## List of Tables

### Chapter 1

[Table 1.1 Summary of local rates and global estimates of carbon burial and ...](#)

[Table 1.2 Summary of global wetland carbon stocks. The temperate wetland st...](#)

### Chapter 2

[Table 2.1 This table uses CONUS inland wetland SOC stock data from SSURGO a...](#)

[Table 2.2 Inland CONUS wetland carbon by vegetation cover for the top 1 m o...](#)

[Table 2.3 Burned areas in wetlands are compared to burned areas in all CONU...](#)

[Table 2.4 Burned areas in wetlands are compared to all CONUS landcover clas...](#)

### Chapter 3

[Table 3.1 Radiative balance and radiative forcing for two hypothetical wetl...](#)

[Table 3.2 Ratios of aerobic to anaerobic metabolism in different wetland ty...](#)

[Table 3.3 Nominal oxidation state of carbon for major classes of organic ma...](#)

### Chapter 4

[Table 4.1 One example of management recommendations for a particular type o...](#)

### Chapter 5

[Table 5.1 Studies of post-restoration structural and functional changes in ...](#)

[Table 5.2 Methane flux and net ecosystem exchange \(NEE\) for the Red Salmon ...](#)

### Chapter 6

[Table 6.1 Allometric equations of mangrove species based on the references](#)

[Table 6.2 Forest structure and soil substrate of the natural and the restor...](#)

[Table 6.3 Total carbon gain and the net benefit from the underground aquacu...](#)

### Chapter 7

[Table 7.1 Percentages and densities of carbon and nitrogen in the upper 6 c...](#)

[Table 7.2 Trajectories of vertical accretion, surface elevation change, and...](#)

[Table 7.3 Incremental rates of carbon and nitrogen within soils per unit de...](#)

## Chapter 8

[Table 8.1 Summary of Indonesian Mangrove Study Sites and Carbon Stocks](#)

[Table 8.2 Sediment accretion and carbon burial rates in mangroves across di...](#)

## Chapter 9

[Table 9.1 Regression coefficients of the scaling equation  \$\text{LN}y = a + b \text{LN} x\$ ,...](#)

[Table 9.2 Biogeochemical soil characteristics at 30 cm depth in Tampamacho,...](#)

[Table 9.3 Tree height, DBH, basal area, density, aboveground biomass and ca...](#)

[Table 9.4 Total organic carbon stock \( \$C\_{\text{org}}\$ , Mg C/ha  \$\pm 1\$  s.e.\) in preserved,...](#)

## Chapter 10

[Table 10.1 General characteristics of the five boreholes investigated in th...](#)

[Table 10.2 Accelerator mass spectrometry- \$^{14}\text{C}\$  ages from boreholes in this stu...](#)

[Table 10.3 Statistical summary of each sedimentary unit in all five study b...](#)

## Chapter 12

[Table 12.1 Vegetation structure \(DBH, Tree density, Basal area\) in the diff...](#)

[Table 12.2 Two-way ANOVA tests showing the effect of sampling zones and sea...](#)

[Table 12.3 Tukey's honestly significant difference \(HSD\) post hoc test resu...](#)

[Table 12.4 Mean values \( \$\pm\$  SD\) of the different soil parameters studied for ...](#)

## Chapter 13

[Table 13.1 Cumulative annual budgets of net ecosystem exchange \(NEE\), metha...](#)

[Table 13.2 Summary of environmental parameters and design suggestions to ma...](#)

## Chapter 14

[Table 14.1 Results of analyses of variance \(ANOVA\) testing for differences ...](#)

## Chapter 15

[Table 15.1 Summary of the general characteristics of wetlands and agrosyste...](#)

[Table 15.2 Annual rates of the main C-related metabolisms \( \$\text{g C/m}^2/\text{yr}\$ \) and t...](#)

## Chapter 16

[Table 16.1 Peat properties of ash-free bulk density \(AFBD\), gravimetric wat...](#)

[Table 16.2 Aboveground herbaceous biomass and foliar and soil C and nitroge...](#)

## Chapter 17

[Table 17.1 Regressions comparing  \$\text{CO}\_2\$  and  \$\text{CH}\_4\$  \( \$\text{g C/m}^2/\text{d}\$ \) fluxes measured at ...](#)

[Table 17.2 Summary of published winter carbon fluxes from a variety of clim...](#)

## Chapter 18

[Table 18.1 Coastal Swamp Oak Forest organic carbon \( \$C\_{org}\$ \) stocks \(for 0.3 a...](#)

[Table 18.2 Preliminary estimates of Coastal Swamp Oak Forest \(CSOF\) carbon ...](#)

## Chapter 19

[Table 19.1 Summary of land use/cover and the measurement/estimate in five s...](#)

[Table 19.2 Partitioning heterotrophic respiration from total respiration in...](#)

[Table 19.3 The effect of raising groundwater level \(GWL\) on  \$CO\_2\$  emissions i...](#)

[Table 19.4 Effect of GWL on  \$CO\_2\$  emissions from intact and converted PSF in ...](#)

[Table 19.5 Peat subsidence rates \(mm/yr\) before and after canal blocking fo...](#)

[Table 19.6 Frequency of fire risk \(% of time\) using weather data from 1980 ...](#)

## Chapter 20

[Table 20.1 Soil bulk-density, organic matter, carbon density, soil types, n...](#)

## Chapter 21

[Table 21.1 Soil flux \( \$CO\_2\$  &  \$CH\_4\$ \), bulk density, and water-table depth by fi...](#)

[Table 21.2 Soil Carbon Density, Soil Vertical Accretion, Soil Carbon Accumu...](#)

[Table 21.3 Description of hydrologic strata parameters for scenario modelin...](#)

[Table 21.4 Net ecosystem carbon balance estimated for each hydrologic scena...](#)

[Table 21.5 Projected net ecosystem carbon balance from the years 2012 to 21...](#)

[Table 21.6 Total emissions versus fire emissions are shown as 100-year aver...](#)

## Chapter 22

[Table 22.1 Predicted values of wetland ecosystem services \(per acre\)](#)

## Chapter 24

[Table 24.1 Ecosystem carbon pool \(to a depth of 1 m\) and net CO<sub>2</sub> and CH<sub>4</sub> fl...](#)
