[Preface](#)

[1 Unmasking Social Media Crimes: Types, Trends, and Impact](#)

[1.1 Introduction](#)

[1.2 Related Work](#)

[1.3 Social Media](#)

[1.4 Types of Social Media Crimes](#)

[1.5 Trends in Social Media Crimes](#)

[1.6 Law Enforcements's Use of Social Media Surveillance](#)

[1.7 Challenges in Social Media Surveillance](#)

[1.8 Impact of Social Media Crimes](#)

[1.9 Conclusion](#)

[References](#)

[2 Study on Vulnerability in Online Social Networking: Impact on an Individual, Community](#)

[2.1 Introduction](#)

[2.2 Statistics of Online Social Media Network](#)

[2.3 Existing Research on Social Media Vulnerabilities](#)

[2.4 Vulnerability](#)

[2.5 Future Trends](#)

[2.6 Conclusion](#)

[Acknowledgement](#)

[References](#)

[3 Application of Google Lens Clone Using Image Recognition in Enterprise Environment](#)

[3.1 Introduction](#)

[3.2 Requirement and Application](#)

[3.3 Strengths and Weaknesses](#)

[3.4 Limitations](#)

[3.5 Approach](#)

[3.6 Design and Implementation](#)

[3.7 Experimental Results and Analysis](#)

[3.8 Conclusion](#)

[References](#)

[4 An Artificial Intelligence Risk Assessment of a Material Handling System Using a Cost-Safety Matrix](#)

[Introduction](#)

[References](#)

[5 Sustainable Futures: Navigating Blockchain's Energy Dilemma](#)

[5.1 Introduction](#)

[5.2 Related Work](#)

[5.3 Understanding Blockchain Technology](#)

[5.4 Energy Dilemma in Blockchain Technology](#)

[5.5 Environmental Implications](#)

[5.6 Sustainable Solutions in Blockchain](#)

[5.7 Scalability and Efficiency Issues in Greener Consensus Mechanisms](#)

[5.8 Blockchain's Role in Sustainable Development Goals \(SDGS\) \[11, 12\]](#)

[5.9 Industry Applications and Best Practices \[7, 8\]](#)

[5.10 Conclusion](#)

[References](#)

[6 Role of Online Social Networking in Smart Healthcare](#)

[6.1 Introduction](#)

[6.2 Evolution of Online Social Network and Smart Healthcare](#)

[6.3 Issues and Challenges Towards Online Social Networking in Smart Healthcare](#)

[6.4 Popular Case Study 1: Online Social Networking in Smart Healthcare](#)

[6.5 Integrating Social Networking into Healthcare Policies for Better and Reliable Services](#)

[6.6 Future Opportunities and Innovation Towards Online Social Networking in Healthcare](#)

[6.7 An Open Discussion on OSN \[18, 19\] for Healthcare with Cutting Edge Technologies for Modern People](#)

[6.8 Conclusion](#)

[References](#)

[7 Application and Future Trends in Online Social Networking for the Next Generation](#)

[7.1 Introduction to Online Social Networking, and Next Generation Society: Fundamentals, and Key Component and Features](#)

[7.2 Current Applications of Online Social Networking](#)

[7.3 Role of Emerging Applications in Making Effective Online Social Networking](#)

[7.4 Next-Generation Social Networking Technologies for Modern Generation](#)

[7.5 Future Research Opportunities Towards Online Social Networking for the Next Generation](#)

[7.6 Open Issues and Challenges in Next-Generation Machine-Based Social Networking](#)

[7.7 User Perspectives and Expectations Today by OSN and Its Effect on Modern Society/Generation](#)

[7.8 Conclusion](#)

[References](#)

[8 Security and Possible Threats in Today's Online Social Networking Platforms](#)

[8.1 Introduction](#)

[8.2 Existing Security Architecture in Social Networking Platforms](#)

[8.3 Common Security Threats on Network and Websites](#)

[8.4 Security and Privacy Issues in Online Social Networking in Today's Smart Era](#)

[8.5 Emerging Threats for Next Generation Based Online Social Networking](#)

[8.6 Security Measures and Tools Available for Protecting Network/OSNs](#)

[8.7 Regulatory Framework and Compliance for Reliable/Safe/Secure OSNs for Next Generation](#)

[8.8 Incident Response and Recovery Towards OSNs](#)

[8.9 Detection and Notification Towards OSNs](#)

[8.10 Conclusion](#)

[References](#)

9 The Future of Artificial Intelligence and Machine Learning in Online Social Networking

9.1 Introduction

9.2 Current Landscape of Online Social Networking

9.3 Open Issues and Challenges Towards AI and ML in Social Networking

9.4 Future Research Opportunities Towards AI and ML in Social Networking

9.5 Applications of AI in Online Social Networking

9.6 Future Research Opportunities Towards AI and ML in Social Networking Using Emerging Technologies

9.7 Conclusion

References

10 Future Opportunities Towards Online Social Networking in the Era of Industry 4.0/5.0

10.1 Introduction

10.2 Evolution of Online Social Networking in Industry 4.0/5.0

10.3 Emerging Opportunities with Emerging Technologies for Social Networking in Industry 4.0/5.0

10.4 Interconnectivity and Integration of Emerging Technology with Industry 4.0/5.0 for Effective Online Social Networking

10.5 Smart Manufacturing and Social Networking Towards Industry 4.0/5.0

10.6 Open Issues and Challenges Towards Industry 4.0/5.0 for Effective Online Social Networking

10.7 Future Research Opportunities Towards Industry 4.0/5.0 for an Effective Online Social

Also of Interest

From the same editors

Quantum Computing in Cybersecurity, Edited by Romil Rawat, Rajesh Kumar Chakrawarti, Sanjaya Kumar Sarangi, Jaideep Patel, and Vivek Bhardwaj, ISBN: 9781394166336. This cutting-edge new volume provides a comprehensive exploration of emerging technologies and trends in quantum computing and how it is used in cybersecurity, covering everything from artificial intelligence to how quantum computing can be used to secure networks and prevent cyber crime.

ROBOTIC PROCESS AUTOMATION, Edited by Romil Rawat, Rajesh Kumar Chakrawarti, Sanjaya Kumar Sarangi, Rahul Choudhary, Anand Singh Gadwal, and Vivek Bhardwaj, ISBN: 9781394166183. Presenting the latest technologies and practices in this ever-changing field, this groundbreaking new volume covers the theoretical challenges and practical solutions for using robotics across a variety of industries, encompassing many disciplines, including mathematics, computer science, electrical engineering, information technology, mechatronics, electronics, bioengineering, and command and software engineering.

AUTONOMOUS VEHICLES VOLUME 1: Using Machine Intelligence, Edited by Romil Rawat, A. Mary Sowjanya, Syed Imran Patel, Varshali Jaiswal, Imran Khan, and Allam Balaram. ISBN: 9781119871958. Addressing the current challenges, approaches and applications relating to autonomous vehicles, this groundbreaking new volume presents the research and techniques in this growing area,

using Internet of Things, Machine Learning, Deep Learning, and Artificial Intelligence.

AUTONOMOUS VEHICLES VOLUME 2: Smart Vehicles for Communication, Edited by Romil Rawat, Purvee Bhardwaj, Upinder Kaur, Shrikant Telang, Mukesh Chouhan, and K. Sakthidasan Sankaran, ISBN: 9781394152254. The companion to *Autonomous Vehicles Volume 1: Using Machine Intelligence*, this second volume in the two-volume set covers intelligent techniques utilized for designing, controlling and managing vehicular systems based on advanced algorithms of computing like machine learning, artificial Intelligence, data analytics, and Internet of Things with prediction approaches to avoid accidental damages, security threats, and theft.

Check out these other related titles from Scrivener Publishing

FACTORIES OF THE FUTURE: Technological Advances in the Manufacturing Industry, Edited by Chandan Deep Singh and Harleen Kaur, ISBN: 9781119864943. The book provides insight into various technologies adopted and to be adopted in the future by industries and measures the impact of these technologies on manufacturing performance and their sustainability.

AI AND IOT-BASED INTELLIGENT AUTOMATION IN ROBOTICS, Edited by Ashutosh Kumar Dubey, Abhishek Kumar, S. Rakesh Kumar, N. Gayathri, Prasenjit Das, ISBN: 9781119711209. The 24 chapters in this book provide a deep overview of robotics and the application of AI and IoT in robotics across several industries such as healthcare, defense, education, etc.

SMART GRIDS FOR SMART CITIES VOLUME 1, Edited by O.V. Gnana Swathika, K. Karthikeyan, and Sanjeevikumar

Padmanaban, ISBN: 9781119872078. Written and edited by a team of experts in the field, this first volume in a two-volume set focuses on an interdisciplinary perspective on the financial, environmental, and other benefits of smart grid technologies and solutions for smart cities.

SMART GRIDS FOR SMART CITIES VOLUME 2: Real-Time Applications in Smart Cities, Edited by O.V. Gnana Swathika, K. Karthikeyan, and Sanjeevikumar Padmanaban, ISBN: 9781394215874. Written and edited by a team of experts in the field, this second volume in a two-volume set focuses on an interdisciplinary perspective on the financial, environmental, and other benefits of smart grid technologies and solutions for smart cities.

SMART GRIDS AND INTERNET OF THINGS, Edited by Sanjeevikumar Padmanaban, Jens Bo Holm-Nielsen, Rajesh Kumar Dhanaraj, Malathy Sathyamoorthy, and Balamurugan Balusamy, ISBN: 9781119812449. Written and edited by a team of international professionals, this groundbreaking new volume covers the latest technologies in automation, tracking, energy distribution and consumption of Internet of Things (IoT) devices with smart grids.

DESIGN AND DEVELOPMENT OF EFFICIENT ENERGY SYSTEMS, edited by Suman Lata Tripathi, Dushyant Kumar Singh, Sanjeevikumar Padmanaban, and P. Raja, ISBN 9781119761631. Covering the concepts and fundamentals of efficient energy systems, this volume, written and edited by a global team of experts, also goes into the practical applications that can be utilized across multiple industries, for both the engineer and the student.

INTELLIGENT RENEWABLE ENERGY SYSTEMS: Integrating Artificial Intelligence Techniques and Optimization Algorithms, edited by Neeraj Priyadarshi, Akash Kumar Bhoi, Sanjeevikumar Padmanaban, S.

Balamurugan, and Jens Bo Holm-Nielsen, ISBN 9781119786276. This collection of papers on artificial intelligence and other methods for improving renewable energy systems, written by industry experts, is a reflection of the state of the art, a must-have for engineers, maintenance personnel, students, and anyone else wanting to stay abreast with current energy systems concepts and technology.

SMART CHARGING SOLUTIONS FOR HYBRID AND ELECTRIC VEHICLES, edited by Sulabh Sachan, Sanjeevikumar Padmanaban, and Sanchari Deb, ISBN 9781119768951. Written and edited by a team of experts in the field, this is the most comprehensive and up to date study of smart charging solutions for hybrid and electric vehicles for engineers, scientists, students, and other professionals.
