[Title Page](#)

[Copyright Page](#)

[Dedication](#)

[Contributors](#)

[Foreword](#)

[Preface](#)

[Acknowledgements](#)

[Abbreviations](#)

[About the companion website](#)

[How to use your textbook](#)

[The anytime, anywhere textbook](#)

[Section I: General circumstances](#)

[CHAPTER 1: The development and organisation of trauma services](#)

[Introduction](#)

[The impact of major trauma](#)

[Injury prevention and reduction of severity](#)

[The trauma system](#)

[The major trauma care pathway](#)

[The effectiveness of change in the trauma care system](#)

[Other UK trauma system developments](#)

[International trauma systems](#)

[Summary](#)

[References](#)

CHAPTER 2: Pre-hospital trauma care

Introduction

Tasking and dispatch

Immediate destination post-injury

Scene management

Mechanism of injury and reading the scene

Clinical management

Specific pre-hospital situations

Emergency department pre-arrival alert

Mode of transport

Handover

Summary

Accompanying website content

References

Further reading

Website

CHAPTER 3: Initial assessment and resuscitation of the trauma patient

Introduction

Before the patient arrives

Trauma team

Patient reception

Trauma resuscitation phases

Primary survey and initial management

Patient's relatives

Team debrief

Accompanying website content

Summary

References

A 3: Initial assessment and management of the trauma patient. Imaging appendix: computed tomography overview

Where imaging fits into the overall patient flow

Major trauma computed tomography.

Imaging appendices

Summary.

References

Further reading

CHAPTER 4: Role of the trauma nurse

Introduction

Organisational aspects

Clinical and technical skills

Primary survey

Secondary survey

Special circumstances

Transfer of the patient

Trauma nurse coordinators

Summary

References

CHAPTER 5: Airway management in trauma

Introduction

Airway assessment

Securing the airway

Ventilation and intubation

Special circumstances

Summary

References

CHAPTER 6: Thoracic trauma

Introduction

Mechanisms and patterns of thoracic injury

Penetrating trauma

Pathophysiological changes

Primary survey and resuscitation

Investigations

Secondary survey

Traumatic cardiac arrest and emergency department thoracotomy

Summary

Accompanying online content

References

A 6: Thoracic trauma imaging appendix

Role of imaging

Radiology tips

References

CHAPTER 7: Shock and hypovolaemia following trauma

Introduction

Pathophysiology

Clinical assessment

Resuscitation

Developing concepts

Summary

References

CHAPTER 8: Head trauma

Introduction

Background

[Pathophysiology of head trauma](#)

[Initial assessment of head injuries](#)

[Radiological assessment in head injuries](#)

[Admission or discharge?](#)

[Inpatient management](#)

[Paediatric head injuries](#)

[Delayed effects of head injury](#)

[Post-head trauma rehabilitation](#)

[Summary](#)

[References](#)

[A 8: Head trauma imaging appendix](#)

[Role of imaging](#)

[Interpretation](#)

[Intracranial haemorrhage](#)

[Subdural](#)

[Secondary brain injury](#)

[Associated findings](#)

[References](#)

[Useful online resources](#)

[CHAPTER 9: Maxillofacial trauma](#)

[Introduction](#)

[Primary survey](#)

[Secondary survey](#)

[Specific craniomaxillofacial injuries](#)

[Children](#)

[Advanced imaging: facial trauma](#)

[Medication](#)

[Summary](#)

[Reference](#)

[Further reading](#)

[CHAPTER 10: Eye trauma](#)

[Introduction](#)

[Applied anatomy](#)

[Assessment of ophthalmic trauma](#)

[ABCDEF of ophthalmology](#)

[Practical approach to ophthalmic trauma](#)

[Summary](#)

[References](#)

[CHAPTER 11: Ear, nose and throat trauma](#)

[Introduction](#)

[Ear trauma](#)

[Nasal trauma](#)

[Soft-tissue neck trauma](#)

[Summary](#)

[References](#)

[CHAPTER 12: Abdominal trauma](#)

[Introduction](#)

[Applied abdominal anatomy](#)

[Mechanisms and patterns of injury](#)

[Decision-making in patients with abdominal trauma](#)

[Management of abdominal trauma](#)

[Specific anatomical/organ patterns of injury](#)

[Summary](#)

[Accompanying online content](#)

[References](#)

[A 12: Abdominal trauma imaging appendix](#)

[Role of imaging](#)

[Interpretation of computed tomography](#)

[References](#)

[Further reading](#)

[CHAPTER 13: Urinary tract trauma](#)

[Introduction](#)

[Upper urinary tract trauma](#)

[Lower urinary tract](#)

[Summary](#)

[Accompanying online content](#)

[References](#)

[Further reading](#)

[CHAPTER 14: Pelvic trauma](#)

[Introduction](#)

[Management on scene](#)

[Transfer to hospital](#)

[Primary survey and resuscitation](#)

[Imaging](#)

[Intervention](#)

[Definitive management](#)

[The aftermath](#)

[Summary](#)

[Accompanying website content for Chapter
W14](#)

[References](#)

[A 14: Pelvic trauma imaging appendix](#)

[Role of imaging](#)

[CT interpretation: ABCs](#)

[References](#)

[CHAPTER 15: Musculoskeletal trauma](#)

[Introduction](#)

[Pre-hospital management](#)

[Primary survey in hospital: life-threatening limb injuries](#)

[The secondary survey](#)

[Management of fractures in the polytrauma setting](#)

[Rehabilitation](#)

[Case example](#)

[Summary](#)

[Accompanying online content](#)

[References](#)

[Further reading](#)

[A 15: Musculoskeletal trauma imaging appendix](#)

[Role of imaging](#)

[Computed tomography interpretation: ABCs](#)

[CHAPTER 16: Acute spinal injury](#)

[Introduction](#)

[Mechanism of injury](#)

[Pre-hospital care](#)

[Management in the emergency department](#)

[Clinical assessment for an SCI](#)

[Radiological imaging](#)

[Decision-making](#)

[Reassessment](#)

[Definitive care](#)

[Summary](#)

[Accompanying online content](#)

[References](#)

[Spine stability further reading](#)

[A 16: Spinal trauma imaging appendix](#)

[Role of imaging](#)

[CT interpretation - ABCs](#)

[References](#)

[Further reading](#)

[CHAPTER 17: Early imaging in trauma and interventional radiology](#)

[Introduction](#)

[Types of imaging](#)

[Interventional radiology](#)

[Summary](#)

[Accompanying online content](#)

[References](#)

[CHAPTER 18: Psychological trauma](#)

[Introduction](#)

[Psychological responses to trauma](#)

[Management of psychological responses to trauma](#)

[Psychological impact on carers including trauma teams](#)

[Summary](#)

[References](#)

[Further reading](#)

[CHAPTER 19: Supporting distressed relatives and breaking bad news](#)

[Introduction](#)

[Initial contact](#)

[Arrival of relatives at the hospital](#)

[Breaking the news](#)

[Care of relatives](#)

[Information and follow-up](#)

[Staff support](#)

[Summary](#)

[Acknowledgements](#)

[References](#)

[Further reading](#)

[CHAPTER 20: Transfer of the trauma patient](#)

[Introduction](#)

[Initial decision-making, communication and coordination](#)

[Clinical aspects of transfer](#)

[Patient preparation and packaging](#)

[Training and education](#)

[Clinical governance and audit](#)

[Summary](#)

[References](#)

[CHAPTER 21: Rehabilitation of patients with major trauma](#)

[Introduction](#)

[What is rehabilitation?](#)

[Key principles and processes in the rehabilitation pathway](#)

[The rehabilitation assessment](#)

[Common barriers to rehabilitation after trauma](#)

[The role of the rehabilitation medicine physician](#)

[Considerations for rehabilitation of specific injuries in the acute setting](#)

[Assessing disability and measuring outcomes](#)

[Summary](#)

[Accompanying website content for Chapter W21](#)

[Role of imaging](#)

[Normal variants](#)

[References](#)

CHAPTER 23: Trauma in pregnancy.

Introduction

Anatomical changes during pregnancy.

Pathophysiological changes during pregnancy.

Types of trauma

Specific conditions associated with trauma in pregnancy.

Pre-hospital situation

Trauma alert

Prior planning and preparation

Primary survey.

Assessment of fetal well-being and viability.

Patient's notes

Secondary survey.

Imaging.

Specific interventions

Cardiac arrest

Summary

References

Further reading.

CHAPTER 24: Trauma in the older person

Introduction

Initiating the trauma response

Transfer to the resuscitation bay

Primary survey and resuscitation

AMP(L)E history.

Secondary survey.

Investigations

[Safeguarding](#)

[Rehabilitation](#)

[A more compassionate approach](#)

[Summary](#)

[References](#)

[CHAPTER 25: Medical problems in trauma](#)

[Introduction](#)

[Medical problems causing trauma](#)

[Medical problems caused by trauma](#)

[Medical problems that may complicate trauma](#)

[The future](#)

[Summary](#)

[References](#)

[CHAPTER 26: Management of severe burns](#)

[Introduction](#)

[Evacuation from the scene](#)

[Reception and resuscitation](#)

[Criteria for transfer to specialised burns service](#)

[Management of the burn wound](#)

[Special types of burns](#)

[Rehabilitation](#)

[Palliative care](#)

[Summary](#)

[Acknowledgements](#)

[References](#)

[Further reading](#)

[CHAPTER 27: Chemical incidents and secondary contamination risks](#)

[Introduction](#)

[Terminology](#)

[Health effects from chemical incidents](#)

[Assessing the contamination risk](#)

[Framework for protection against environmental hazards](#)

[Fundamentals of responding to chemical incidents](#)

[Summary](#)

[References](#)

[Note](#)

[CHAPTER 28: Blade, ballistic and blast trauma](#)

[Introduction](#)

[Applied basic science](#)

[Hospital management](#)

[Rehabilitation](#)

[Summary](#)

[Accompanying online content](#)

[References](#)

[CHAPTER 29: Major incidents. Part 1](#)

[Introduction](#)

[Preparing for a major incident](#)

[Incident scene organisation](#)

[Principles of management and medical support](#)

[Summary](#)

[Accompanying online content](#)
