

WILEY SERIES IN SURVEY METHODOLOGY

THIRD EDITION

REGISTER-BASED STATISTICS

REGISTERS AND THE NATIONAL STATISTICAL SYSTEM

ANDERS WALLGREN • BRITT WALLGREN

WILEY

WILEY SERIES IN PROBABILITY AND STATISTICS

Established by *Walter A. Shewhart and Samuel S. Wilks*

The ***Wiley Series in Probability and Statistics*** is well established and authoritative. It covers many topics of current research interest in both pure and applied statistics and probability theory. Written by leading statisticians and institutions, the titles span both state-of-the-art developments in the field and classical methods.

Reflecting the wide range of current research in statistics, the series encompasses applied, methodological and theoretical statistics, ranging from applications and new techniques made possible by advances in computerized practice to rigorous treatment of theoretical approaches.

This series provides essential and invaluable reading for all statisticians, whether in academia, industry, government, or research.

Register-based Statistics

Registers and the National Statistical System

Third Edition

Anders Wallgren and Britt Wallgren

*Formerly at the Department of Research and Development
at Statistics Sweden*

Contents

[Cover](#)

[Series page](#)

[Title page](#)

[Copyright](#)

[Index to Charts](#)

[Preface](#)

[Chapter 1 Censuses, Sample Surveys and Register Surveys](#)

[1.1 The national statistical system](#)

[1.2 The traditional census-based system](#)

[1.3 New sources: Administrative registers and Big data](#)

[1.4 Basic concepts and terms](#)

[*1.4.1 What is a register?*](#)

[*1.4.2 Databases, records and observations*](#)

[*1.4.3 What is a register survey?*](#)

[*1.4.4 A register survey: The Income and Taxation Register*](#)

[1.5 New demands and opportunities require new methods](#)

[*1.5.1 A new paradigm is necessary*](#)

[*1.5.2 New statistical methods*](#)

[*1.5.3 The basic principles of register-based statistics*](#)

[1.6 Preconditions for register-based statistics](#)

[*1.6.1 Reliable administrative systems*](#)

1.6.2 Legal base and public approval

1.6.3 Political support to strengthen the statistical system

Chapter 2 The Transition to a Register-based Production System

2.1 First obstacle: How to gain access to microdata?

2.2 Protection of privacy and confidentiality

2.3 Second obstacle: How to take care of dirty data?

2.4 The new production process

2.4.1 Contacts with administrative authorities

2.4.2 Metadata have a new role

2.4.3 Anonymisation of identity numbers

2.4.4 Editing of a single administrative register

2.4.5 Organising the work with administrative registers

2.5 Third obstacle: The national registration system

2.5.1 Legislation governs access to data

2.5.2 Too many registers, but no good registers - what to do?

2.5.3 Legislation rules obligations to report and what to report

2.6 Why has the census been so important?

2.7 Creating the register system

2.7.1 Where do you live?

2.7.2 Where do you work?

2.7.3 With whom do you live?

2.7.4 A centralised or decentralised national system?

[2.8 Register surveys and estimation methods](#)

[2.9 A traditional census or a register-based census?](#)

[Chapter 3 The Nature of Administrative Data](#)

[3.1 Comparing questionnaire and register data](#)

[3.1.1 A questionnaire to persons compared with register data](#)

[3.1.2 An enterprise questionnaire compared with register data](#)

[3.2 Enterprise registers for combined use](#)

[3.2.1 Corrections in accounting data](#)

[3.2.2 Missing values in accounting data](#)

[3.2.3 Administrative and statistical information systems](#)

[3.3 Measurement errors in questionnaire and register data](#)

[3.3.1 Measurement errors](#)

[3.3.2 Taxation errors](#)

[Chapter 4 Building the System - Record Linkage](#)

[4.1 Record linkage](#)

[4.2 Record linkage in the Nordic countries](#)

[4.3 Deterministic record linkage](#)

[4.4 Creating variables by adjoining and aggregation](#)

[4.5 Probabilistic record linkage](#)

[4.6 Four causes of matching errors](#)

[4.7 The statistical system and record linkage](#)

[Chapter 5 Building the System - Quality Assessment](#)

[5.1 Four quality concepts](#)

[5.2 Making an inventory of potential sources](#)

[5.3 How can a source be used?](#)

5.4 Quality assessment in a register-based production system

5.4.1 Analysing metadata

5.4.2 Analysis and data editing of the source

5.4.3 Comparing a source with the base register

5.4.4 Comparing a source with surveys with similar variables

5.5 Output data quality and quality of estimates

5.5.1 Analysing quality with a test census

5.5.2 Analysing quality with samples from the new register

5.5.3 Analysing quality with area samples

5.5.4 Measuring quality of basic register variables with the LFS

5.6 A coordinated system of registers

5.6.1 Are the base registers a coordinated system?

5.6.2 Quality indicators at the system level

5.7 Using the quality indicators

Chapter 6 Building the System - Editing Register Data

6.1 Editing in register surveys

6.2 Editing of a single administrative register

6.3 Consistency editing

6.3.1 Consistency editing - is the population correct?

6.3.2 Consistency editing - are the units correct?

6.3.3 Consistency editing - are the variables correct?

6.4 Case studies - editing register data

6.4.1 Editing work within the Income and Taxation Register

6.4.2 Editing work within the Income Statement Register

6.4.3 What more can be learned from these examples?

6.5 Editing, quality assessment and survey design

6.5.1 Survey design in a register-based production system

6.5.2 Survey design - management problems

6.5.3 Total survey error in a register-based system

Chapter 7 Building the System - The Population Register

7.1 Inventory of sources

7.1.1 Time references

7.1.2 Activities or 'signs of life'

7.2 The Population Register based on full information

7.2.1 Object types - Changing and unchanging registers

7.2.2 Variables with different functions in the system

7.2.3 Updating the Population Register

7.2.4 Registers and time

7.2.5 Variables and time

7.3 The Population Register in new register countries

7.3.1 Different systems of identity numbers

7.3.2 Problems in countries without a central Population Register

7.3.3 How to improve coverage of the Population Register

7.3.4 Inventory of sources - addresses and time references

7.4 Methods to measure and improve quality

7.4.1 Three kinds of surveys should be combined

7.4.2 A new register-based system for statistics on persons

7.5 Conclusions

7.6 Challenges in old register countries

Chapter 8 The Population Register - Estimation Methods

8.1 Estimation in sample surveys and register surveys

8.1.1 Estimation methods for register surveys that use weights

8.1.2 Calibration of weights in register surveys

8.2 Calibration of weights - the Swedish LFS

8.2.1 Use of auxiliary information in the LFS

8.2.2 Nonresponse bias in the LFS

8.3 Calibration - where do people live?

8.4 Methods to handle overcoverage

Chapter 9 Defining Register Populations - Coverage Errors

9.1 Defining a register's object set

9.1.1 Defining a population

9.1.2 Can you alter data from the National Tax Agency?

9.1.3 Defining a population - the Farm Register

9.1.4 Defining a population - integrated registers

9.2 Defining a calendar year population

9.2.1 Defining a population - frame or register population?

9.2.2 Sampling paradigm versus register paradigm

Chapter 10 Building the System - The Business Register

10.1 The Business Register and the National Accounts

10.2 The base register for economic statistics

10.3 The scope of the register and choice of object types

10.3.1 The register with legal units and local units

10.3.2 The register with enterprise units and kind of activity units

10.4 Inventory of sources

10.5 Creating and maintaining the Business Register

Chapter 11 The Business Register - Estimation Methods

11.1 Multi-valued variables

11.2 Estimation methods

11.2.1 Occupation in the Activity and Occupation Registers

11.2.2 Industrial classification in the Business Register

11.2.3 Estimates from different register versions

11.3 Application of the method

11.3.1 Change of industry and time series quality

11.3.2 Transformation of weights

11.4 A decentralised or centralised statistical system?

11.4.1 The Calendar Year Register and the National Accounts

11.4.2 Choosing the best source for the National Accounts

11.5 Conclusions

Chapter 12 Censuses, Sample Surveys and Register Surveys - Conclusions

12.1 Attitudes towards the register-based census

12.2 The new national statistical system

12.2.1 The system of base registers

12.2.2 Activity registers and longitudinal registers

12.3 Survey design

12.3.1 Sample survey design

12.3.2 Register survey design

12.3.3 Creating register variables

12.4 Survey quality

12.4.1 Quality of registers and register surveys

12.4.2 The integration process - integration errors

[12.4.3 Frame errors](#)

[12.5 Organising the new production system](#)

[12.5.1 Enterprise architecture and the register system](#)

[12.5.2 The register system and data warehousing](#)

[12.5.3 Missing values - a system-based approach](#)

[12.6 Final remarks](#)

[12.6.1 The Statistical Population Register](#)

[12.6.2 The system of base registers](#)

List of Figures

Chapter 1

[Chart 1.2 The Statistical System in a country...](#)

[Chart 1.3 Employment with census data](#)

[Chart 1.4 Employment with register data](#)

[Chart 1.7 A conceptual database model with three database tables](#)

[Chart 1.10 From administrative registers to statistical...](#)

[Chart 1.11 From administrative registers to statistical...](#)

[Chart 1.12 Different data sources for the Income...](#)

Chapter 2

[Chart 2.4 Transforming administrative registers...](#)

[Chart 2.10 Uncoordinated work with registers](#)

[Chart 2.11 Cooperation regarding the central population register](#)

[Chart 2.12 Sweden's system 1967-](#)

[Chart 2.13 Sweden's system 1985-](#)

[Chart 2.14 Sweden's system](#)

[Chart 2.15 Survey design: reduce costs and/or improve quality.](#)

Chapter 3

[Chart 3.2 Distance for each ordered observation](#)

Chapter 4

[Chart 4.1a Matching without errors in the matching key_\(PIN\).](#)

[Chart 4.1b Matching with errors in the matching key_\(PIN\).](#)

[Chart 4.1c Matching with errors in the...](#)

[Chart 4.1d Matching without errors in the matching key_\(PIN\).](#)

[Chart 4.2a The relations between...](#)

[Chart 4.2b Wage sums for persons and...](#)

[Chart 4.2c Industry and sex as derived variables...](#)

[Chart 4.2d Industry and number of employees as derived variables](#)

Chapter 5

[Chart 5.1 A register survey: From...](#)

[Chart 5.2 Statistical registers that are...](#)

[Chart 5.3 Input and output data and the production process](#)

[Chart 5.4 The work with quality assessment...](#)

[Chart 5.11 Creating registers by linking...](#)

Chapter 6

[Chart 6.1 Editing in sample surveys and register surveys](#)

[Chart 6.5 All relevant sources should be considered simultaneously](#)

[Chart 6.10 The system of registers and surveys that was analysed](#)

Chapter 7

[Chart 7.1 Decentralised but coordinated process...](#)

[Chart 7.2 The system of registers that constitutes...](#)

[Chart 7.10 The first steps towards a new statistical system](#)

[Chart 7.11 Different parts of the target population...](#)

[Chart 7.15 A register survey: From administrative registers...](#)

Chapter 8

[Chart 8.5 Nonresponse bias in the LFS,...](#)

Chapter 9

[Chart 9.2 Frame populations are created before register populations](#)

[Chart 9.3 Undercoverage in an administrative register](#)

[Chart 9.4 Object sets when matching two registers](#)

[Chart 9.7 The November frame and the Calendar Year Register](#)

[Chart 9.8 Over- and undercoverage as number...](#)

Chapter 10

[Chart 10.1 The system of economic statistics](#)

[Chart 10.6 Different types of units in the Business Register](#)

Chapter 11

[Chart 11.2 Industry and number of employees as derived variables](#)

[Chart 11.4 Number of employed and wage sums in different registers](#)

[Chart 11.21 Turnover in an industry, two estimates](#)

Chapter 12

[Chart 12.1 Monthly population data for two...](#)

[Chart 12.2 A register-based statistical system](#)

[Chart 12.4 Per cent employed after...](#)

[Chart 12.10 Uncoordinated work with registers](#)

[Chart 12.11 Cooperation regarding the central population register](#)

[Chart 12.14 Sweden's system 2011](#)

List of Tables

Chapter 1

[Chart 1.1 The Statistical System in a country...](#)

[Chart 1.5 The year of establishing new...](#)

[Chart 1.6 Example of a register and data matrix](#)

[Chart 1.8 A database on individuals with three database tables](#)

[Chart 1.9 Two data matrices for different statistical purposes](#)

[Chart 1.10 From administrative registers to...](#)

[Chart 1.11 From administrative registers to statistical...](#)

[Chart 1.13 Employees by economic activity...](#)

[Chart 1.14 Register-based census statistics...](#)

[Chart 1.16 Two preconditions for using...](#)

Chapter 2

[Chart 2.1 The transition entails a fundamental...](#)

[Chart 2.2 An administrative register -...](#)

[Chart 2.3 Corresponding statistical register -...](#)

[Chart 2.5 Metadata system for input data...](#)

[Chart 2.6 Identity database](#)

[Chart 2.7 Errors in profit and loss statements...](#)

[Chart 2.8 Profit and loss statements for...](#)

[Chart 2.9 Registration of persons...](#)

Chapter 3

[Chart 3.1 Yearly turnover for the same...](#)

[Chart 3.3 Complete groups of enterprises](#)

[Chart 3.4 Three registers, Invoice...](#)

[Chart 3.5 Statistical Sales Register...](#)

[Chart 3.6 Administrative Invoice Register](#)

[Chart 3.7 Statistical Invoice Register](#)

[Chart 3.8 Administrative Item Register](#)

[Chart 3.9 Statistical Item Register](#)

[Chart 3.10 Measurement errors...](#)

Chapter 4

[Chart 4.3 Spelling errors, spelling...](#)

[Chart 4.4 Two ways of searching for...](#)

[Chart 4.5 Calculation of probabilities for...](#)

[Chart 4.6 The eight outcomes for the...](#)

[Chart 4.7 Some outcomes for the matching...](#)

[Chart 4.8 Yearly turnover for the same...](#)

[Chart 4.9 Comparing gross yearly pay...](#)

Chapter 5

[Chart 5.5 Indicators A1-A9 of input data quality -
Relevance](#)

[Chart 5.6 Indicators B1-B7 of input data quality -
Accuracy](#)

[Chart 5.7 Indicators C1-C5 of accuracy...](#)

[Chart 5.8 Indicators D1-D4 of accuracy when...](#)

[Chart 5.9 Coverage errors in the population...](#)

[Chart 5.10 Coverage errors and area sample...](#)

[Chart 5.12 Indicators E1-E4 of the quality...](#)

[Chart 5.13 Information from the...](#)

[Chart 5.14 Information from analysis and data...](#)

[Chart 5.15 Information from integrating the source...](#)

[Chart 5.16 Information from integrating the source with...](#)

Chapter 6

[Chart 6.2 Automatic editing and...](#)

[Chart 6.3a The Business Register and...](#)

[Chart 6.3b After matching the Business...](#)

[Chart 6.3c The statistical Annual Pay Register](#)

[Chart 6.4a Combining the Business...](#)

[Chart 6.4b Final version of the statistical Annual Pay Register](#)

[Chart 6.6 Comparing gross annual pay in a quarterly...](#)

[Chart 6.7 The unit problem in business data](#)

[Chart 6.8 Comparing gross annual pay in QGP and AGP, microdata](#)

[Chart 6.9 Comparing gross annual pay in QGP and AGP, macrodata](#)

Chapter 7

[Chart 7.3 Different types of variables in the Population Register](#)

[Chart 7.4a The Population Register at December 31, 2012](#)

[Chart 7.4b Notifications regarding demographic...](#)

[Chart 7.4c Old register matched with the new notifications](#)

[Chart 7.4d Updated register 1 February](#)

[Chart 7.4e Three versions](#)

[Chart 7.5 Calendar year register for](#)

[Chart 7.6 Events register for 2012 regarding
change of address](#)

[Chart 7.7 Historical register regarding change of
address](#)

[Chart 7.8 Longitudinal register for 2010-](#)

[Chart 7.9 Many registers, but no register that...](#)

[Chart 7.12 Estimation of undercoverage](#)

[Chart 7.13 Coverage errors and area sample
estimates...](#)

[Chart 7.14 Coverage errors and register-based
sample...](#)

Chapter 8

[Chart 8.1 Register of all persons in two small
districts](#)

[Chart 8.2a Employed persons by education and
industry](#)

[Chart 8.2b Employed persons by education and
industry...](#)

[Chart 8.3 Persons by Education and Industry...](#)

[Chart 8.4 Nonresponse rates in the Swedish LFS](#)

[Chart 8.6 Population estimates, Exercise](#)

[Chart 8.7 Exercises 1-5: Reducing coverage...](#)

[Chart 8.8 Estimates for Exercise 1 \('RC'\) and
Exercise](#)

Chapter 9

[Chart 9.1 Methodological differences between...](#)

[Chart 9.4 Object sets when matching two registers](#)

[Chart 9.5 Calendar year register for the population...](#)

[Chart 9.6 Calendar year register for 2013 for...](#)

[Chart 9.9 Errors due to undercoverage in the...](#)

[Chart 9.10 Undercoverage in November frame...](#)

[Chart 9.11 Overcoverage in SBS based on...](#)

Chapter 10

[Chart 10.2 Inconsistent sources with wage sums...](#)

[Chart 10.3 Legal units by institutional sector and industry](#)

[Chart 10.7 Legal units and enterprise units](#)

[Chart 10.8 Yearly turnover for the same legal units...](#)

[Chart 10.9 Comparing gross yearly pay in...](#)

[Chart 10.10a Each administrative system has its...](#)

[Chart 10.10b Each administrative system has its own...](#)

Chapter 11

[Chart 11.1 Employees by industry, November 2004, thousands](#)

[Chart 11.3a Calendar year register for the...](#)

[Chart 11.3b Average population](#)

[Chart 11.5 Register 1 continued - persons and weights](#)

[Chart 11.6 Employed by industry](#)

[Chart 11.7 Job Register with occupational data for six persons](#)

[Chart 11.8 Traditional register on persons with occupational information](#)

[Chart 11.9 Employed persons by occupation, traditional alternative](#)

[Chart 11.10 Register of combination objects: person • occupation](#)

[Chart 11.11 Employed persons by occupation according to two alternatives](#)

[Chart 11.12 Register on jobs of persons with occupational data](#)

[Chart 11.13 Persons and full-time employed by...](#)

[Chart 11.26 A new estimation method based on integrated microdata](#)

Chapter 12

[Chart 12.1 Monthly population data for two Swedish...](#)

[Chart 12.3 Transitions from 2003 to 2004...](#)

[Chart 12.5 The three parallel processes with a register survey.](#)

[Chart 12.6 Classification errors in the old...](#)

[Chart 12.7 Model errors in the Employment Register](#)

[Chart 12.8 Quality of estimates for two domains in...](#)

[Chart 12.9 A longitudinal income register, data for six persons](#)

Index to Charts

[Chapter 1 Censuses, Sample Surveys and Register Surveys](#)

[Chart 1.1 The Statistical System in a country can consist of the following actors](#)

[Chart 1.2 The Statistical System in a country can consist of the following surveys](#)

[Chart 1.3 Employment with census data](#)

[Chart 1.4 Employment with register data](#)

[Chart 1.5 The year of establishing new statistical registers in the Nordic countries](#)

[Chart 1.6 Example of a register and data matrix](#)

[Chart 1.7 A conceptual database model with three database tables](#)

[Chart 1.8 A database on individuals with three database tables](#)

[Chart 1.9 Two data matrices for different statistical purposes](#)

[Chart 1.10 From administrative registers to statistical registers - overview](#)

[Chart 1.11 From administrative registers to statistical registers - register processing](#)

[Chart 1.12 Different data sources for the Income and Taxation Register \(I &T\)](#)

[Chart 1.13 Employees by economic activity, November 2004, thousands](#)

[Chart 1.14 Register-based census statistics for one small municipality in Sweden](#)

[Chart 1.15 Four principles for using administrative registers for statistics](#)

[Chart 1.16 Two preconditions for using administrative registers for statistics](#)

[Chapter 2 The Transition to a Register-based Production System](#)

[Chart 2.1 The transition entails a fundamental change of statistical methods](#)

[Chart 2.2 An administrative register - unprocessed data in the input database](#)

[Chart 2.3 Corresponding statistical register - processed data in throughput database](#)

[Chart 2.4 Transforming administrative registers into statistical registers](#)

[Chart 2.5 Metadata system for input data from administrative registers](#)

[Chart 2.6 Identity database](#)

[Chart 2.7 Errors in profit and loss statements from limited companies, SEK million](#)

[Chart 2.8 Profit and loss statements for limited companies, SEK million](#)

[Chart 2.9 Registration of persons & demographic events in a Latin American country](#)

[Chart 2.10 Uncoordinated work with registers](#)

[Chart 2.11 Cooperation regarding the central population register](#)

[Chart 2.12 Sweden's system 1967-](#)

[Chart 2.13 Sweden's system 1985-](#)

[Chart 2.14 Sweden's system](#)

[Chart 2.15 Survey design: reduce costs and/or improve quality.](#)

Chapter 3 The Nature of Administrative Data

[Chart 3.1 Yearly turnover for the same enterprises in three sources, USD million](#)

[Chart 3.2 Distance for each ordered observation](#)

[Chart 3.3 Complete groups of enterprises](#)

[Chart 3.4 Three registers, Invoice Register, Client Register, Item Register](#)

[Chart 3.5 Statistical Sales Register for January 2012 - four transactions](#)

[Chart 3.6 Administrative Invoice Register](#)

[Chart 3.7 Statistical Invoice Register](#)

[Chart 3.8 Administrative Item Register](#)

[Chart 3.9 Statistical Item Register](#)

[Chart 3.10 Measurement errors - comparison of data collection methods](#)

Chapter 4 Building the System - Record Linkage

[Chart 4.1a Matching without errors in the matching key. \(PIN\).](#)

[Chart 4.1b Matching with errors in the matching key. \(PIN\).](#)

[Chart 4.1c Matching with errors in the matching key. \(First name and Surname\).](#)

[Chart 4.1d Matching without errors in the matching key. \(PIN\).](#)

[Chart 4.2a The relations between persons, activities and establishments](#)

[Chart 4.2b Wage sums for persons and establishments created by aggregation](#)

[Chart 4.2c Industry and sex as derived variables for jobs created by adjoining](#)

[Chart 4.2d Industry and number of employees as derived variables](#)

[Chart 4.3 Spelling errors, spelling variations and unstandardized addresses](#)

[Chart 4.4 Two ways of searching for duplicates in a Birth Register](#)

[Chart 4.5 Calculation of probabilities for outcomes for 1st name, 1st and 2nd surname](#)

[Chart 4.6 The eight outcomes for the matching key: 1st name, 1st and 2nd surname](#)

[Chart 4.7 Some outcomes for the matching key: Name and date of birth of the mother](#)

[Chart 4.8 Yearly turnover for the same legal units in three sources, USD million](#)

[Chart 4.9 Comparing gross yearly pay in quarterly and annual registers](#)

Chapter 5 Building the System - Quality Assessment

[Chart 5.1 A register survey: From administrative registers to statistical estimates](#)

[Chart 5.2 Statistical registers that are suitable for early development](#)

[Chart 5.3 Input and output data and the production process](#)

[Chart 5.4 The work with quality assessment of an administrative source](#)

[Chart 5.5 Indicators A1-A9 of input data quality - Relevance](#)

[Chart 5.6 Indicators B1-B7 of input data quality - Accuracy](#)

[Chart 5.7 Indicators C1-C5 of accuracy when comparing with the base register](#)

[Chart 5.8 Indicators D1-D4 of accuracy when comparing with related surveys](#)

[Chart 5.9 Coverage errors in the population register for Galapagos 2015](#)

[Chart 5.10 Coverage errors and area sample estimates of the population by district](#)

[Chart 5.11 Creating registers by linking different kinds of statistical units](#)

[Chart 5.12 Indicators E1-E4 of the quality of base registers in the system](#)

[Chart 5.13 Information from the administrative authority - relevance](#)

[Chart 5.14 Information from analysis and data editing of the source - accuracy](#)

[Chart 5.15 Information from integrating the source with base registers - accuracy](#)

[Chart 5.16 Information from integrating the source with related surveys - accuracy](#)

Chapter 6 Building the System - Editing Register Data

[Chart 6.1 Editing in sample surveys and register surveys](#)

[Chart 6.2 Automatic editing and imputation. Tax returns, 464 567 small enterprises](#)

[Chart 6.3a The Business Register and the Annual Pay Register](#)

[Chart 6.3b After matching the Business Register and the Annual Pay Register](#)

[Chart 6.3c The statistical Annual Pay Register](#)

[Chart 6.4a Combining the Business, Annual and Quarterly Pay Registers](#)

[Chart 6.4b Final version of the statistical Annual Pay Register](#)

[Chart 6.5 All relevant sources should be considered simultaneously](#)

[Chart 6.6 Comparing gross annual pay in a quarterly and yearly source, microdata](#)

[Chart 6.7 The unit problem in business data](#)

[Chart 6.8 Comparing gross annual pay in QGP and AGP, microdata](#)

[Chart 6.9 Comparing gross annual pay in QGP and AGP, macrodata](#)

[Chart 6.10 The system of registers and surveys that was analysed](#)

[Chapter 7 Building the System - The Population Register](#)

[Chart 7.1 Decentralised but coordinated process to create registers on persons](#)

[Chart 7.2 The system of registers that constitutes the Population Register at the NSO](#)
