Section 1 Introduction to New Measures/Indicators for the Economy *1*

1 Advances in Business Statistics, Methods and Data Collection: Introduction *3*
Ger Snijkers, Mojca Bavdaž, Stefan Bender, Jacqui Jones, Steve MacFeely, Joseph W. Sakshaug, Katherine J. Thompson, and Arnout van Delden
1.1 The ICES-VI Edited Volume: A New Book on Establishment Statistics Methodology *3*
1.2 The Importance of Establishment Statistics *5*
1.3 ICES Trends *8*
1.4 Organization of This Book *11*
1.4.1 Section 1: Introduction to New Measures/Indicators for the Economy *12*
1.4.2 Section 2: Topics in the Production of Official Establishment Statistics and Organizational Frameworks *12*
1.4.3 Section 3: Topics in the Use of Administrative Data *13*
1.4.4 Section 4: Topics in Business Survey Data Collection *14*
1.4.5 Section 5: Topics in the Use of New Data Sources and New Technologies *15*
1.4.6 Section 6: Topics in Sampling and Estimation *16*
1.4.7 Section 7: Topics in Data Integration, Linking and Matching *16*
1.5 To Conclude … *17*
Disclaimer *17*
References *18*
Appendix: Available ICES-VI Introductory Overview Lecture (IOL) Videos *21*

2 GDP and the SNA: Past and Present *23*
Steve MacFeely and Peter van de Ven
2.1 Introduction *23*
2.2 The Origins of National Income Statistics – A Brief History *23*
2.2.1 Early Developments *23*
2.2.2 Invention of Gross National Product (GNP) *24*
2.2.3 The Debate on Including Government *26*
2.2.4 Toward a System of National Accounts *27*

2.2.5 Global Proliferation of GDP *27*
2.3 SNA and GDP Today *28*
2.3.1 The System at Large *28*
2.3.2 Supply and Use Tables *28*
2.3.3 Institutional Sector Accounts *31*
2.3.4 The Link Between Supply and Use Tables and the Institutional Sector Accounts *33*
2.3.5 Consistency and Coherence *33*
2.3.6 The Relationship Between National Accounts and Business Statistics *34*
2.3.6.1 Definitional Adjustments *35*
2.3.6.2 Adjustments for Exhaustiveness *35*
2.3.6.3 Adjustments for Time Consistency *35*
2.3.6.4 Balancing Adjustments *35*
2.4 Most Recent and Important Revisions to SNA (Implications for Business Statistics) *36*
2.4.1 International Standards Not Set in Stone *36*
2.4.2 From SNA 1968 to SNA 1993 *37*
2.4.3 From SNA 1993 to SNA 2008 *38*
2.4.4 The SNA and Source Statistics for Enterprises *39*
2.5 Conclusions and Implications for Business Statistics *40*
References *41*

3 GDP and the SNA: Future Challenges *43*
Steve MacFeely and Peter van de Ven
3.1 Introduction *43*
3.2 An Agenda for the Future *44*
3.3 The Tangled Web of Globalization *44*
3.4 The Digital Revolution *47*
3.5 Moving Beyond GDP: GDP Impeached *48*
3.6 Including a Measure of Well-being *50*
3.7 Putting a Value on the Environment *52*
3.8 Challenges Replacing GDP *53*
3.9 Conclusions and Implications for Business Statistics *54*
References *56*

4 Bridging the Gap Between Business and Macroeconomic Statistics: Methodological Considerations and Practical Solutions *63*
Timo Koskimäki and Kristian Taskinen
4.1 Introduction *63*
4.2 Global Production and Statistics *63*
4.2.1 Concepts of Nationality and Economic Ownership *64*
4.2.2 Case Finland: Global Production in Economic Statistics *65*
4.2.2.1 Identification of Enterprises Involved in Global Production *65*
4.2.2.2 Case on Automotive Industry *66*
4.2.2.3 Foreign Trade of Goods Based on Economic Ownership *67*
4.2.2.4 Challenges Related to Global Production Recordings *68*

4.3 Co-operation Between National Statistical Offices and National Central Bank Statistics Functions Tackling Globalization Problems *69*
4.3.1 Foreign Direct Investment Network as an Example of Co-operation *69*
4.3.2 Early-Warning System (EWS) *70*
4.3.3 A Roadmap for Solving the Globalization-Related Issues in Monetary, Financial, and Balance of Payments – Statistics *71*
4.4 Bridging the Gap Between Business and Economic Statistics Through Global Data Sharing *72*
4.4.1 Product Innovation – One-Off or Regular Data Sharing for Better Quality *72*
4.4.2 Service Innovation – Improving Respondent Service for MNEs *73*
4.4.3 Process Innovation to Statistical Production by Data Sharing *73*
4.4.4 Innovating User Experience – Better Relevance and Consistency for Users *74*
4.4.5 Organizational Innovation – Changing the Business Model of Official Statistics *74*
4.4.6 Cultural Innovation – Key to Making it Happen *75*
4.4.7 Innovation in Other Industries to Learn From *75*
References *76*

5 Measuring Investment in Intangible Assets *79*
Mojca Bavdaž, Ahmed Bounfour, Josh Martin, Alberto Nonnis, Giulio Perani, and Tjaša Redek
5.1 Introduction *79*
5.2 Data Sources on Intangibles *80*
5.2.1 Past Surveys on Intangibles *81*
5.2.2 Comparison of Past Surveys on Intangibles *85*
5.3 Measurement Challenges in Surveys *86*
5.3.1 Intangibles Are Intangible and Mobile *86*
5.3.2 Own-Account Investment Prevails *87*
5.3.3 Pricing of Intangibles Is Difficult *87*
5.3.4 In Search of the Most Suitable Respondent for Intangibles *88*
5.3.5 Investments in Intangibles Take Time *88*
5.3.6 Data Existence Questioned *89*
5.3.7 Evidence of Inconsistent Respondent Behavior *89*
5.3.8 Summarizing the Challenges in Intangible Surveys: The 4 "F" Words *90*
5.4 Intangibles and the Productivity Puzzle *91*
5.4.1 Analytical Considerations *91*
5.4.2 Role of Global Value Chains *91*
5.5 Collecting Data on Intangibles: The Way Ahead *93*
5.5.1 Methodological Improvements *93*
5.5.2 Data Needs Today and Tomorrow *94*
5.5.2.1 Current and Potential Users *94*
5.5.2.2 A (Single) IA Survey or a Bundle of Data Sources? *95*
5.5.2.3 A Parallel Development Path: Assessing Intangible Asset Stocks *95*
5.6 Conclusion *96*
Acknowledgment *98*
References *98*

6 Measuring the US Digital Economy *105*
Jessica R. Nicholson, Thomas F. Howells III, and David B. Wasshausen
6.1 Introduction *105*
6.2 Experimental Digital Economy Measures *105*
6.2.1 Methodology *106*
6.2.1.1 Defining the Digital Economy *107*
6.2.1.2 Calculating Results *110*
6.2.2 Domestic Trends *110*
6.2.2.1 Value Added *110*
6.2.2.2 Gross Output *112*
6.2.2.3 Prices *112*
6.2.3 International Collaboration and Alignment *112*
6.2.3.1 The Organization for Economic Co-operation and Development Working Party on National Accounts *113*
6.2.3.2 International Comparisons *114*
6.2.4 Other Areas of Research *115*
6.2.4.1 "Free" Digital Media *115*
6.2.4.2 Measurement and Treatment of Data *116*
6.2.4.3 Prices *117*
6.3 Measuring Digital Services Trade *118*
6.3.1 Defining Digital Services for International Trade *119*
6.3.2 Trends in ICT and ICT-enabled Services *119*
6.3.3 Areas of Research *121*
6.4 Conclusion and Way Forward *122*
References *123*

7 Establishment Based Informal Sector Statistics: An Endeavor of Measurement from Economic Census 2018 of Nepal *125*
Mahesh C. Pradhan
7.1 Introduction *125*
7.2 Issues of Informal Sector in Legislation and Policies in Nepal *125*
7.2.1 Constitution 2015 *126*
7.2.2 Labor Act 2017 *126*
7.2.3 Contribution Based Social Security Act 2017 *126*
7.2.4 Fifteenth Periodic Plan (2019/20–2023/24) *126*
7.2.5 National Employment Policy 2014 *126*
7.3 Concept and Definition of Informal Sector *127*
7.3.1 Definition of Informal Sector from Statistical Perspective *127*
7.4 Endeavors of Measuring Informal Economic Activities in Nepal *128*
7.4.1 Nepal Labor Force Survey *128*
7.4.2 Nepal Living Standard Surveys (NLSS) *129*
7.4.3 Population Censuses *129*
7.5 Economic Census 2018 *130*
7.5.1 Contents of Economic Census 2018 *130*
7.6 Status of the Informal Sector Statistics *131*
7.6.1 Informal Sector Statistics from Nepal Labor Force Survey 1998 and 2008 *131*
7.6.2 Informal Sector Statistics from Nepal Labor Force Survey 2017/18 *131*

7.6.3 Informal Sector Statistics from National Population Census 2011 *131*
7.6.4 Informal Sector Statistics from National Economic Census 2018 *133*
7.6.5 Status of Keeping Accounting Record *133*
7.6.6 Informality in Micro Small and Medium Establishments (MSME) *133*
7.6.7 Street Business Situation *135*
7.7 Annual Revenues/Sales, Operating Expenses in Not-Registered Establishments *137*
7.8 Need of Regular Measurement Informal Sector *140*
7.9 Conclusion *141*
References *142*

Section 2 Topics in the Production of Official Establishment Statistics and Organizational Frameworks *145*

8 Statistical Producers Challenges and Help *147*
Jacqui Jones and Holly O'Byrne
8.1 Introduction *147*
8.2 A Brief Overview of the Evolution of Economic Statistics, and the Establishment of National Statistical Institutes *147*
8.3 Our Statistical Ecosystem *150*
8.4 Help Available to Us *152*
8.4.1 International Governance *152*
8.4.2 Statistical Principles to Produce and Disseminate Official Statistics *154*
8.4.3 Statistical Production Models and Frameworks *155*
8.4.3.1 Quality Assurance Frameworks *156*
8.4.4 Statistical Manuals and Handbooks *156*
8.4.5 Classifications *156*
8.4.5.1 Classifying Businesses *157*
8.4.5.2 Classifying Employment and Workers *157*
8.4.5.3 Classifications Overview *158*
8.4.6 Statistical Tools *158*
8.4.7 International Collaboration and Support *158*
8.5 Summary Before the Case Study *159*
8.6 Standardization Leads to Efficiency: Canada's Integrated Business Statistics Program *159*
8.7 IBSP Objectives *160*
8.8 Cornerstones of an Integrated Infrastructure System *160*
8.9 Metadata-Driven Model *161*
8.10 Integrated Infrastructure *161*
8.11 Information Management *162*
8.12 Standardization and Cooperation Within IBSP *162*
8.13 The Business Register *163*
8.13.1 The BR as the Common Frame *163*
8.13.2 Allocation Factors on the BR *163*
8.13.3 Commodities and Activities on the BR *164*
8.13.4 Robust Methodologies and Generalized Systems *164*
8.14 Standard Tools for Developing EQ *164*

8.15 Developing a Harmonized Content Model *165*
8.16 The IBSP Data Mart and Analytical Tools *165*
8.17 Managing Response Burden *166*
8.18 Electronic Questionnaires *166*
8.19 Large and Complex Enterprises *166*
8.19.1 EPM/LAOS Programs *167*
8.19.2 Customized Collection *167*
8.20 Tax Replacement Strategy *167*
8.21 Active Collection Management *168*
8.22 Rolling Estimate Model *168*
8.23 IBSP Growth and Adaptation *169*
8.24 Efficiencies Gained and Learned *170*
8.25 Conclusion *170*
References *171*

9 The Development and Maintenance of Statistical Business Registers as Statistical Infrastructure in Statistics Indonesia and the Australian Bureau of Statistics *175*
Imam Machdi, Ratih Putri Pertiwi, Rr. Nefriana, and Willem Erasmus
9.1 Introduction *175*
9.2 The Indonesian and Australian Context *175*
9.3 The Definition of a Statistical Business Register *176*
9.4 The Evolution of SBRs in Statistics Indonesia and the Australian Bureau of Statistics *176*
9.4.1 Development of the Statistical Business Register in Statistics Indonesia *177*
9.4.1.1 Phase 1 (1970–2012): Business Directory *177*
9.4.1.2 Phase 2 (2013–2015): Integrated Business Register *177*
9.4.1.3 Phase 3 (2015–2021): The Statistical Business Register *178*
9.4.2 Development of the Statistical Business Register in the Australia Bureau of Statistics *178*
9.5 Statistical Business Register Designs *180*
9.5.1 The Design of the BPS SBR *180*
9.5.1.1 Statistical Unit Model *180*
9.5.1.2 Unit Coverage *180*
9.5.1.3 Data Sources *181*
9.5.1.4 Main Processes *181*
9.5.1.5 SBR Integration *183*
9.5.2 The Design of the ABS Statistical Business Register *183*
9.5.2.1 Centralized Maintenance *184*
9.5.2.2 Dissemination *184*
9.5.2.3 Uses *185*
9.6 Statistical Business Register Benefits *185*
9.7 Statistical Business Register Challenges *186*
9.7.1 SBR Governance and Policy *186*
9.7.2 Business Process Integration *187*

9.7.3 System Development *187*
9.8 Opportunities in SBR Implementation *188*
9.8.1 Transformation Program *188*
9.8.2 National Policy and Initiative *189*
9.9 The Future Spine Concept *190*
9.10 Conclusion *191*
Acknowledgment *192*
References *192*

10 Managing Response Burden for Official Statistics Business Surveys – Experiences and Recent Developments at Statistics Netherlands, Statistics Portugal, and Statistics Sweden *193*
Johan Erikson, Deirdre Giesen, Leanne Houben, and Paulo Saraiva
10.1 Introduction *193*
10.2 Understanding and Measuring Response Burden *194*
10.2.1 The Concept of Response Burden *194*
10.2.2 Measuring and Monitoring Response Burden *194*
10.3 Organization of Response Burden Management *197*
10.3.1 Legal Context and Cooperation with Other Government Bodies *197*
10.3.2 Organization of Burden Management Within the NSI *198*
10.4 Burden Reduction Measures *198*
10.4.1 Using Alternative Sources *199*
10.4.2 Improving Primary Data Collection *199*
10.4.2.1 Redesigning Content to Fit Data Provision Capacities *200*
10.4.2.2 Sample Coordination *200*
10.4.2.3 Business Survey Communication *201*
10.4.2.4 Feedback *202*
10.4.2.5 File Transfer and Other Techniques (Hybrid Data Collection) *203*
10.4.3 Survey-assisted Modeling with Mixed Sources *204*
10.4.4 Reducing Burden Through Cooperation *204*
10.4.4.1 Coordination of Metadata *205*
10.4.4.2 Technical Cooperation and Standards *206*
10.4.4.3 Standard Business Reporting *206*
10.5 Discussion *208*
Disclaimer and Acknowledgments *209*

11 Producing Official Statistics During the COVID-19 Pandemic *225*
Jacqui Jones, Luisa Ryan, A.J. Lanyon, Marie Apostolou, Tanya Price, Corinna König, Marieke Volkert, Joseph W. Sakshaug, Dane Mead, Helen Baird, Duncan Elliott, and Craig H. McLaren
11.1 Introduction *225*
11.2 Managing the Australian Statistical Business Register During COVID-19 *226*
11.2.1 ABS Business Register and COVID-19 *227*
11.2.2 Changes to Business Reporting *228*
11.2.3 Potential Impacts to the ABS BR *229*
11.2.4 Increasing Number of Employers *229*
11.2.5 Industry Recoding *232*
11.2.6 Business Cancellations *232*
11.2.7 The New Normal? *233*
11.3 Mitigating COVID-19 Response Rate Risks in the Collection of the ABS Producer and International Trade Price Indexes *234*
11.3.1 Overview of ABS Producer and International Trade Price Indexes *234*
11.3.2 ABS Producer and International Trade Prices Data Collection *235*
11.3.3 Developing the COVID-19 Response *235*
11.3.4 The Optimizing Response Strategy *236*
11.3.5 Prefield Preparation *236*
11.3.6 Field Development and Operations *236*
11.3.7 Outcomes of the Optimizing Response Strategy *239*
11.3.8 Lessons Learned *240*
11.4 The Impact of Changing Data Collection Modes in the IAB Establishment Panel in Response to the COVID-19 Pandemic *241*
11.5 Classification and Statistical Implementation of Australian COVID-19 Government Policies *247*
11.5.1 Building a New Work Program *247*
11.5.2 Changes to Business Surveys *248*
11.5.3 Policy Case Study – JobKeeper *248*
11.5.3.1 Classification of the Policy *249*
11.5.3.2 Implementation of Policy Classification *249*
11.5.4 Lessons for the Organization *250*
11.6 Seasonal Adjustment and Trend During and Post–COVID-19 *251*
11.6.1 Pre-COVID Publication and Presentation of Data *252*
11.6.2 Seasonal Adjustment and Trend Estimation in Practice *252*
11.6.3 Publication and Presentation During COVID-19 *253*
11.6.4 Options for Time Series Publications During COVID-19 *254*
11.6.5 Modeling Outliers *254*
11.6.6 Forward Factors *256*
11.6.7 Option to Suspend Series *257*
11.6.8 Use of High-Frequency Estimates *259*
11.6.9 Other Time Series Challenges *259*
11.6.10 Conclusion *259*
Appendix *260*

Section 3 Topics in the Use of Administrative Data *265*

12 Methodology for the Use of Administrative Data in Business Statistics *267*
Arnout van Delden and Danni Lewis
12.1 Introduction *267*
12.2 Receive the Data *269*
12.3 Inspect the Data *270*
12.4 Link to Population Frame *270*
12.4.1 Basic Linkage Methods *271*
12.4.2 Linkage of Data Sets in the Presence of Different Unit Types *271*
12.5 From Actual to Target Population *272*
12.5.1 Estimation Methods to Adjust for Undercoverage *273*
12.5.2 Temporary Coverage Issues *274*
12.6 From Observed to Targeted Variables *274*
12.6.1 Harmonization Methods *274*
12.6.2 Editing Methods for Measurement Errors *276*
12.6.3 Correcting for Bias Due to Decentralized and Autonomous Organizations *277*
12.7 From Observed to Targeted Periods *278*
12.7.1 Estimation Methods When Data Are Not Available on Time *278*
12.7.1.1 Benchmarking *278*
12.7.1.2 Forecasting from Previous Complete Data *279*
12.7.1.3 Estimation Techniques *279*
12.7.2 Estimation Methods to Adjust for Periodicity *280*
12.8 Assess Data Quality *280*
12.8.1 Throughput Quality *280*
12.8.2 Output Quality *281*
12.8.3 Analysis of Differences Between Survey and Administrative Data Estimates *282*
12.9 Unsolved Issues *283*
12.10 Conclusion *285*
References *285*

13 Developing Statistical Frameworks for Administrative Data and Integrating It into Business Statistics. Experiences from the UK and New Zealand *291*
Nicholas Cox, Craig H. McLaren, Claire Shenton, Tom Tarling, and Ella W. Davies
13.1 Introduction *291*
13.1.1 Background *291*
13.1.2 Administrative Data Methods Research Program *292*
13.2 Quality Frameworks for Administrative Data *293*
13.2.1 Statistics Netherlands and UNECE Framework *295*
13.2.2 Stats New Zealand and Zhang Framework *295*
13.2.3 The ESSnet Komuso Project *296*
13.2.4 The Southampton University Error Project *296*
13.3 Case Study One – The Use of Value Added Tax Data in the United Kingdom *297*
13.3.1 Organizational Context Within the Office for National Statistics *297*
13.3.1.1 Administrative Data in Practice *298*
13.3.1.2 Dealing with the Data *298*
13.3.1.3 Complex Units in UK Tax Data *299*

13.3.2 Developing Statistical Pipelines for Processing *300*
13.3.3 The Use of Administrative Data in UK Monthly Short-term Indicators *301*
13.3.4 The Use of Administrative Data for Regional Estimation *301*
13.3.5 Example: Comparison of VAT Data to Survey Data *303*
13.4 Case Study 2 – A Greater Use of Administrative Data in New Zealand's Labor Market Statistics *305*
13.4.1 Organizational Context *305*
13.4.2 Stats NZ's New Monthly Employment Indicator *307*
13.4.3 Redesigning the Quarterly Employment Survey *308*
13.4.3.1 Phase One *309*
13.4.3.2 Phase Two *310*
13.4.4 Introducing Stats NZ's New Quarterly Business Employment Data *310*
13.5 Concluding Remarks *311*
References *311*

33.6.1 BLADE Integrating Frame *768*
33.6.2 Linking Data to BLADE *770*
33.6.2.1 ABS Survey Data *770*
33.6.2.2 BLADE Core *770*
33.6.2.3 Linkage of Other Administrative Data *771*
33.6.3 Maintaining BLADE *772*
33.6.3.1 Static and Dynamic BLADE *773*
33.7 BLADE Access Model *773*
33.7.1 Accessing BLADE *774*
33.7.2 Customized BLADE Products *775*
33.7.3 How BLADE Is Being Used *775*
33.8 Conclusion *775*
References *776*

34 Methods for Estimating the Quality of Multisource Statistics *781*
Arnout van Delden, Sander Scholtus, Ton de Waal, and Irene Csorba
34.1 Introduction *781*
34.2 Representation Error *783*
34.2.1 Estimating and Correcting Selectivity *783*
34.2.1.1 Estimating Output Accuracy with Respect to Representation Errors *783*

34.2.1.2 Correcting for Representation Errors *785*
34.2.2 Case Study on Estimating Bias Due to Selectivity *785*
34.2.3 Case Study on Correcting Output for Selectivity *787*
34.3 Linkage Error *788*
34.3.1 Estimating the Effect of Linkage Errors on Outputs *788*
34.3.2 Adjusting Outputs to Correct for Linkage Errors *790*
34.3.3 Simulation Study on Correcting Contingency Tables for Linkage Errors *792*
34.4 Measurement Error *793*
34.4.1 Quantifying Measurement Error *794*
34.4.2 Estimating the Effect of Measurement Error on Outputs *795*
34.4.3 Case Study on Turnover Growth Rates by Economic Activity *796*
34.4.4 Case Study on Internet Purchases *797*
34.4.5 Obtaining a Bias-corrected Estimator for Measurement Errors *798*
34.4.6 Simulation Study Comparing the Bias-corrected Estimators *799*
34.5 Conclusion *800*

35 Adopting Previously Reported Data into the 2022 Census of Agriculture: Lessons Learned from the 2020 September Agricultural Survey *805*
Linda J. Young, Joseph B. Rodhouse, Zachary Terner, and Gavin Corral
35.1 Introduction *805*
35.2 Agricultural Survey and Previously Reported Data (PRD) *806*
35.3 Study Design *807*
35.3.1 Survey Questions and PRD Included in the Study *807*
35.3.2 Design of the Study *808*
35.3.3 Data Collection *810*
35.3.4 Analysis of the Study *810*
35.4 Study Results *810*
35.4.1 Comparison of Response Rates *811*
35.4.2 Comparison of Completion Times *812*
35.4.3 Analysis of Update Rates *814*
35.4.4 Analysis of Edit Rates *816*
35.5 Discussion *816*
Acknowledgments *818*
References *819*

36 Integrating Alternative and Administrative Data into the Monthly Business Statistics: Some Applications from Statistics Canada *821*
Marie-Claude Duval, Richard Laroche, and Sébastien Landry
36.1 Context for Integrating Alternative and Administrative Data *821*
36.2 Replacement of Survey Data by Tax Data in the Monthly Survey of Food Services and Drinking Places *822*
36.2.1 Previous Methodology Under a Survey Design *822*
36.2.2 The GST Administrative File *823*
36.2.3 The New Methodology Proposed to Replace Survey Data with Administrative Data *824*
36.2.4 Assessment and Requirements Before the Implementation *825*

36.2.5 Implementation *825*
36.2.6 Conclusion and Future Work *826*
36.3 Replacement of Survey Data by Scanner Data in the Retail Commodity Survey *827*
36.3.1 The Retail Commodity Survey *827*
36.3.2 Scanner Data File and Coding by Commodity *828*
36.3.3 Methodology to Replace Survey Data with Scanner Data *829*
36.3.4 Quality Assurance Process *829*
36.3.5 Future Work and Conclusion *830*
36.4 Integration of Survey Data with Administrative Data in the Monthly Survey of Manufacturing Using Small Area Estimation Techniques *831*
36.4.1 Methodology of the Monthly Survey of Manufacturing (MSM) *831*
36.4.2 Small Area Estimation (SAE) Method and Implementation *831*
36.4.3 Confidentiality Strategy for the SAE Estimates *833*
36.4.4 Conclusion and Future Work *834*
36.5 Impact of the COVID-19 Pandemic in the Monthly Business Programs and the Administrative and Alternative Data Sources Used *834*
36.5.1 Survey Responses *834*
36.5.2 Imputation Methods *835*
36.5.3 Scanner Data and Administrative GST Data *835*
36.5.4 Advance Estimates and Supplementary Questions *836*
36.6 Future Initiatives for the Monthly Business Programs *836*
36.7 Conclusion *837*
Acknowledgments *837*
References *838*
