This gem (says Fern .) For this is the name Jastrzębiec , that the ancestors of his , also in paganism , was wearing the coat of arms of the only Hawk : atolls then the time of Boleslaw the Brave King , in the vicinity of the roar 999. When Lysa up miles of two of Bożęcín , the now S. cross is called , pagan enemies dominated , and the like in a fortress, the insured standing with the army to our scoffed , saying : one from among them to bring , that is for Christ , you , want of which from our on duel go out . Hear this knight a Jastrzębczyk , fervor of faith and praise God touches , the invented horseshoes under the hooves of horses , the horses horseshoes , happy to the bald until broke , since with defiantly descended from natrząsającym a pagan duel before natrząsającym , captured him , and the King brought : other even cavalry Polish soldiers , podawszy this way , when the horses of his horseshoes , and on the slippery and ice doused underwent , the enemy abolished and won : the reward of industry of his , from the same king , took the mantle carried away by arms of his variety , the horseshoes with a cross on the shield he made , hawk and the helmet . It's paproc . and

all others who are on the crest of writing . I but not I ,
the authors testify , to Jastrzębczyk first here
with us in Poland only in the year 999. The
invented horseshoes and Art cation [p. 463] horses ; For ge
neral partnership it is from the old
days , that even Poppea (the death of Nero describes Tacit
us n 16 .. Ulyss . Aldra de. Quadrup . Lib 1 ..) A horse of
his silver horseshoe kować said , and know ,
and before their other iron horseshoe enjoyed ,
and jam vol . 2. fol . 55.

Balbina historians Czech namienił , that in the Czech
Republic already for the year of the
Lord 278 was the house , which is three horseshoe of the
sealed , and as he says , still with a
Czech in these countries visited . And with us in Poland ,
Leszek zdradny , competing for naszpilowanym sharp point
s prądnic sweat , crown the pole exposed , the
horse gave his ukować , Cromer . lib . 2. For this also to
invent it his horseshoe understands foreign author , Szentiv
áni in curiosity . Prawdać , could be the saying , that our , u
p to the time of horseshoes to horses not used ,
(the clear Cromer tell about the time of Leszek the
second) and the Jastrzębczyk back this with you if
wireless in occasion przerzeczonej . Only with Paprocki, the
first of the authors of the nest of virtue , to the beginning
of the coat of arms Jastrzebiec , of which the to the time it
was said , by the time of Boleslaw the Brave brands :
and later of self published book , which was the
Title Stromata . far different ; that
the righteous first author of
the coat of arms Belina , three after a left sons , who as one
reconciled between them , the eldest of them , three in
the coat of arms took horseshoes , so as we see in the coat
of arms Belina , the second two , the shape like a coat of
arms Tearful : the third a horseshoe like in the coat of
arms Jastrzębiec : atolls as the first guess so ,

and second , no author is not supported . For the better to say , with the coat of arms along with Lech to polish our coming ; and from the time when baptism took one from the heads of the house , the cross practically came to him .

In fact, the ancient this house , and that even for Heathen in Polish monarchs flourished , each some writers , and some are useful , that one of the Jastrzębczyków , between twelve governors , who used the twice the state in all ruled , was on . Fern . in electricity. He says , that one of the families , in other people to countries to be , because Christian religious thought and takes her Mieczysław Prince of Poland was the reason . Know and therefore ancient Jastrzębczyków , that no weapons more familiantów not find , as a fertile Jastrzębczykowie : luboć Paprocki of coats says , that for several hundred years , only to Jastrzębczykami called them , only after Wojciech Archbishop of Gniezno , when the chief of the house began to write with Rytwian , others too, from where they had come from , hence their name . Know and this , that from the coat of arms of many other [p. 464] the jewels of its origin has , as Dabrowa, Zagłoba , Pobóg and others. Zowie is the coat of arms of various Boleszczyc . On Silesia and Mazovia Noodles : otherwise Jastrzębczyków so called , like, where Hawk is called , it is Kaniowowie Kudbrzowie . Alter Paprocki , a castle Jastrzębiec in Erbe Zborowski , which Piotr Zborowski with Rytwiany , Voivodes and General Krakow, devastated an

d toppled the soil , and ordered to make a large pond in this place .

Ancestors of this house .

The earliest of the home continues Paprocki , the privilege of the monastery , Mszczuj Castellan of Sandomierz in the year 999 of Boleslaw the Brave : two sons of his Mszczuj and John, who himself wrote the Jakuszewic , were cannons Kra kowskiemi , of Lambert Bishop to make 1061. Approximately then and other historians who write them . Dlugosz in the year 1084 remembers those Jastrzębczyków , which came from Hungary , with Mieczyslaw son Boleslaw the Brave , the letter Wladyslaw Monarch uncle of his , there is Bořivoj son Mszczuj , Zbylut , Dobrogost , Zema , Odol , Jędrzej , and the good they confiscated about killing S. Stanislaus, the bishop all returned .

Derśław cupbearer of Boleslaw the Wry-mouthed king Polish 1114 whose sons Wojciech and Derszławowi , with which Wojciech was Ensign Sandomierski , Boleslaw the Curly granted privilege of the village Jakuszewice and Kobel Niki , cited a cut be Paprocki, a coat of arms. Atolls long draft of years between father her and silence , this is the year one hundred sixty and six , believe me , this does not allow , that were sons Derśław tavern . Bořivoj and Derśław Jastrzębczyki heir to Jakuszowice , as the privilege of the monastery wrote Paprocki of 1199. Peter Son of
