- Series Page
- Title Page
- Copyright Page
- Preface
- Part 1: NATURAL LANGUAGE PROCESSING (NLP) APPLICATIONS
  - 1 A Comprehensive Analysis of Various Tokenization Techniques and Sequence-to-Sequence Model in Natural Language Processing
    - 1.1 Introduction
    - 1.2 Literature Survey
    - 1.3 Sequence-to-Sequence Models
    - 1.4 Comparison Table
    - 1.5 Comparison Graphs
    - 1.6 Research Gap Identified
    - 1.7 Conclusion
    - References
  - 2 A Review on Text Analysis Using NLP
    - 2.1 Introduction
    - 2.2 Literature Review
    - 2.3 Comparison Table of Previous Techniques
    - 2.4 Comparison Graphs
    - 2.5 Research Gap
    - 2.6 Conclusion

References
3 Text Generation & Classification in NLP: A Review
3.1 Introduction
3.2 Literature Survey
3.3 Comparison Table of Previous Techniques
3.4 Research Gap
3.5 Conclusion
References
4 Book Genre Prediction Using NLP: A Review
4.1 Introduction
4.2 Literature Survey
4.3 Comparison Table
4.4 Research Gap Identified
4.5 Future Scope
4.6 Conclusion
References
5 Mood Detection Using Tokenization: A Review
5.1 Introduction
5.2 Literature Survey
5.3 Comparison Table of Previous Techniques
5.4 Graphs
5.5 Research Gap
5.6 Conclusion
References
6 Converting Pseudo Code to Code: A Review
6.1 Introduction
6.2 Literature Review

6.3 Comparison Table
6.4 Graphs of Comparison Done
6.5 Research Gap Identified
6.6 Conclusion
References
Part 2: MACHINE LEARNING APPLICATIONS IN SPECIFIC DOMAINS
7 Evaluating the Readability of English Language Using Machine Learning Models
7.1 Introduction
7.2 Contribution in this Chapter
7.3 Research Gap
7.4 Literature Review
7.5 Proposed Model
7.6 Model Analysis with Result and Discussion
7.7 Conclusion
References
8 Machine Learning in Maximizing Cotton Yield with Special Reference to Fertilizer Selection
8.1 Introduction
8.2 Literature Review
8.3 Materials and Methods
8.4 Application to the Fertilizer Selection Problem
8.5 Conclusion and Future Suggestions
References
9 Machine Learning Approaches to Catalysis
9.1 Introduction
9.2 Chem-Workflow

9.3 ML Basic Concepts
9.4 ML Models in Catalysis
9.5 ML in Structure–Activity Prediction
9.6 Conclusion and Future Works
References
10 Classification of Livestock Diseases Using Machine Learning Algorithms
10.1 Introduction
10.2 Literature Review
10.3 Materials and Methods
10.4 Application of the Supervised Classifiers in Disease Classification
10.5 Results and Conclusion
References
11 Image Enhancement Techniques to Modify an Image with Machine Learning Application
11.1 Introduction
11.2 Literature Review
11.3 Image Enhancement Techniques for Betterment of the Images
11.4 Proposed Image Enhancement Techniques
11.5 Conclusion
References
12 Software Engineering in Machine Learning Applications: A Comprehensive Study
12.1 Introduction
12.2 Related Works
12.3 Comparison Table
12.4 Graph of Comparison

12.5 Machine Learning in Software Engineering
12.6 Conclusion
References
13 Machine Learning Applications in Battery Management System
13.1 Introduction
13.2 Battery Management System (BMS)
13.3 Estimation of Battery SOC and SOH
13.4 Cell Balancing Mechanism for BMS
13.5 Industrial Applications
13.6 Case Studies of ML-Based BMS Applications in Industry
13.7 Challenges
13.8 Conclusion
References
14 ML Applications in Healthcare
14.1 Introduction
14.2 Applications of Machine Learning in Health Science
14.3 Why Machine Learning is Crucial in Healthcare
14.4 Challenges and Opportunities
14.5 Conclusion
References
15 Enhancing Resource Management in Precision Farming through AI-Based Irrigation Optimization
15.1 Introduction to Precision Farming
15.2 Role of Artificial Intelligence (AI) in Precision Farming

15.3 Data Collection and Sensing for Precision Farming
15.4 Crop Monitoring and Management
15.5 Precision Planting and Seeding
15.6 Harvesting and Yield Estimation
15.7 Data Analytics and Machine Learning
15.8 Integration of AI with Other Technologies
15.9 Case Studies and Success Stories
15.10 Challenges and Future Trends
15.11 Conclusion
References
16 An In-Depth Review on Machine Learning Infusion in an Agricultural Production System
16.1 Background Study
16.2 Research Methodology
16.3 Results and Discussion
16.4 Conclusion
References
Part 3: ARTIFICIAL INTELLIGENCE AND OPTIMIZATION TECHNIQUES
17 Reinforcement Learning Approach in Supply Chain Management: A Review
17.1 Introduction
17.2 Literature Review
17.3 Methodology
17.4 Reinforcement Learning in Supply Chain Management
17.5 Adoption of Reinforcement Learning in Supply Chain Management

17.6 Alternatives to Reinforcement Learning in Supply Chain Management
17.7 Conclusion
References
18 Alternate Approach to Solve Differential Equations Using Artificial Neural Network with Optimization Technique
18.1 Introduction
18.2 Artificial Neural Network
18.3 Backpropagation Algorithm
18.4 Solving Differential Equation Using ANN
18.5 System Identification Using ANN
18.6 Conclusion
References
19 GPT-3- and DALL-E-Powered Applications: A Complete Survey
19.1 Introduction
19.2 Understanding GPT-3
19.3 Understanding DALL-E
19.4 Applications Powered By GPT-3 and DALL-E
19.5 Challenges and Open Issues
19.6 Future Directions
19.7 Conclusion
References
20 New Variation of Exam Scheduling Problem Using Graph Coloring
20.1 Introduction
20.2 Notations and Preliminaries
20.3 Description of Algorithm

20.4 Time Complexity of the Algorithm
20.5 Concluding Remarks
20.6 Acknowledgments
References
Part 4: EMERGING TOPICS IN MACHINE LEARNING
21 A Comparative Study of Different Techniques of Text-to-SQL Query Converter
21.1 Introduction
21.2 Literature Survey
21.3 Comparison Table of Previous Techniques
21.4 Comparison Graphs
21.5 Research Gap
21.6 Conclusion
References
22 Trust-Based Leader Election in Flying Ad-Hoc Network
22.1 Introduction
22.2 Related Work
22.3 Discussion of the Proposed Methodology and Results
22.4 Conclusion
References
23 A Survey on Domain of Application of Recommender System
23.1 Introduction
23.2 Background
23.3 Study of Recommender Systems
23.4 Conclusion
References

24 New Approach on M/M/c/K Queueing Models via Single Valued Linguistic Neutrosophic Numbers and Perceptionization Using a Non-Linear Programming Technique
24.1 Introduction
24.2 Neutrosophic M/M/C/K Queue
24.3 Perceptionization of the NM/NM/c/K Queuing Model Using a Non-Linear Programming Technique
Conclusion
References
25 The Rise of AI-Generated News Videos: A Detailed Review
25.1 Introduction
25.2 Web Scraping
25.3 Image Searching
25.4 News Authentication
25.5 Scripting for Video
25.6 Audio Generation
25.7 Mapping Text and Images
25.8 AI-Avatar Generation
25.9 Video Generation
25.10 Thumbnail Creation
25.11 Conclusion
