Limit of Liability/Disclaimer of Warranty

The contents of this work are intended to further general scientific research, understanding, and discussion only and are not intended and should not be relied upon as recommending or promoting scientific method, diagnosis, or treatment by physicians for any particular patient. In view of ongoing research, equipment modifications, changes in governmental regulations, and the constant flow of information relating to the use of medicines, equipment, and devices, the reader is urged to review and evaluate the information provided in the package insert or instructions for each medicine, equipment, or device for, among other things, any changes in the instructions or indication of usage and for added warnings and precautions. While the publisher and authors have used their best efforts in preparing this work, they make no representations or warranties with respect to the accuracy or completeness of the contents of this work and specifically disclaim all warranties, including without limitation any implied warranties of merchantability or fitness for a particular purpose. No warranty may be created or extended by sales representatives, written sales materials or promotional statements for this work. The fact that an organization, website, or product is referred to in this work as a citation and/or potential source of further information does not mean that the publisher and authors endorse the information or services the organization, website, or product may provide or recommendations it may make. This work is sold with the understanding that the publisher is not engaged in rendering professional services. The advice and strategies contained herein may not be suitable for your situation. You should consult with a specialist where appropriate. Further, readers should be aware that websites listed in this work may have changed or disappeared between when this work was written and when it is read. Neither the publisher nor authors shall be liable for any loss of profit or any other commercial damages, including but not limited to special, incidental, consequential, or other damages.

Contents

Acknowledgement	ix
Key Concepts and Terms	xi
Introduction	1
1 The Adult Male	3
1.1 Three Basic Requirements for Fertility in the Male	3
1.2 Endocrinology of the Male Reproductive System	4
1.3 Physiological Actions of Testosterone and Related Androgens	8
1.4 Spermatogenesis and Spermiogenesis	11
1.5 Production of Seminal Plasma	15
1.6 Testicular Thermoregulation; Varicocele	16
1.7 Penile Erection	18
1.8 Cellular Mechanism of PDE-5 Inhibitors in Treating Erectile Dysfunction	20
1.9 Emission and Ejaculation	21
1.10 Infertility	22
2 The Nonpregnant Adult Female	25
2.1 The Menstrual Cycle: A Perspective	25
2.2 Oogenesis	26
2.3 Folliculogenesis	28
2.4 Follicular Production of Sex Steroid Hormones	31
2.5 Recruitment of the Dominant Follicle	32
2.6 Transition from the Follicular to the Ovulatory Phase: The LH Surge	33

2.7 The Luteal Phase.....	35
2.8 Corresponding Uterine Phases: Menstrual, Proliferative, Secretory	36
2.9 Estrogen.....	39
2.10 Progesterone.....	40
2.11 Putting It Together	41
3 Pregnancy, Parturition, Lactation	45
3.1 Fertilization and Early Embryogenesis.....	45
3.2 Implantation	51
3.3 Multiple Births	53
3.4 Placentation	54
3.5 The Endocrinology of Pregnancy	59
3.6 Prenatal Testing for Fetal Aneuploidy and Other Maternal and Fetal Conditions.....	61
3.7 Maternal Adaptations During Pregnancy	63
3.8 Embryonic and Fetal Growth	65
3.9 Labor and Parturition	65
3.10 Lactation and Breastfeeding	68
3.11 Long-Term Health Effects of Pregnancy on Mother and Child.....	71
4 The Human Sexual Response	73
4.1 Desire Phase	73
4.2 Excitement Phase.....	74
4.3 Plateau Phase	75
4.4 Orgasmic Phase	75
4.5 Resolution Phase	77

5	Age-Related Changes in the Reproductive System.....	79
5.1	Childhood and Adolescence	79
5.2	Puberty.....	81
5.3	The Aging Male and Female.....	81
	Appendix A: Detailed Anatomy of the Male and Female Reproductive Systems	83
	Index.....	87

Acknowledgement

I would like to thank Wiley, particularly James Watson, Anne Hunt, and D. Vincent Rajan for their editorial assistance and guidance with the publication and copyediting process, and my family for their patience and support.
