Kowloon, Hong Kong

The series “Lecture Notes in Networks and Systems” publishes the latest developments in Networks and Systems—quickly, informally and with high quality. Original research reported in proceedings and post-proceedings represents the core of LNNS.

Volumes published in LNNS embrace all aspects and subfields of, as well as new challenges in, Networks and Systems.

The series contains proceedings and edited volumes in systems and networks, spanning the areas of Cyber-Physical Systems, Autonomous Systems, Sensor Networks, Control Systems, Energy Systems, Automotive Systems, Biological Systems, Vehicular Networking and Connected Vehicles, Aerospace Systems, Automation, Manufacturing, Smart Grids, Nonlinear Systems, Power Systems, Robotics, Social Systems, Economic Systems and other. Of particular value to both the contributors and the readership are the short publication timeframe and the world-wide distribution and exposure which enable both a wide and rapid dissemination of research output.

The series covers the theory, applications, and perspectives on the state of the art and future developments relevant to systems and networks, decision making, control, complex processes and related areas, as embedded in the fields of interdisciplinary and applied sciences, engineering, computer science, physics, economics, social, and life sciences, as well as the paradigms and methodologies behind them.

Indexed by SCOPUS, INSPEC, WTI Frankfurt eG, zbMATH, SCImago.

All books published in the series are submitted for consideration in Web of Science.

# Preface

The International Ergonomics Association (IEA) is the organization that unites Human Factors and Ergonomics (HF/E) associations around the world. The mission of the IEA is “to elaborate and advance ergonomics science and practice, and to expand its scope of application and contribution to society to improve the quality of life, working closely with its constituent societies and related international organizations” (IEA, 2021). The IEA hosts a world congress every three years creating the single most important opportunity to exchange knowledge and ideas in the discipline with practitioners and researchers from across the planet. Like other IEA congresses, IEA2021 included an exciting range of research and professional practice cases in the broadest range of Human Factors and Ergonomics (HF/E) applications imaginable. While the conference was not able to host an in-person meeting in Vancouver, Canada, as planned by the host Association of Canadian Ergonomists/*Association canadienne d’ergonomie*, it still featured over 875 presentations and special events with the latest research and most innovative thinkers. For this congress, authors could prepare a chapter for publication, and 60% chose to do so. The breadth and quality of the work available at IEA2021 are second to none—and the research of all authors who prepared their publication for this congress is made available through the five volumes of these proceedings.

The International Ergonomics Association defines Human Factors and Ergonomics (HF/E) synonymously as being:

*the scientific discipline concerned with the understanding of interactions among humans and other elements of a system, and the profession that applies theory, principles, data and methods to design in order to optimize human well-being and overall system performance.*

*Practitioners of ergonomics and ergonomists contribute to the design and evaluation of tasks, jobs, products, environments and systems in order to make them compatible with the needs, abilities and limitations of people.*

*Ergonomics helps harmonize things that interact with people in terms of people’s needs, abilities and limitations. (<https://iea.cc/definition-and-domains-of-ergonomics/>)*

The breadth of issues and disciplines suggested by this definition gives one pause for thought: what aspect in our lives is not in some way affected by the design and application of HF/E? For designers and managers around the world, a similar realization is growing: every decision made in the design and application of technology has implications for the humans that will interact with that system across its lifecycle. While this can be daunting, the researchers and professionals who participated in IEA2021 understand that, by working together across our disciplines and roles, we can achieve these lofty ambitions. This is especially relevant as we continue our collective journey into an increasingly “interconnected world”—the theme for the 21st IEA Congress. With the rise of a myriad of technologies as promulgated by Industry 4.0 proponents, we need now, more than ever, the skills and knowledge of HF/E researchers and practitioners to ensure that these tools are applied in a human-centric way towards resilient and sustainable systems that provide an enduring and sustainable road to prosperity—as advocated in the new Industry 5.0 Paradigm (Breque et al. 2021). Where the trend of Industry 4.0 aims primarily at encouraging technology purchasing and application, Industry 5.0 includes goals of resiliency and sustainability for both humans and our planet. These proceedings provide examples of research and development projects that illustrate how this brighter, human-centred future can be pursued through “*Ergonomie 4.0*”, as stated in the French theme of the Congress.

While the theme of the Congress concerns human interactions within a rapidly evolving cyber-physical world, the devastating impact of the COVID-19 pandemic has given an added dimension to the Congress theme and its delivery model. As the pandemic began to engulf the world, the traditional in-person Congress became increasingly less viable and gave way to the creation of a hybrid model as a means to enhance international participation. In early 2021, it became clear that holding an in-person event would not be possible; hence, the Congress was converted to a fully virtual event. The uncertainty, mounting challenges and turbulent progression actually created new possibilities to engage the global HF/E community in ways that were never previously explored by the IEA. Indeed, one of the scientific tracks of the congress focuses explicitly on HF/E contributions to cope with COVID-19, and readers will find some submissions to other tracks similarly focus on what HF/E practitioners and researchers bring to the world during this pandemic period. This journey epitomizes broader transformative patterns now underway in society at large and accentuates the urgency for resilience, sustainability, and healthy workplaces. No doubt, the notion of globalization will be redefined in the wake of the pandemic and will have far-reaching implications for the connected world and for future society, and with new paradigms emerge a host of new human factors challenges. The breadth of topics and issues addressed in the proceedings suggests that the HF/E community is already mobilizing and rising to these emerging challenges in this, our connected world.

IEA2021 proceedings includes papers from 31 scientific tracks and includes participants from 74 countries across 5 continents. The proceedings of the 21st triennial congress of the IEA—IEA2021—exemplify the diversity of HF/E, and of the association, in terms of geography, disciplines represented, application

domains, and aspects of human life cycle and capability being considered. Our diversity mirrors the diversity of humans generally and is a strength as we learn to weave our knowledge, methods, and ideas together to create a more resilient and stronger approach to design than is achievable individually. This is the strength of the IEA congresses, in the past, in the current pandemic-affected 21st occasion, and in the future. There is no other meeting like it.

A substantial number of works were submitted for publication across the Scientific Tracks at IEA2021. This gave us the happy opportunity to group contents by common threads. Each volume presents contents in sections with papers within the track's section presented in alphabetical order by the first author's last name. These proceedings are divided into five volumes as follows:

**VOLUME 1: SYSTEMS AND MACROERGONOMICS (ISBN 978-3-030-74601-8)**

Activity Theories for Work Analysis and Design (ATWAD)  
Systems HF/E  
Ergonomic Work Analysis and Training (EWAT)  
HF/E Education and Professional Certification Development  
Organisation Design and Management (ODAM)

**VOLUME 2: INCLUSIVE AND SUSTAINABLE DESIGN (ISBN 978-3-030-74604-9)**

Ageing and Work  
Ergonomics for children and Educational Environments  
Ergonomics in Design for All  
Gender and Work  
Human Factors and Sustainable Development  
Slips Trips and Falls  
Visual Ergonomics

**VOLUME 3: SECTOR BASED ERGONOMICS (ISBN 978-3-030-74607-0)**

Practitioner Case Studies  
Aerospace Ergonomics  
Agricultural Ergonomics  
Building and Construction Ergonomics  
Ergonomics in Manufacturing  
HF/E in Supply Chain Design and Management  
Transport Ergonomics and Human Factors

**VOLUME 4: HEALTHCARE AND HEALTHY WORK (ISBN 978-3-030-74610-0)**

Health and Safety  
Healthcare Ergonomics

HF/E Contribution to Cope with Covid-19  
Musculoskeletal Disorders

**VOLUME 5: METHODS & APPROACHES (ISBN 978-3-030-74613-1)**

Advanced Imaging  
Affective Design  
Anthropometry  
Biomechanics  
Human Factors in Robotics  
Human Modelling and Simulation  
Neuroergonomics  
Working with Computer Systems Addenda (EWAT, HF/E Education and Professional Certification Development, ODAM, Systems HF/E, Slips, Trips and Falls)

These volumes are the result of many hours of work, for authors, Scientific Track Managers and their reviewer teams, student volunteers, and editors. We are grateful to Springer for making it available to you in book form and are confident you will find these works informative and useful in your own efforts to create a better, more human-centred future.

# IEA2021 Acknowledgements

The IEA Congress organizing committee acknowledges many individuals whose contributions to the event have been invaluable to its success.

First and foremost, we acknowledge with deep appreciation the tremendous work of Steve Marlin, CEO of Prestige Accommodations, International Inc. His firm, hired to assist with organizing and executing the Congress, delivered unparalleled service throughout the planning process. Tragically, Steve passed away in early 2021. He provided outstanding support and wise counsel, always with a smile. He is sorely missed. We remain indebted to the Prestige staff, whose expertise and outstanding professionalism guided us through the planning process. In particular, we are grateful to Laurie Ybarra, Sr. Meetings Manager, who oversaw the many diverse aspects of our ever-changing plans and Christine Reinhard, Director of Operations, who skilfully managed the budget, website and registration system. Laurie and Christine's friendly approach, and their unique combination of technical and interpersonal skills, made it a pleasure to work with them. Marie-Hélène Bisaillon, Executive Director of the Association of Canadian Ergonomists/*Association canadienne d'ergonomie*, supported their work.

The Organizing Committee is also indebted to those contributors who were instrumental in developing and promoting IEA2021. Joanne Bangs, our freelance Communications Specialist, provided engaging news blogs and other promotional collateral to help get the word out about the Congress. Sadeem Qureshi (Ryerson University), Elizabeth Georgiou, Elaine Fung, and Michelle Lam (Simon Fraser University) helped to create widespread awareness of the Congress as well as the HF/E field and profession through creative use of digital and social media. We are also grateful to those who worked diligently to ensure that the Congress provided meaningful opportunities for students and early career researchers, including Daniel P. Armstrong and Christopher A.B. Moore (University of Waterloo), Owen McCulloch (Simon Fraser University), Dora Hsiao (Galvion, Inc.), Chelsea DeGuzman and Joelle Girgis (University of Toronto), and Larissa Fedorowich (Associate Ergonomist, self-employed). The ePoster presentation option, new to IEA triennial congresses in 2021, was defined with care by Anne-Kristina Arnold (Simon Fraser University). Colleen Dewis (Dalhousie University) was key to

interpreting our technical submission software and adapting its capacities to our needs. Hemanshu Bhargav (Ryerson University), Rachel Faust (Université de Québec à Montréal), Myriam Bérubé (Université de Montréal), Charlotte Bate, Vanessa DeVries, Caleb Leary, and Marcelo Zaharur (Fanshawe College), Tobi Durowoju (EWI Works), Issa Kaba Diakite, Mariam Keita, Mouhamadou Pléa Ndour, Shelby Nowlan, Faouzi Mahamane Ouedraogo, Jenna Smith, and Israël Muaka Wembi (Université de Moncton), and the aforementioned Larissa Fedorowich assisted with technical submission database verification and clean-up. We are particularly grateful that so many came to us through the Association of Canadian Ergonomists/Association canadienne d'ergonomie, witnessing to the active and motivated ergonomics and human factors community in IEA2021's host country.

The organizers are especially grateful to our sponsors, whose generous contributions made the Congress possible and readily accessible to the global HF/E community. Their recognition of the Congress as a valuable opportunity to advance the field of HF/E, as well as their steadfast support throughout a very trying planning period, was critical to the success of the Congress. **Using a Systems Approach to Support the Redesign of an Inpatient Anticoagulant Medication Chart** . . . . . 251  
 Eva-Maria Carman, Joannes Hermans, Selina Ladak, and Giulia Miles

**The Design of Work in Atypical Schedules: A Social Innovation Approach in Hospitals** . . . . . 259  
 Marlène Cheyrouze, Béatrice Barthe, and Jérôme Sartori

**Remote Usability Testing of a Pediatric Trauma Dashboard** . . . . . 267  
 Sarah M. Coppola and Ayse P. Gurses

**IEA 2021 Patient Safety Design Competition** . . . . . 274  
 Chelsea DeGuzman, Joelle Girgis, Sadeem Qureshi, Michael Greig, Amar Latchman, Audrey Benmergui, John Naismith, Maeesha Biswas, Joseph Campos, Alyssa Iglar, Marcelo Degrazia, Karen Zhao, Jonas Shultz, Peter Lachman, Sandi Kossey, Christine Quinn, Catherine Gaulton, Philip DeSouza, Stefano Gelmi, Anthony Soung Yee, Trevor Hall, and Mark Chignell

**Energy Cost and Perception of Degree of Exertion of Use of Walking Aid Post Open-Reduction and Internal Fixation of Lower Limb Fracture in Young Adults** . . . . . 282  
 Victor Afamefuna Egwuonwu, Nwanne Chiamaka, Chima Collins Ihegihu, and Richard Falade Busuyi

**Detecting Abnormalities on Displays of Patient Information** . . . . . 287  
 Sydney Fleishman, Alexis Hess, Larry Sloan, Joseph J. Schlesinger, and Joshua Shive

**The Effect of Mobile Phone Exposure in Two Memory Tasks** . . . . . 301  
 Joanna Fowler

**Compensation Strategies Among Drop Foot Patients and the Effect of Ankle-Foot Orthosis on Gait Symmetry . . . . .** 309  
Albert Qianyi Fu, Albert J. Shih, and Thomas J. Armstrong

**Mitigation of Risk of Patient Handling During Rehabilitation Tasks . . .** 314  
Melanie Gee and Remi Adejumo

**Home Care Support for Older Adults in England: Perceptions of Quality and Safety Standards . . . . .** 322  
Jan Healey, Sue Hignett, and Diane Gyi

**Remote Design of a Pediatric Intensive Care Unit Dashboard in Time of Pandemics . . . . .** 328  
Maxence Hébert-Lavoie, Karine Ung, Lise Boudreault, Célia Mahmoudi, Quynh Vu, Philippe Jovet, and Philippe Doyon-Poulin

**Patient Ergonomics in Hospital and Community Settings . . . . .** 336  
Richard J. Holden and Rupa S. Valdez

**Human Computer Interaction (HCI) in General Radiography: A Case Study to Consider HCI Factors When Purchasing X-ray Equipment. . .** 344  
Anita Jogia, Jean-Pierre Brunet, Dann Ramos, Julia Lintack, Luigi Di Raimo, Michael Sharpe, Karen Rowe, Narinder Paul, Derek Lall, Sherri Cheadle, Jill Smith, Ryan Macdonald, and Jerry Plastino

**Evaluation of a Suspension System to Reduce Whole Body Vibration Exposures Which Can Be Used in Ambulances . . . . .** 351  
Peter W. Johnson, Greg Kiselis, Gary Ford, and Dean Bartolone

**Comparing Update Assessment Results in EMRs Between Inside and Outside the Patient Room in an Intensive Care Unit. . . . .** 355  
Alireza Kasaie, Jung Hyup Kim, Wenbin Guo, Roland Nazareth, Thomas Shotton, and Laurel Despins

**Ergonomics and Job Retention of Workers with Chronic Disease . . . . .** 363  
Joanie Maclure and Pierre-Yves Therriault

**Impact of Audio/Visual Guidance on Novices’ Training with VR Orthopedic Surgical Simulators . . . . .** 370  
Carolyn Mattes-O’Brien, Marino Menozzi, Roger Gassert, and Markus Oelhafen

**The Lived Experience of Nurses Wearing Facemasks During COVID-19 Pandemic: An Ergonomic Study . . . . .** 380  
Mohammed Mokdad, Bouhafs Mebarki, Imed Eddine Mebarki, and Ibrahim Mokdad

**Dealing with Medical Errors: A Human Factors/Ergonomics Approach . . . . . 389**  
Mohammed Mokdad, Bouhafis Mebarki, Imed Eddine Mebarki, and Ibrahim Mokdad

**A Future Patient Transporting Drone Evaluated . . . . . 397**  
Luciana Ribeiro Monteiro, Michal Adar, Riel Bessai, Itamar Bukai, Lennert van den Boom, Alazne Echaniz Jurado, Alicia Ville, Phillip Essle, and Peter Vink

**Changes in Lower Leg Volume Among Health Care Workers During a Working Day . . . . . 404**  
Jonathan Osorio-Vasco and Yordán Rodríguez

**Fitting a Chair to a Surgeon’s Body: Mechanism of a Chair for Ophthalmologic Surgeon in an Operating Room . . . . . 410**  
Hideki Oyama, Akihisa Watanabe, Hidenori Togami, Hiroyuki Kondo, and Kageyu Noro

**Testing Interventions in a Medical Simulator: Challenges and Solutions . . . . . 417**  
Estrella Paterson, Penelope Sanderson, Ismail Mohamed, Isaac Salisbury, Robert G. Loeb, and Neil Paterson

**Designing the OR Cockpit - Transfer of Dimensional Layout Conception Used in Vehicle Design to the OR . . . . . 424**  
Stefan Pfeffer, Alexander Mueller, and Manuel Weller

**An Analysis of Usability Levels of Ventilators During Covid-19: A Case Study . . . . . 429**  
Mattia Pistolesi and Stefano Bellucci

**Evaluation of Physiological Workload of Patient Transport Workers from Their Perceptions and Postural Constraints . . . . . 437**  
Italo Rodeghiero Neto, Eduardo Rocha Garcia, and Fernando Gonçalves Amaral

**Mid-Air Interaction by Way of a Virtual Slider in a Medical Use Case . . . . . 443**  
Peter Schmid, Ferdinand Langer, and Thomas Maier

**Vials for Injection and Infusion – A Systems Ergonomics Assessment . . . . . 451**  
Thomas Stüdeli

**Enhancing Patient Safety in Healthcare Settings: A Systematic Investigation Framework to Reduce Medication Errors . . . . . 461**  
Maryam Tabibzadeh and Mohammad Mokhtari

**Application of the Ergonomic Checkpoints in Health Care Work: A Case from an Inpatient Service Unit of an Educational Hospital in Colombia** . . . . . 469  
 Yaniel Torres, Yordán Rodríguez, and Néstor R. Buitrago

**Human Factors Methods Applied to a Healthcare Information Technology Project** . . . . . 475  
 Matthew Woodward, Nick De Pennington, and Lauren Morgan

**The Problems of the Interfaces of the ICU Mechanical Ventilators Evidenced by Covid-19** . . . . . 482  
 Maria Clara Muniz Zenderski and Paulo Miranda de Oliveira

**Part III: HF/E Contribution to Cope with Covid-19 (Edited by Sara Albolino, Tommaso Bellandi, and Andrew Todd)**

**It Takes Two to Tango: Communication at Work During the COVID-19 Pandemic** . . . . . 495  
 Caroline Adam and Klaus Bengler

**Application of Deep Learning for Ergonomic Data Augmentation and Human State Recognition** . . . . . 504  
 Yoshihiro Banchi, Takashi Kawai, Nagakazu Tomino, and Tomohiro Yamagata

**Analysis of Communications from Government Agencies and Stakeholders on Twitter During the COVID-19 in Brazil** . . . . . 508  
 Mauro Penha Bastos, Júlio César Bispo Neves, Tiago Cruz de França, Paulo Victor Rodrigues de Carvalho, and José Orlando Gomes

**COVID-19LL: A Systematic Approach to Identify Best Practices and Lessons Learned in German Economic Sectors** . . . . . 515  
 Klaus Bengler, Verena Nitsch, Martin Schmauder, Caroline Adam, Sebastian Pütz, Christopher Brandl, Gritt Ott, and Georg Jochum

**Mental Health Among Workers in Private Medical Clinics in the Era of COVID-19** . . . . . 523  
 Lahcene Bouabdellah, Houda Kherbache, Abdenacer Tezkratt, and Mohammed Mokdad

**Learning About Healthcare Resilience from the Initial Response to the COVID-19 Pandemic – A Physiotherapy Case Study** . . . . . 532  
 Eva-Maria Carman, Laura Evans, and Giulia Miles

**A Survey on the Effects of the Covid-19 in the Brazilian Population Lifestyle** . . . . . 540  
 Eduardo Ferro dos Santos, Paulo Victor Rodrigues de Carvalho, and José Orlando Gomes

**The Effects of the Covid-19 Pandemic on E-Commerce: A Survey on Brazilian Consumer Behavior** . . . . . 548  
 Eduardo Ferro dos Santos, Paulo Victor Rodrigues de Carvalho, and José Orlando Gomes

**Design Solutions to Improve Medical Protective Equipment During COVID-19 Pandemic** . . . . . 555  
 Laura Giraldi, Marta Maini, and Francesca Morelli

**Digital Solutions for Workplace Mental Health Promotion During COVID-19 Pandemic: Taxonomy and Human Factors Issues** . . . . . 564  
 Davide Giusino, Marco De Angelis, and Luca Pietrantonì

**Government Strategies in the Confrontation of Covid-19 in the Republic of Cuba** . . . . . 572  
 C. Aleida González González, Lisandra Leal Rodríguez, Daylí Morales Fonte, Adrián González González, and José Orlando Gomes

**Pedestrian Physical-Distancing Strategies During COVID-19** . . . . . 580  
 Georgette E. Greenslade, Carolyn G. MacGregor, and Ai Ching Chang

**University Student Experiences with Mandated Home Isolation** . . . . . 586  
 Hannah R. Griebel and Thomas J. Smith

**Confirmation of the Significance of Facial Images in Online Learning Using Eye Gaze Tracking Measurement** . . . . . 595  
 Satori Hachisuka, Kayoko Kurita, and Shin'ichi Warisawa

**Managers' First Experience of the Transition to Distance Management During COVID-19** . . . . . 600  
 Christine Ipsen, Kasper Edwards, Giulia Nardelli, and Nelda Vendramin

**An Ergonomic, Safety and Wellness Perspective of a Screener Role During the COVID-19 Pandemic** . . . . . 607  
 Anita Jogia, Amanda Stuyt, Angela Santos, Shawna Tomlinson, Sherri Cheadle, Ashleigh Van Ryn, Katie Willing, Vanessa Case, Cathy Zantingh, Nancy Lawrence, Ali Ismail, Greg Leblanc, Jill Smith, Cathy Stark, Mac Barry, Emily Hahn-Trnka, and Andy Rombouts

**Contactless and Low-Burden Measurement of Physiological Signals and Comparison of Obtained Indices** . . . . . 615  
 Yoshiyuki Kamakura, Hiroki Takeuchi, and Mieko Ohsuga

**The Burnout Among Female Hospital Workers During the COVID-19 Pandemic in Algeria** . . . . . 620  
 Houda Kherbache, Lahcene Bouabdellah, Asma Hammoudi, and Mohammed Mokdad

**Usability Review of Mask Extenders and Ear Savers** . . . . . 625  
 Jason Kumagai, Lorena Kembel, and Tanya Ewashko

**The Maker Movement Response to COVID-19: What Was Considered in the Development and Sharing of Emergency Protective Equipment?** . . . . . 631  
 Renato L. R. Souza, Esdras Paravizo, Larissa Oliveira dos Santos, Gustavo Souza de Almeida, and Daniel Braatz

**Ergonomics in the Time of the Coronavirus.** . . . . . 639  
 Micheline Marier

**Detection of Deviations from a Calm State of Mind Using Respiratory Waveforms and HRV - Aiming to Grasp the Driver’s Condition Remotely** . . . . . 648  
 Chizuru Nakagawa, Takahiro Watanabe, Naohiro Akiu, and Ayako Suzuki

**Low Burden Measurement of Autonomic Indices for Self-measurement or Longtime Measurement in the Field** . . . . . 652  
 Mieko Ohsuga, Yoshiyuki Kamakura, Hiroki Takeuchi, and Haruya Koba

**Attitudes to Teaching and Learning Online in Higher Education During the COVID-19 Pandemic** . . . . . 658  
 Olga Voronina, Aleksandra Sopina, Aleksandr Volosiuk, and Julia Ostanina-Olszewska

**Covid 19 - Limiting and Managing Risk in a Physiotherapy School** . . . . . 664  
 William Suarez

**The Application of Systems Ergonomics to the Design of a Mobile COVID-19 Laboratory** . . . . . 671  
 Abigail R. Wooldridge

**Part IV: Musculoskeletal Disorders (Edited by Ann Marie Dale)**

**Work-Related Exposures and Musculoskeletal Disorder Symptoms Among Informal E-Waste Recyclers at Agbogbloshie, Ghana** . . . . . 677  
 Augustine A. Acquah, Clive D’Souza, Bernard Martin, John Arko-Mensah, Isabella A. Quakyi, Niladri Basu, Thomas G. Robins, and Julius N. Fobil

**CAD and MODAPTS Models for Assessing Localized Fatigue** . . . . . 682  
 Thomas J. Armstrong

**Ergonomic Assessment of Indian Dentists Using the Assessment of Repetitive Tasks (Art) Technique** . . . . . 688  
 Vibha Bhatia, Jagjit Singh Randhawa, Ashish Jain, and Vishakha Grover

**Exposure to Regular Sit-stand Changes During Office Work Changes Limb Posture** . . . . . 697  
 Nancy L. Black, Jenna Smith, Mathieu Tremblay, and Fandresena Ranaivosoa

**Occupational Disease Compensation and Update on the Musculoskeletal Health of Office Employees in Hong Kong . . . . . 703**  
Justine M. Y. Chim and Tienli Chen

**Development of Criteria and Practical Methods to Study the Risks by Biomechanical Overload as an Aid Focused to Study Production Process Present in Companies Operating in Civil Construction Sector . . . . . 710**  
Daniela Colombini, Ariel Orlei Michaloski, Antonio Augusto de Paula Xavier, and Juliano Prado Stradioto

**Musculoskeletal Disorders in Unstructured, Unregulated Work: Assessment Methods and Injuries . . . . . 720**  
Clive D’Souza, Bernard Martin, Julius N. Fobil, Andrew Todd, and José Orlando Gomes

**Work-Related Musculoskeletal Symptoms and Associated Factors in Laparoscopic Surgeons of Peruvian Hospitals . . . . . 728**  
Carlos Manuel Escobar Galindo, Alexandra Lang, Brendan Ryan, and Sue Cobb

**Work-Home System Analysis and Musculoskeletal Discomfort of Workers in Covid-19 Pandemic Context . . . . . 738**  
Carlos Manuel Escobar Galindo, Richard Raitt Rodriguez Rojas, José Enrique Villalobos Tupia, and Paula Martha Veliz Terry

**Occupational and Environmental Health Effects of Informal Electronic Waste Recycling – A Focus on Agbogbloshie, Ghana . . . . . 746**  
Julius Fobil, Priscillah Abotsi, Augustine A. Acquah, John Arko-Mensah, Clive D’Souza, and Bernard Martin

**Musculoskeletal Complaints and Their Associations with Health and Work-Related Factors: A Cross-Sectional Study in a Beverage Company . . . . . 753**  
Marisa de Cássia Registro Fonseca, Vinicius Restani Castro, Ester R. C. Lopes, Lisandra V. Martins, and Leonardo D. S. Mauad

**A Low-Cost Sensor-Based Smartphone App for Wrist Velocity Measurements . . . . . 763**  
Mikael Forsman, Liyun Yang, Filipe Chinarro, and Jonas Willén

**Investigating Musculoskeletal Injury Risk: A Field Study on the Influence of Typical Assembly Activities on the Physiological Response of Industrial Workers. . . . . 768**  
Tobias Hellig, Alexander Mertens, Verena Nitsch, and Christopher Brandl

**Previous Shoulder and Low Back Injury, Kinesiophobia, and Fear-Avoidance in Young Adult Asymptomatic Participant Groups** . . . . . 776  
 Heather Johnston and Janessa Drake

**The Relationship Between Fidgeting, Posture Changes, Physical Activity, and Musculoskeletal Discomfort in Office Workers** . . . . . 783  
 Athena Nguyen, Federico Arippa, Matthew Kiok, Massimiliano Pau, and Carisa Harris-Adamson

**Validation of the OCRA Checklist Score as Predictive of the Occurrence of UL-WMSDs in Workers Exposed to Manual Repetitive Tasks** . . . . . 794  
 Enrico Occhipinti and Daniela Colombini

**An Experimental Study to Analyze the Effects of Self Stretching and Postural Re Education Program for Classical Carnatic Violin Artistes in Reducing Playing Related Musculoskeletal Disorder (PRMD) of Cervical Flexor Muscle Group** . . . . . 802  
 Srinath and Venkatesh Balasubramanian

**Prevalence of Musculoskeletal Symptoms in Dental Students** . . . . . 812  
 Yordán Rodríguez, Hugo Grisales-Romero, Leidy C. Botero, and Marisol Arroyave

**Inter-rater Reliability of the Individual Risk Assessment (ERIN) Method** . . . . . 818  
 Yordán Rodríguez and Paola Monsalve

**A Comparison of Forklift Operator Whole-Body Vibration Exposures When Operating Forklifts with and Without a Mast Damping System** . . . . . 825  
 Hyoung Frank Ryou, Peter W. Johnson, Jeong Ho Kim, and Edmund Seto

**Ergonomic Assessment of Exposure to Musculoskeletal Disorders Risk Factors Among Canadian Truck Drivers** . . . . . 829  
 Firdaus Sekkay, Daniel Imbeau, Yuvinn Chinniah, Philippe-Antoine Dubé, Nathalie de Marcellis-Warin, Nancy Beauregard, and Martin Trépanier

**Ergonomic Risk Assessment in Kerbside Waste Collection Through Dynamic REBA Protocol** . . . . . 837  
 Alessio Silveti, Lorenzo Fiori, Antonella Tatarelli, Alberto Ranavolo, Eleonora Spagnoli, and Francesco Draicchio

**Ergonomic Evaluation of Home Workspaces During the Coronavirus Pandemic** . . . . . 845  
 Samuelle St-Onge and Nancy L. Black

**Poultry Slaughterhouse Workers: Finger Temperatures and Cold Sensation in the Hands** . . . . . 852  
Adriana Seara Tirloni, Diogo Cunha dos Reis,  
and Antônio Renato Pereira Moro

**Musculoskeletal Ergonomic Implications in Smartphone Users: A Systematic Review** . . . . . 860  
Danilo Fernandes Vitorino, Walter Franklin Marques Correia,  
and Márcio Alves Marçal

**Comparison of Accuracy of Inertial Measurement Units, Goniometer and Optical Tracking System for Wrist Velocity Assessment** . . . . . 868  
Liyun Yang, Karnica Manivasagam, and Mikael Forsman

**Author Index** . . . . . 875

**Part I: Health and Safety (Edited  
by Gyula Szabó)**
