.2.8	Four Disadvantages of Appraisal-Based Models over Transaction-Based Models	394
13.2.9	The NCREIF Property Index as an Appraisal-Based Index	395
13.3	Details of the Income Approach to Real Estate Valuation	397
13.3.1	Cash Flows for the Income Approach	397
13.3.2	Discount Rate for the Income Approach	398
13.3.3	Taxes and Financing Costs in the Income Approach	401
13.4	Illustration of the Income Method of Real Estate Valuation	402
13.5	Alternative Real Estate Investment Vehicles	403
13.5.1	Private Equity Real Estate Funds	403
13.5.2	Commingled Real Estate Funds	404
13.5.3	Syndications	404
13.5.4	Joint Ventures	404
13.5.5	Limited Partnerships	405
13.5.6	Open-End Real Estate Mutual Funds	405
13.5.7	Options and Futures on Real Estate Indices	406
13.5.8	Exchange-Traded Funds Based on Real Estate Indices	407
13.5.9	Closed-End Real Estate Mutual Funds	407
13.5.10	Equity Real Estate Investment Trusts	408
13.6	Equity REIT Returns	409
13.6.1	Private versus Public REITs	409
13.6.2	Do Public REITs Offer an Illiquidity Premium?	409
13.6.3	Real Estate Indices Based on Financial Market Prices	410
13.7	Key Observations Regarding Historical Risks and Returns of Equity REITs	410
	Review Questions	412

PART 3

Hedge Funds

CHAPTER 14

	Structure of the Hedge Fund Industry	415
14.1	Distinguishing Hedge Funds	415
14.1.1	Three Primary Elements of Hedge Funds	415
14.1.2	Six Investment Flexibilities of Hedge Funds	416
14.1.3	Industry Concentration	418

14.2	Hedge Fund Fees	419
14.2.1	Computation of Hedge Fund Fees	420
14.2.2	Hedge Fund Fees through Time	421
14.2.3	Incentive Fees and Manager Behavior	422
14.2.4	The Present Value of a Hedge Fund Fee Annuity	424
14.2.5	Hedge Fund Fees and Option Theory	427
14.2.6	Hedge Fund Fees and Managerial Behavior	429
14.3	Hedge Fund Classification	431
14.4	Hedge Fund Returns and Asset Allocation	433
14.4.1	Grouping Strategies by Systematic Risk	433
14.4.2	Equity Strategies	434
14.4.3	Event-Driven and Relative Value Strategies	434
14.4.4	Event Risk and Volatility	435
14.4.5	Event Risk and Insurance Contracts	436
14.4.6	Absolute Return Strategies	437
14.4.7	Diversified Fund Strategies	438
14.5	Evaluating a Hedge Fund Investment Program	438
14.5.1	Hedge Fund Investment Program Parameters	438
14.5.2	Three Research Findings Regarding Hedge Fund Performance	439
14.5.3	Opportunistic Hedge Fund Investing	439
14.6	Three Research Studies on Whether Hedge Funds Adversely Affect the Financial Markets	441
14.7	Hedge Fund Indices	442
14.7.1	Management and Incentive Fees	443
14.7.2	Inclusion of Managed Futures	444
14.7.3	Asset Weighted versus Equally Weighted	444
14.7.4	The Size of the Hedge Fund Universe	445
14.7.5	Representativeness and Data Biases	445
14.7.6	Strategy Definition and Style Drift	448
14.7.7	Index Investability	450
14.8	Conclusion	451
	Review Questions	451
	Notes	451

CHAPTER 15

	Macro and Managed Futures Funds	453
15.1	Macro and Managed Futures Strategies	453
15.1.1	Discretionary versus Systematic Trading	453
15.1.2	Fundamental and Technical Analysis	454
15.1.3	Organization of the Chapter	455
15.2	Global Macro	455
15.2.1	Global Macro Strategies: The Case of Exchange Rates	456
15.2.2	Global Macro Strategies: The Case of Bonds	457
15.2.3	Global Macro Strategies: The Case of Economic Policy	457
15.2.4	Global Macro Strategies: Thematic Investing	458
15.2.5	Global Macro Strategies: Macro and Micro	458
15.2.6	Three Primary Risks of Macro Investing	459

15.3	Managed Futures	459
15.3.1	Background on Futures Contracts	460
15.3.2	The Structure of the Managed Futures Industry	461
15.3.3	The Purpose of the Managed Futures Industry	461
15.3.4	Regulation and Organization of the Managed Futures Industry	462
15.3.5	Three Ways to Access Managed Futures	462
15.4	Systematic Trading	464
15.4.1	Derivation of Systematic Trading Rules	464
15.4.2	Three Questions in Evaluating a Systematic Trading System	464
15.4.3	Validation and Potential Degradation of Systematic Trading Rules	465
15.4.4	Systematic Trading Strategies Overview	466
15.4.5	Simple Moving Averages in Systematic Trading Strategies	466
15.4.6	Weighted and Exponential Moving Averages in Systematic Trading Strategies	468
15.4.7	An Illustration of a System Using Two Moving Averages	470
15.4.8	Breakout Strategies	471
15.4.9	Analysis of Trend-Following Strategies	472
15.4.10	Non-Trend-Following Strategies	473
15.4.11	Relative Value Strategies and Technical Analysis	475
15.5	Four Core Dimensions of Managed Futures Investment Strategies	476
15.5.1	Data Sources as a Core Managed Futures Dimension	476
15.5.2	Implementation Style as a Core Managed Futures Dimension	477
15.5.3	Strategy Focus as a Core Managed Futures Dimension	477
15.5.4	Time Horizon as a Core Managed Futures Dimension	478
15.6	Systematic Futures Portfolio Construction	479
15.6.1	The Four Core Decisions of a Futures Trading System	479
15.6.2	Data Processing in Futures Portfolio Construction	479
15.6.3	Position Sizing in Futures Portfolio Construction	479
15.6.4	Market Allocation in Futures Portfolio Construction	482
15.6.5	Trading Execution in Futures Portfolio Construction	482
15.7	Eight Core Benefits of Managed Futures for Investors	483
15.8	Evidence on Managed Futures Returns	485
15.8.1	Evidence on Managed Futures Alpha	485
15.8.2	The Evidence on Downside Risk Protection	485
15.8.3	Mechanical Managed Futures Indices	486
15.8.4	Why Might Managed Futures Provide Superior Returns?	486
15.8.5	Six Potentially Important Risks of Managed Futures Funds	488
15.8.6	Managed Accounts and Platforms	489
15.8.7	Multimanager Funds	490
15.8.8	Structuring Managed Futures Products with Managed Accounts	491
15.8.9	Structuring Managed Futures Products with Platforms	493

15.9	Benefits of Managed Futures Funds	493
15.9.1	Research Regarding the Benefits of Managed Futures Funds	493
15.9.2	Sources of Return for Managed Futures Funds	496
15.10	Key Observations Regarding Historical Returns of Macro and Systematic Diversified Funds	499
	Review Questions	499
	Notes	499

CHAPTER 16

	Event-Driven Hedge Funds	501
16.1	The Sources of Most Event Strategy Returns	501
16.1.1	Insurance-Selling View of Event Strategy Returns	502
16.1.2	Binary Option View of Event Strategy Returns	502
16.1.3	Binary Call Option View of Events	504
16.2	Activist Investing	505
16.2.1	Background on Corporate Governance	505
16.2.2	Five Dimensions of Shareholder Activists	506
16.2.3	Shareholder Activists' Strategies	507
16.2.4	Why Managers Are Not Viewed as Maximizing Shareholder Wealth	508
16.2.5	Consequences of Shareholder and Manager Misalignment	509
16.2.6	Corporate Governance Battles	510
16.2.7	Activist Agenda 1: CEOs, Compensation, and Boards of Directors	512
16.2.8	Activist Agenda 2: Capital Structure and Dividend Policy Issues	513
16.2.9	Activist Agenda 3: Mergers or Divestitures	514
16.2.10	Key Observations Regarding Historical Returns of Activist Funds	517
16.3	Merger Arbitrage	517
16.3.1	Stock-for-Stock Merger Arbitrage	518
16.3.2	Third-Party Bidders and Bidding Wars	519
16.3.3	Overview of Risks of Merger Arbitrage	520
16.3.4	Regulatory Risk	521
16.3.5	Financing Risk	522
16.3.6	Key Observations Regarding Historical Returns of Merger Arbitrage Funds	524
16.4	Distressed Securities Funds	524
16.4.1	The Bankruptcy Process	524
16.4.2	Short Sales of Equity as Writing Naked Call Options	526
16.4.3	Searching for Distressed Undervalued Securities and Estimating Recovery Value	527
16.4.4	Estimating Returns from Undervalued Securities	527
16.4.5	Distressed Activists	528
16.4.6	Capital Structure Arbitrage	529
16.4.7	Buying the Firm Using Distressed Securities	530

16.4.8	Key Observations Regarding Historical Returns of Distressed Funds	532
16.5	Event-Driven Multistrategy Funds	532
16.5.1	Key Observations Regarding Historical Returns of Event-Driven Multistrategy Funds	534
	Review Questions	534
	Notes	534

CHAPTER 17

	Relative Value Hedge Funds	535
17.1	Overview of Relative Value Strategies	535
17.2	Convertible Bond Arbitrage	536
17.2.1	Defining and Pricing Convertible Bonds	536
17.2.2	Busted, Hybrid, and Equity-Like Convertibles	538
17.2.3	Delta, Gamma, and Theta	538
17.2.4	Stylized Illustration of Convertible Arbitrage	539
17.2.5	Convertible Arbitrage and Short Selling	541
17.2.6	Convertible Bond Arbitrage Background	541
17.2.7	Four Sources of Returns to Convertible Bond Arbitrage	542
17.2.8	Components of Convertible Arbitrage Returns	543
17.2.9	Details Regarding Convertible Bond Arbitrage	545
17.2.10	Return Drivers of Convertible Bond Arbitrage	547
17.2.11	Key Observations Regarding Historical Returns of Convertible Arbitrage Funds	549
17.3	Volatility Arbitrage	551
17.3.1	Volatility and Vega Overview	551
17.3.2	Instruments Used by Volatility Arbitrage Funds	552
17.3.3	Risks of Exchange-Traded versus OTC Derivatives	555
17.3.4	Volatility Arbitrage Strategies	556
17.3.5	Market-Neutral Volatility Funds	557
17.3.6	Challenges of Estimating Dispersion	558
17.3.7	Tail Risk Strategies	559
17.3.8	The Dispersion Trade	561
17.3.9	Profit and Loss on Dispersion Trades	561
17.3.10	Summary of Five Volatility Arbitrage Risks	563
17.3.11	Key Observations Regarding Historical Returns of Relative Value Volatility Funds	565
17.4	Fixed-Income Arbitrage	565
17.4.1	The Core of Fixed-Income Arbitrage Strategies	565
17.4.2	Types of Fixed-Income Arbitrage Strategies	566
17.4.3	Fixed-Income Arbitrage Strategies: Sovereign Debt	567
17.4.4	Asset-Backed and Mortgage-Backed Securities Strategies	569
17.4.5	Prepayment Risk and Option-Adjusted Spreads	570
17.4.6	Five Risks of Asset-Backed and Mortgage-Backed Securities Arbitrage	572
17.4.7	Key Observations Regarding Historical Returns of Fixed-Income Arbitrage Strategies	575

17.5	Relative Value Multistrategy Funds	575
17.5.1	Rationale of Relative Value Multistrategy Funds	575
17.5.2	Key Observations Regarding Historical Returns of Relative Multistrategy Funds	576
	Review Questions	578
	Notes	578
CHAPTER 18		
	Equity Hedge Funds	579
18.1	Commonalities of Equity Hedge Funds	579
18.2	Sources of Return	580
18.2.1	Providing Liquidity	580
18.2.2	Providing Informational Efficiency	582
18.2.3	Identifying Factors That Can Create Profit Opportunities	583
18.3	Market Anomalies	584
18.3.1	Market Efficiency Tests as Joint Hypotheses	584
18.3.2	Predicting Persistence of Market Anomalies	585
18.3.3	Accounting Accruals and Market Anomalies	585
18.3.4	Price Momentum and Market Anomalies	586
18.3.5	Earnings Momentum and Market Anomalies	587
18.3.6	Net Stock Issuance and Market Anomalies	588
18.3.7	Insider Trading and Market Anomalies	589
18.4	Implementing Anomaly Strategies	590
18.4.1	Integrating Anomalies Using Factor Models	590
18.4.2	Integrating Anomalies Using Pairs Trading	591
18.4.3	Short Selling and Reducing Risk versus Increasing Alpha	592
18.4.4	The Limits to Arbitrage	593
18.5	The Three Equity Strategies	594
18.5.1	Mechanics of Short Selling	594
18.5.2	The Basics of Short-Bias Funds	595
18.5.3	Key Observations Regarding Returns of Short-Bias Funds	597
18.5.4	The Basics of Equity Long/Short Funds	599
18.5.5	Key Observations Regarding Historical Returns for Equity Long/Short Funds	600
18.5.6	The Basics of Equity Market-Neutral Funds	602
18.5.7	Key Observations Regarding Historical Returns of Equity Market-Neutral Funds	603
18.6	Equity Hedge Fund Risks	605
	Review Questions	605
	Notes	606
CHAPTER 19		
	Funds of Hedge Funds	607
19.1	Overview of Funds of Hedge Funds	607
19.1.1	Benefits and Costs of Diversification	607
19.1.2	Four Functions of Fund of Funds Management	609
19.1.3	Eleven Benefits to Investing in Funds of Funds	610
19.1.4	Six Disadvantages to Investing in Funds of Funds	612

19.1.5	Three Major Ways for FoF Managers to Add Value	613
19.1.6	How Many Hedge Funds Provide Reasonable Diversification?	614
19.1.7	Identifying Funds for an Institutional Portfolio or Fund of Funds	615
19.2	Investing in Multistrategy Funds	616
19.2.1	Incentive Fees as a Potential Advantage of Multistrategy Funds	616
19.2.2	Flexibility and Transparency	617
19.2.3	Managerial Selection and Operational Risks	618
19.3	Investing in Funds of Hedge Funds	619
19.3.1	Funds of Hedge Funds as Diversified Pools	619
19.3.2	Funds of Hedge Funds Have Varying Investment Objectives	621
19.3.3	Funds of Funds as Venture Capitalists	621
19.4	Investing in Portfolios of Single Hedge Funds	622
19.5	Multialternatives and Other Hedge Fund Liquid Alternatives	624
19.5.1	Emergence of Liquid Alternatives	624
19.5.2	UCITS Framework for Liquid Alternatives	625
19.5.3	Funds Registered under the '40 Act	625
19.5.4	Availability of Liquid Alternative Strategies	626
19.5.5	Engineering Illiquid and Leveraged Strategies into Multialternatives	627
19.5.6	Performance of Liquid Alternative Vehicles	628
19.6	Key Observations Regarding Historical Returns of Funds of Funds	628
	Review Questions	631
	Notes	631

PART 4

Private Securities

CHAPTER 20

	Private Equity Assets	635
20.1	Introduction to Private Equity Terms and Background	635
20.1.1	Private Equity Securities	635
20.1.2	Introduction to Mezzanine Debt	636
20.1.3	Introduction to Distressed Debt	636
20.1.4	Introduction to Leveraged Loans	637
20.2	Overview of Three Forms of Pre-IPO Private Equity Investing	637
20.2.1	Venture Capital to Initial Public Offering	637
20.2.2	Growth Equity to Initial Public Offering	638
20.2.3	Buyout to Initial Public Offering	638
20.2.4	Contrasting Venture Capital, Growth Equity, and Buyouts	638
20.3	Venture Capital	639
20.3.1	Securities and Goals Used in Venture Capital	640
20.3.2	The Option-Like Payout of Venture Capital	641
20.3.3	History of Venture Capital	641

20.3.4	Angel and Other Very Early Stages of Venture Capital	642
20.3.5	First-Stage, Start-Up, and Early-Stage Venture Capital	643
20.3.6	Second and Later Stages of Venture Capital	643
20.3.7	The J-Curve for Private Equity Projects	644
20.3.8	The Valuation of Venture Capital Companies Based on Operating Income	645
20.3.9	Venture Capital Business Plans	647
20.4	Venture Capital as a Compound Option	647
20.5	Growth Equity	648
20.5.1	Describing Growth Equity Investments	649
20.5.2	Protective Provisions as a Key Deal Characteristic	649
20.5.3	Redemption Rights as a Key Deal Characteristic	649
