

FOURTH EDITION

FUNDAMENTALS OF CONSERVATION BIOLOGY

MALCOLM L. HUNTER, Jr. • JAMES P. GIBBS • VIOREL D. POPESCU

WILEY Blackwell

Table of Contents

[Cover](#)

[Dedication Page](#)

[Title Page](#)

[Copyright Page](#)

[List of Case Studies](#)

[Preface](#)

[Acknowledgments](#)

[About the Companion Website](#)

[PART I: Biodiversity and Its Importance](#)

[CHAPTER 1: Conservation and Conservation Biology](#)

[What Is Conservation?](#)

[A Brief History of Conservation](#)

[An Overview of Conservation Ethics](#)

[What Is Conservation Biology?](#)

[A Brief History of Conservation Biology](#)

[Summary](#)

[FURTHER READING](#)

[TOPICS FOR DISCUSSION](#)

[CHAPTER 2: What Is Biodiversity?](#)

[Species, Genes, and Ecosystems](#)

[Structure and Function](#)

[Measuring Biodiversity](#)

[The Mismeasure of Biodiversity](#)

[Biodiversity and Spatial Scales](#)

[Biodiversity Verbs](#)

The Related Concepts of “Integrity” and “Sustainability”

Summary

FURTHER READING

TOPICS FOR DISCUSSION

CHAPTER 3: Species Diversity

What Is a Species?

How Many Species Are There?

The Intrinsic Value of Species and Their Conservation Status

The Instrumental Values of Species

The Uniqueness Value of Species

Summary

FURTHER READING

TOPICS FOR DISCUSSION

CHAPTER 4: Ecosystem Diversity

What Is an Ecosystem?

The Values of Ecosystems

Ecosystem Diversity and Species Diversity

Ecosystems and Landscapes

Summary

FURTHER READING

TOPICS FOR DISCUSSION

CHAPTER 5: Genetic Diversity

What Is Genetic Diversity?

The Importance of Genetic Diversity

Processes That Diminish Genetic Diversity

Cultural Diversity

Summary

FURTHER READING

TOPICS FOR DISCUSSION

PART II: Threats to Biodiversity

CHAPTER 6: Mass Extinctions and Global Change

Extinction Episodes of the Past

Estimating the Current Rate of Extinction

The Recent History of Global Climate Change

How Did We Get to this Point? What Is the Way Ahead?

Summary

FURTHER READING

TOPICS FOR DISCUSSION

CHAPTER 7: Extinction Processes

Why Are Some Species More Vulnerable to Extinction than Others?

Populations

Population Viability Analysis

Summary

FURTHER READING

TOPICS FOR DISCUSSION

CHAPTER 8: Ecosystem Degradation and Loss

Contamination

Roads, Dams, and Other Structures

Earth, Fire, Water

Deforestation

Desertification

Draining, Dredging, Damming, Etc.

Fragmentation

Summary

FURTHER READING

TOPICS FOR DISCUSSION

CHAPTER 9: Overexploitation

The Long History of Overexploitation

Types of Exploitation

Consequences of Overexploitation

Some Final Perspectives on Exploitation

Summary

FURTHER READING

TOPICS FOR DISCUSSION

CHAPTER 10: Invasive Exotics

How Do Species Move?

Impacts of Invasive Exotics

Success Rates

Irony

Summary

FURTHER READING

TOPICS FOR DISCUSSION

PART III: Maintaining Biodiversity

CHAPTER 11: Protecting Ecosystems

Reserve Selection

Reserve Design

Reserve Management

Summary

FURTHER READING

TOPICS FOR DISCUSSION

CHAPTER 12: Sustaining Ecosystems

Forestry

[Livestock Grazing](#)

[Fisheries](#)

[Ecological Management](#)

[Restoring Ecosystems](#)

[Summary](#)

[FURTHER READING](#)

[TOPICS FOR DISCUSSION](#)

[CHAPTER 13: Managing Populations](#)

[Providing Resources](#)

[Controlling Threats](#)

[Direct Manipulations](#)

[Epilogue](#)

[Summary](#)

[FURTHER READING](#)

[TOPICS FOR DISCUSSION](#)

[CHAPTER 14: Conservation near People](#)

[Cultivated Ecosystems](#)

[Built Ecosystems](#)

[Zoos and Gardens](#)

[*The Ex Situ-In Situ Interface*](#)

[Conservation of Domesticated Species](#)

[Summary](#)

[FURTHER READING](#)

[TOPICS FOR DISCUSSION](#)

[PART IV: The Human Factors](#)

[CHAPTER 15: Social Factors](#)

[Values Differ](#)

[Describing Values](#)

[Values Change](#)

[Summary](#)

[FURTHER READING](#)

[TOPICS FOR DISCUSSION](#)

[CHAPTER 16: Economics](#)

[The Benefits](#)

[The Costs](#)

[The Distribution of Benefits and Costs](#)

[Problems and Solutions](#)

[Summary](#)

[FURTHER READING](#)

[TOPICS FOR DISCUSSION](#)

[CHAPTER 17: Politics and Action](#)

[Setting Priorities for Action](#)

[Rights and Responsibilities](#)

[International Agencies](#)

[Governments](#)

[Nongovernmental Organizations](#)

[Corporations](#)

[Communities](#)

[Individuals](#)

For Aram J.K. Calhoun, who inspires us with her delight in
the natural world and dedication to conservation.

For Kathleen E. (Cassie) and Harold C. Gibbs, who inspired
many to know and care for life on Earth.

For Tavi B. Popescu, whose wonder about the natural world
gives us optimism about the next generation of the Earth's
stewards.
