*Give you a broken heart
But it can heal
If you take good care of you
Heart can die a thousand of times
And heal every time*

Part one

Just Remember
Take good care of you
All of The time
It heal you
I know... Because it's
How life goes
Sometimes

*So many you
Your name is
Sweetheart, friend, buddy
Every day they change
I love them all
because it's you*

We sing a song

*The best melody in life
Is when the heart beat right
Play along We sing a song
Love is 'on'*

Our alibi is

To not

Talk out loud

Fade away

*I'm fade away
As time goes by
Left behind
No one there
Just the silence
Friendship
Don't counts
For lovers*

*In The night
Moonlight in the dark
We two under the Stars
Masterpiece
Only to be seen in the night*

The world goes around

*Clock is on
The World goes around
Love and care
Is in the air
After a while
Change in the air
Happen Everyone
All of The time
That's life*

Try to find my way

*Street was rainy the light had fade away
That night I walked the Street after darkness*

Try to find my way

*The wise man/woman say look within
There you have something maybe it telling you*

Something you need to hear

That Little voice of wisdom

Listen have an ear

Not complain

*Give me the summer's sunshine
And The September rain
And dark cloudy days
I'm not complain
I have peace within
With an open heart
I meet the day
Wind Will Maybe Change
Tomorrow
Nothing else to do but
Have a faith
Through happiness and Sorrows*
