Achieving the Sustainable Development Goal Against Poverty in Developing Nations

Perspective from Urban Land Titling Potentials

Sustainable Development Goals Series

The **Sustainable Development Goals Series** is Springer Nature's inaugural cross-imprint book series that addresses and supports the United Nations' seventeen Sustainable Development Goals. The series fosters comprehensive research focused on these global targets and endeavours to address some of society's greatest grand challenges. The SDGs are inherently multidisciplinary, and they bring people working across different fields together and working towards a common goal. In this spirit, the Sustainable Development Goals series is the first at Springer Nature to publish books under both the Springer and Palgrave Macmillan imprints, bringing the strengths of our imprints together.

The Sustainable Development Goals Series is organized into eighteen subseries: one subseries based around each of the seventeen respective Sustainable Development Goals, and an eighteenth subseries, "Connecting the Goals", which serves as a home for volumes addressing multiple goals or studying the SDGs as a whole. Each subseries is guided by an expert Subseries Advisor with years or decades of experience studying and addressing core components of their respective Goal.

The SDG Series has a remit as broad as the SDGs themselves, and contributions are welcome from scientists, academics, policymakers, and researchers working in fields related to any of the seventeen goals. If you are interested in contributing a monograph or curated volume to the series, please contact the Publishers: Zachary Romano [Springer; zachary.romano@springer.com] and Rachael Ballard [Palgrave Macmillan; rachael.ballard@palgrave.com].

Preface

This book is hoped to be ground breaking because it sheds light on the complex backdrop of land titling difficulties in Sub-Saharan Africa (SSA), particularly Nigeria. It adds considerably to what is already known about the topic by exploring the intricate interplay between land titling, SMEs, and the overriding objective of poverty reduction. The book finds its way through the unique obstacles and possibilities the SSA setting presents. It acknowledges the distinct socioeconomic and political aspects that impact land titling dynamics in the region by focusing on Nigeria. Contextualizing land titling uncovers a more granular knowledge of the varied geographies and subtleties that shape the discourse.

This research stands out because it highlights the interdependent nature of land titling, small- and medium-sized enterprises (SMEs), and poverty reduction. While other studies have looked at these factors separately, this one ties them together, recognising the interdependence that determines how they affect sustainable development. The transformative potential of land titling goes beyond individual sectors, and the holistic approach recognises that. It adds depth to the existing information base. This book fills significant knowledge gaps about the dynamics of land titling in SSA and uniquely contributes to the field.

An emphasis on the role of SMEs and poverty reduction in the context of land titling provides new insights, complementing the existing literature on the topic. This study area provides a more thorough and nuanced view, which is lacking in the current literature. In addition, there is a new dimension to the research since it incorporates facts, especially from case studies like the one in Akure, Nigeria. By combining a pragmatic layer into the investigation, this practical basis enhances the story and takes it beyond theoretical frameworks. By incorporating real-world settings, the book's findings gain relevance and applicability. It also lays the groundwork for future research into how land tenure systems can impact developing nations' intricate socioeconomic fabric.

The research unravels complexity and offers opportunities for technical innovation, interdisciplinary collaboration, and a deeper understanding of the cultural nuances that impact land titling dynamics. Exploring these

uncharted territories holds great potential for game-changing initiatives that can alleviate poverty, empower the people of SSA, and ensure their long-term sustainability.

Contents

1	General Introduction	1
1.1	Background to the Study	1
1.2	Urban Change and Poverty in the Global South	1
1.3	The Role of Land Registration	2
1.4	The Inter-relationship Between Poverty and Land Registration	3
1.5	Nigeria as a Case Study	3
1.6	Aim of Book	3
1.7	The Structure of the Book	4
1.8	Concluding Remarks	5
	References	5
2	Navigating the Dimensions of Poverty from Global Goals to Local Realities	7
2.1	Introduction	7
2.2	Poverty as a Concept	8
2.3	International Poverty Standards and Goals	8
2.4	The Menace of Poverty in Sub-Saharan Africa	9
2.5	Relative and Absolute Poverty	10
2.6	Dimensions of Poverty	11
2.6.1	Basic Needs Dimension	11
2.6.2	Spatial Dimension	12
2.6.3	Capability Approach to Understanding Poverty	12
2.6.4	Inclusion and Exclusion Poverty Criteria	13
2.7	Concluding Remarks	13
	References	14
3	Definition and Importance of Formal Land Titling	15
3.1	Introduction	15
3.2	Defining Land Titling	16
3.3	The Benefits of Formal Land Titling to Developing Countries	17
3.3.1	Access to Credit	17
3.3.2	Improving the Operation of the Land Market	17
3.3.3	Enhanced Land Tax Base	18
3.3.4	Reduced Land Disputes and Litigation	18

3.4	Land Titling Approaches	18
3.4.1	Sporadic Titling During Application of the Landowner	19
3.4.2	Sporadic Titling During Subsequent Transactions	19
3.4.3	Systematic Titling (SLT)	19
3.5	A Summary of the Benefits of Land Titling	20
3.5.1	General Benefits	20
3.6	Challenges and Solutions in Land Titling Programmes: A Review of Factors Affecting Investment and Economic Growth	21
3.7	Concluding Remarks	22
	References	22
4	Sub-Saharan Africa's Customary Practices and Land Titling Policy Reforms	25
4.1	Introduction	25
4.2	Land Titling in Africa: Historical and Institutional Background	26
4.3	A Comparison of Land Titling Policies and Practices in Selected African Countries	28
4.4	Trends in Land Titling: Lessons from Akure, Nigeria as a Case Study	32
4.4.1	Methodology	32
4.4.2	Results	33
4.5	Prerequisites for Successful Implementation of Land Titling	35
4.6	Framework for Effective Titling Based on the Evolutionary Theory of Land Rights (ETLR)	35
4.7	Concluding Remarks	37
	References	37
5	Land Titling and Its Effects	41
5.1	Introduction	41
5.2	Land Titling and Land Value	41
5.3	Exploring the Differences in Property Values Between Titled and Untitled Land in Akure	44
5.3.1	Testing Differences Using Simple Statistical Tests	44
5.3.2	A Hedonic Price Analysis Approach	45
5.4	Land Titling and Credit Access	48
5.5	Title as an Investment Motivator	49
5.6	The Impact of Land Titling on Family Wealth, Social Security, and Economic Development	49
5.7	Concluding Remarks	50
	References	51
6	Is Land Titling Beneficial for Active Poverty Reduction?	53
6.1	Introduction	53
6.2	A Reminder of the Case for Land Titling to Address Poverty	54
