

The background of the entire page is a close-up, slightly blurred image of several colorful binder rings. The rings are in various colors including blue, green, yellow, and red. Each ring has a white label with black text, some of which includes numbers and the letters 'MC'. The text on the labels is partially obscured by the binder rings and the overall darkening of the image.

The Asia-Pacific region covers a vast area with numerous countries and 60 percent of the world's population. Its economic and trade volumes take up nearly 60 percent and half of the world's total, respectively. It has an important strategic position in the world. In recent years, the development of the Asia-Pacific region has increasingly caught people's attention. It has become the most dynamic region with the strongest potential in the world. All parties are attaching greater importance to and investing more in this region. With the profound adjustment of the pattern of international relations, the regional situation of the Asia-Pacific area is also undergoing profound changes.

China is committed to promoting peace and stability in this region. It follows the path of peaceful development and the mutually beneficial strategy of opening up, and pursues friendly cooperation with all countries on the basis of the Five Principles of Peaceful Coexistence. It has participated in regional cooperation in an all-round way and taken active steps in response to both traditional and non-traditional security challenges, contributing to lasting peace and common prosperity in the Asia-Pacific region.
