9781119534792 (epub)

Subjects: LCSH: Optical fibre detectors.

Classification: LCC TA1815 .O696 2021 (print) | LCC TA1815 (ebook) | DDC
621.36/92-dc23

LC record available at <https://lcn.loc.gov/2020020787>

LC ebook record available at <https://lcn.loc.gov/2020020788>

Cover Design: Wiley

List of Contributors

Francesco Baldini

Institute of Applied Physics “Nello Carrara” (IFAC)
National Research Council (CNR)
Florence
Italy

Francesco Chiavaioli

Institute of Applied Physics “Nello Carrara” (IFAC)
National Research Council (CNR)
Florence
Italy

Marco Consales

Optoelectronics Group
Department of Engineering
University of Sannio
Benevento
Italy

Brian Culshaw

Department of Electronic and Electrical Engineering
University of Strathclyde, Glasgow
Scotland, UK

Andrea Cusano

Optoelectronics Group
Department of Engineering
University of Sannio
Benevento
Italy

Jean Carlos Cardozo da Silva

Graduate Program in Electrical and Computer Engineering
Federal University of Technology
-Paraná Brazil

Ignacio Del Villar

Department of Electrical, Electronic and Communications
Engineering
Public University of Navarre
Pamplona
Spain

César Elosua

Department of Electrical, Electronic and Communications
Engineering
Public University of Navarre
Pamplona
Spain

José Rodolfo Galvão

Graduate Program in Electrical and Computer Engineering
Federal University of Technology
-Paraná Brazil

Ambra Giannetti

Institute of Applied Physics “Nello Carrara” (IFAC)
National Research Council (CNR)
Florence, Italy

Sillas Hadjiloucas

Department of Biomedical Engineering
University of Reading
Reading, UK

Arthur H. Hartog

Worthy Photonics Ltd
Winchester, UK

T. Hien Nguyen

Photonics and Instrumentation Research Centre
City University of London
London, UK

Alessandra Kalinowski

Graduate Program in Electrical and Computer Engineering

Federal University of Technology
-Paraná Brazil

Kamil Kosiel

Łukasiewicz Research Network – Institute of Electron
Technology
Al. Lotników 32/46, 02-668 Warsaw Poland

Alayn Loayssa

Department of Electrical, Electronic and Communications
Engineering
Public University of Navarre
Pamplona, Spain

Diego Lopez-Torres

Department of Electrical, Electronic and Communications
Engineering,
Public University of Navarre,
Pamplona, Spain

Dajuan Lyu

National Engineering Laboratory for Fibre Optic Sensing
Technology (NEL-FOST)
Wuhan University of Technology
Wuhan, China

Cicero Martelli

Graduate Program in Electrical and Computer Engineering
Federal University of Technology
-Paraná Brazil

Ignacio R. Matias

Institute of Smart Cities
Public University of Navarre
Pamplona, Spain

Carlo Molardi

School of Engineering
Nazarbayev University

Astana
Kazakhstan

Talita Paes

Graduate Program in Electrical and Computer Engineering
Federal University of Technology
-Paraná Brazil

Marco N. Petrovich

Optoelectronics Research Centre
University of Southampton
Southampton, UK

Marco Pisco

Optoelectronics Group
Department of Engineering
University of Sannio
Benevento, Italy

Armando Ricciardi

Optoelectronics Group
Department of Engineering
University of Sannio
Benevento, Italy

Mateusz Śmietana

Institute of Microelectronics and Optoelectronics
Warsaw University of Technology Koszykowa
Warsaw, Poland

Tong Sun

Photonics and Instrumentation Research Centre
City University of London
London, UK

Daniele Tosi

School of Engineering, Nazarbayev University, Astana,
Kazakhstan
and
Laboratory of Biosensors and Bioinstruments
