Preface

This forty-fourth edition of *The Grants Register* provides a detailed, accurate and comprehensive survey of awards intended for students at or above the postgraduate level, or those who require further professional or advanced vocational training.

Student numbers around the world continue to grow rapidly, and overseas study is now the first choice for many of these students. *The Grants Register* provides comprehensive, up-to-date information about the availability of, and eligibility for, non-refundable postgraduate and professional awards worldwide.

We remain grateful to the institutions which have supplied information for inclusion in this edition, and would also like to thank the International Association of Universities for continued permission to use their subject index within our Subject and Eligibility Guide to Awards.

The Grants Register database is updated continually in order to ensure that the information provided is the most current available. **Therefore, if your details have changed or you would like to be included for the first time, please contact the Senior Editor, at the email address below.** If you wish to obtain further information relating to specific application procedures, please contact the relevant grant-awarding institution, rather than the publisher.

How to Use *The Grants Register*

For ease of use, *The Grants Register 2026* is divided into four sections:

- The Grants Register
- Subject and Eligibility Guide to Awards
- Index of Awards
- Index of Awarding Organisations

The Grants Register

Information in this section is supplied directly by the awarding organisations. Entries are arranged alphabetically by name of organisation, and awards are listed alphabetically within the awarding organisation. This section includes details on subject area, eligibility, purpose, type, numbers offered, frequency, value, length of study, study establishment, country of study, and application procedure. Full contact details appear with each awarding organisation and also appended to individual awards where additional addresses are given.

A

AACR - American Association for Cancer Research

615 Chestnut St., 17th Floor, Philadelphia, PA 19106-4404, United States of America.

Tel: (1) 215 440 9300
Email: aacr@aacr.org
Website: www.aacr.org/

From the simple beginning of a few scientists gathering to share information to the multifaceted organization that exists today, the growth of the AACR reflects the increasing complexity of our understanding of the collection of devastating diseases we now know as cancer.

AACR Cancer Disparities Research Fellowships

Purpose: The Fellowships represent an effort to encourage and support postdoctoral or clinical research fellows to conduct cancer disparities research and to establish a successful career path in this field. The research proposed for funding may be basic, translational, clinical, or epidemiological in nature and must have direct applicability and relevance to cancer disparities.

Eligibility: Applicants must have a doctoral degree (including PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree. At the start of the grant term on August 1, applicants must: 1. Hold a mentored research position with the title of postdoctoral fellow, clinical research fellow, or the equivalent. a. If eligibility is based on a future position, the position must be confirmed at the time of application and CANNOT be contingent upon receiving this grant. b. If the future position is at a different institution than the applicant's current institution, the applicant must contact the AACR's Research and

Grants Administration Department (AACR's RGA) at grants@aacr.org before submitting their application for information on additional verification materials/signatures that may be required. 2. Have completed their most recent doctoral degree within the past five years (i.e., degree cannot have been conferred before August 1, 2019; the formal date of receipt of doctoral degree is the date the degree was conferred as indicated on their diploma and/or transcript). a. Applicants with a medical degree must have completed their most recent doctoral degree or medical residency – whichever date is later – within the past five years. 3. Work under the auspices of a mentor at an academic, medical, or research institution anywhere in the world.

Level of Study: Masters Degree, Postgraduate

Type: Fellowship

Value: US\$130,000

Length of Study: 2 Years

Frequency: Every 2 years (even-numbered years)

Application Procedure: See website: <https://www.aacr.org/professionals/research-funding/>

Closing Date: 16 April

Additional Information: The AACR requires applicants to submit an online application by 1:00 p.m. U.S. Eastern Time on March 23, using the ProposalCentral website at proposalcentral.com/

AACR Clinical Oncology Research (CORE) Training Fellowships

Purpose: The Fellowships Program is designed to provide an effective industry-academic clinical practicum with a unique training opportunity to develop academic clinicians in drug development.

Eligibility: At the start of the grant term, applicants must 1. Have a medical degree (including MD, DO, or MD/PhD) in a related field, and not currently be a candidate for a further doctoral degree. 2. Have enrolled in an accredited

Subject and Eligibility Guide to Awards

Awards can be located through the Subject and Eligibility Guide to Awards. This section allows the user to find an award within a specific subject area. *The Grants Register* uses a list of subjects endorsed by the International Association of Universities (IAU), the information centre on higher education, located at UNESCO, Paris. It is further subdivided into eligibility by nationality. Thereafter, awards are listed alphabetically within their designated category, along with a page reference where full details of the award can be found.

AACR Clinical Oncology Research (CORE) Training Fellowships

Purpose: The Fellowships Program is designed to provide an effective industry-academic clinical practicum with a unique training opportunity to develop academic clinicians in drug development.

Eligibility: At the start of the grant term, applicants must 1. Have a medical degree (including MD, DO, or MD/PhD) in a related field, and not currently be a candidate for a further doctoral degree. 2. Have enrolled in an accredited

hematology/oncology fellowship program at an academic, medical, or research institution within the United States. A. Applicant's enrollment in an accredited hematology/oncology fellowship program cannot be contingent upon receiving this grant. 3. Not be employees or subcontractors of a U.S. government entity or for-profit private industry or be clinical fellows applying from a U.S. government laboratory (e.g., NIH, CDC, FDA, etc.). 4. For the Johnson & Johnson grant only, applicants must be female or belong to one of the following underrepresented groups as per NIH guidelines (Notice of NIH's Interest in Diversity) A. Individuals from racial and ethnic groups that have been shown by the National Science Foundation to be underrepresented in health-related sciences on a national basis B. Individuals with disabilities, who are defined as those with a physical impairment that substantially limits one or more major life activities C. Individuals from disadvantaged backgrounds.

Level of Study: Doctorate

Type: Fellowship

Value: US\$100,000

Length of Study: 12 months

Application Procedure: Program Guidelines and Application Instructions are available here <https://www.aacr.org/professionals/research-funding/>

Closing Date: 29 February

Additional Information: This grant program pertains to the following fellowships: 1. AACR-AstraZeneca Clinical Oncology Research Training Fellowships 2. AACR-Johnson & Johnson Clinical Oncology Research Training Fellowships to Further Diversity, Equity, and Inclusion Website: www.aacr.org/grants/aacr-clinical-oncology-research-core-training-fellowships/

AACR Hematologic Malignancies Research Fellowship

Purpose: The AACR Hematologic Malignancies Research Fellowship represents an effort to encourage and support a postdoctoral or clinical research fellow to conduct basic, translational, clinical, or population sciences research projects focused on hematologic malignancies.

Eligibility: See Website: www.aacr.org/wp-content/uploads/2024/11/2025-Hematologic-Malignancies-Fellowship-PG_Final.pdf

Level of Study: Postgraduate

Type: Scholarship

Value: US\$130,000

Length of Study: two-year

Application Procedure: See Website: <https://www.aacr.org/professionals/research-funding/>

Closing Date: 21 January

For further information contact:

Email: grants@aacr.org

AACR NextGen Grants for Transformative Cancer Research

Purpose: The AACR NextGen Grants for Transformative Cancer Research represent a funding initiative to stimulate highly innovative research from young investigators. This grant mechanism is intended to promote and support creative, paradigm-shifting cancer research that may not be funded through conventional channels. It is expected that these grants will catalyze significant scientific discoveries and help talented young investigators gain scientific independence. The grants provide US\$450,000 over three years for expenses related to the research project, which may include salary and benefits of the grant recipient, postdoctoral or clinical research fellows, graduate students (including tuition costs), and research assistants, research/laboratory supplies, equipment, travel applicable to the research project, publication charges for manuscripts that pertain directly to the funded project, other research expenses, and indirect costs.

Eligibility: Applicants must have a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree. At the start of the grant term applicants must hold a tenure-eligible appointment (or equivalent, if institution does not follow a tenure system) at the rank of assistant professor (appointments such as research assistant professor, adjunct assistant professor, assistant professor research track, visiting professor, or instructor are not eligible; applicants that have progressed to associate professor appointments are also not eligible.); have held a tenure-eligible assistant professor appointment for less than three years (appointed on or after Nov. 1, 2020); and work at an academic, medical, or research institution anywhere in the world. If eligibility is based on a future position, the position must be confirmed at the time of submission, and CANNOT be contingent upon receiving this grant.

Level of Study: Masters

Type: Fellowship

Value: US\$450,000

Length of Study: 3 years

Frequency: Annual

Country of Study: United States of America

Application Procedure: The AACR requires applicants to complete an online Letter of Intent submission website at proposalcentral.com. Program Guidelines and Competitive Letter of Intent Instructions are available for download.

Closing Date: 11 January

Additional Information: proposalcentral.com/

For further information contact:**Email:** grants@aacr.org**AACR-Bayer Stimulating Therapeutic Advances through Research Training (START) Grants**

Purpose: Dramatic advances made in recent years towards precision medicine initiatives, biomarker and novel target identification, and high-throughput examination of genomic data, have resulted in a trove of valuable data that can inform the development of new therapeutics to combat cancer. However, to effectively harness this wealth of information and advance the discovery and development of new therapies for cancer patients, enhanced collaboration between academia and industry will be needed. These Grants represent an exciting and novel initiative to encourage and support such collaboration. These grants, which will provide support to postdoctoral or clinical research fellows, combines research experiences in both an academic and industry setting, following a research timeline that will be of greatest benefit to the proposed work. The training provided through this grants program will be invaluable to young investigators, by allowing fellows to attain a comprehensive research experience that will make them highly desirable to potential employers in either academic research or the pharmaceutical industry. Likewise, academic research centers and industry will benefit from the introduction of such dual-trained individuals into the field. Each fellowship provides a three-year grant of US\$225,000 to support the salary and benefits of the fellow while working on a mentored cancer research project. Proposals focused on clinical research are highly encouraged. Applicants must plan to spend one year on site at a Bayer facility. One of a number of Bayer's locations are possible, at the discretion of Bayer. The year at Bayer will be determined on a case-by-case basis, and will be at a time agreed upon by the fellow, the academic supervisor, the Bayer mentor, and Bayer.

Eligibility: Applicants must have a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree. Applicants must hold a full-time, mentored research position with the title of postdoctoral fellow, clinical research fellow, or the equivalent; have completed their most recent doctoral degree within the past five years (i.e., degree cannot have been conferred before October 1, 2020; the formal date of receipt of doctoral degree is the date the degree was conferred, as indicated on their diploma and/or transcript); and work under the auspices of a mentor at an academic, medical, or research institution in the United States of America. Applicants with a medical degree must have completed their most recent doctoral degree or medical residency - whichever date is later - within the past five years.

Type: Fellowship**Value:** US\$225,000**Length of Study:** 3 years**Frequency:** Annual**Country of Study:** United States of America**Application Procedure:** See additional information below.**Closing Date:** 30 June**Additional Information:** Website: www.aacr.org/grants/aacr-bayer-start-grants/**AACR-Debbie's Dream Foundation Career Development Award for Gastric Cancer Research**

Eligibility: Applicants must have a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree.

AACR-KidneyCAN Kidney Cancer Innovation and Discovery Grants

Purpose: The inaugural AACR-KidneyCAN Kidney Cancer Innovation and Discovery Grants is a new grant mechanism that seeks to stimulate creative approaches to translate basic research into new treatment options for kidney cancer

Eligibility: See website: www.aacr.org/wp-content/uploads/2024/02/2024-AACR-KidneyCAN-IND-PGs-1.pdf

Level of Study: Postgraduate

Type: Scholarship

Value: US\$50,000

Closing Date: 11 April

For further information contact:

Email: grants@aacr.org

AACR-Novocure Tumor Treating Fields Research Grants

Purpose: The research proposed for funding should be basic or translational in nature, promoting the transition of in vitro work into in vivo systems. Proposals focused on 1) translational approaches, promoting the transition of in vitro work into in vivo systems, 2) combination therapies involving TTFields, or 3) bringing treatments involving TTFields to the clinic, are strongly encouraged.

Eligibility: Applicants must have a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree. Applications are invited from researchers affiliated with departments of institutions that do not hold an active AACR-Novocure grant. Institutions may submit multiple applications for the AACR-Novocure Career Development Awards for Tumor Treating Fields Research and the AACR-Novocure Tumor Treating Fields Research Grants for multiple applicants. However, no more than one applicant will be awarded from the same department of an institution. Investigators may submit only one application for the AACR-Novocure Tumor Treating Fields Research Grants but may concurrently apply for other AACR grants. However, applicants are expected to accept the first grant they are awarded. Individuals may accept and hold only one AACR grant at a time. Employees or subcontractors of a U.S. government entity or for-profit private industry are not eligible. Employees or subcontractors of a U.S. government entity or for-profit private industry may serve as Collaborators, but no grant funds may be directed towards these individuals. Any individual who currently holds an active AACR grant may not apply. Past AACR grantees may apply if they complied with all progress and financial report requirements. Postdoctoral or clinical

research fellows or the equivalent who are working under the auspices of a scientific mentor are not eligible to apply. Qualified fellows are invited to apply for an AACR Fellowship. Members of the Scientific Review Committee are not eligible to apply for this Grant.

Level of Study: Doctorate

Type: Grant

Value: US\$250,000

Length of Study: two years

Country of Study: Any country

Application Procedure: The AACR requires applicants to submit an online application, using the ProposalCentral website at proposalccentral.com.

Closing Date: 1 July

AACR-Sontag Foundation Brain Cancer Research Fellowship

Purpose: This Fellowship represents a joint effort to encourage and support a postdoctoral or clinical research fellow to conduct brain cancer research and to establish a successful career path in this field.

Eligibility: Applicants must have a doctoral degree (including PhD, MD, MD/PhD, or equivalent) in a related

field and not currently be a candidate for a further doctoral degree. At the start of the grant term, applicants must: Hold a mentored research position with the title of postdoctoral fellow, clinical research fellow, or the equivalent. If eligibility is based on a future position, the position must be confirmed at the time of submission and CANNOT be contingent upon receiving this grant. If the future position is at a different institution than the applicant's current institution, the applicant must contact AACR's Research and Grants Administration Department (AACR's RGA) at grants@aacr.org before submitting their Letter of Intent for information on additional verification materials/signatures that may be required. Have completed their most recent doctoral degree within the past five years (i.e., degree cannot have been conferred before August 1, 2020; the formal date of receipt of doctoral degree is the date the degree was conferred as indicated on your diploma and/or transcript). Applicants with a medical degree must have completed their most recent doctoral degree or medical residency - whichever date is later - within the past five years. Work under the auspices of a mentor at an academic, medical, or research institution anywhere in the world.

Level of Study: Postdoctorate

Value: US\$120,000

Length of Study: 2 Years

Application Procedure: See additional information below

Closing Date: 1 May

Email: grants@aacr.org

Breast Cancer Research Foundation-AACR Career Development Awards to Promote Diversity and Inclusion

Purpose: The Breast Cancer Research Foundation-AACR Career Development Awards to Promote Diversity and Inclusion represent a focused effort to encourage and support investigators from diverse backgrounds that are underrepresented in cancer research and to foster their career advancement. This grants program also intends to build a more diverse and inclusive future for breast cancer research. Eligibility is limited to members of racial or ethnic groups that have been shown to be traditionally excluded in the cancer related sciences workforce. Selection is competitive and will be based on outstanding accomplishments both in scientific research and in promoting diversity, equity, and inclusion within the cancer research community.

Eligibility: 1. Hold a faculty position with the title of assistant professor, instructor, research assistant professor, or the

equivalent. A. If eligibility is based on a future position, the position must be confirmed at the time of application, and CANNOT be contingent upon receiving this grant. B. If the future position is at a different institution than the applicant's current institution, the applicant must contact the AACR's Research and Grants Administration Department (the AACR's RGA) at grants@aacr.org before submitting their application for information on additional verification materials/signatures that may be required. 2. Have independent laboratory space as confirmed by their institution. 3. Work at an academic, medical, or research institution anywhere in the world. 4. Belong to racial or ethnic group(s) that has (have) been shown to be traditionally excluded in the cancer related sciences workforce. A. For U.S. applicants, these groups include Blacks or African Americans, Hispanics or Latinos, American Indians or Alaska Natives, Native Hawaiians and other Pacific Islanders. It is recognized that for both U.S. and international applicants, the traditionally excluded group can vary from setting to setting and individuals from racial or ethnic groups not listed above may also be eligible to apply for this program. Please contact grants@aacr.org for information on additional verification materials/signatures that may be required.

Level of Study: Research

Type: Grant

Value: US\$150,000

Length of Study: 2 Years

Frequency: Annual

Application Procedure: Please read all Program Guidelines and Application Instructions before submitting an application https://www.aacr.org/wp-content/uploads/2024/09/2025-BCRF-CDA-LOI-Pogram-Guidelines_FINAL_updated-9.25.2024.pdf.

Closing Date: 9 January

Additional Information: Additional details regarding this grant can be found in the Program Guidelines and Application Instructions. Final determinations of eligibility will not be completed until the AACR is in receipt of the submitted application. Website: www.aacr.org/grants/breast-cancer-research-foundation-aacr-career-development-awards-to-promote-diversity-and-inclusion/

Lustgarten Foundation-AACR Career Development Award for Pancreatic Cancer Research, in Honor of John Robert Lewis

Purpose: This award represents a joint effort to encourage and support early career scientists engaged in pancreatic cancer research relevant to the goals and mission of the Lustgarten Foundation.

Eligibility: Applicants must be investigators with a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field

and not currently a candidate for a further doctoral degree. See website for further details.

Level of Study: Research

Type: Grant

Value: US\$300,000

Length of Study: 3 Years

Country of Study: Any country

Application Procedure: Program Guidelines and Competitive Letter of Intent Application Instructions https://www.aacr.org/wp-content/uploads/2024/08/2025-Lustgarten-JL-CDA-LOI_PG.pdf are available for download. Please read all guidelines and instructions carefully before submitting an application.

Closing Date: 8 January

Funding: Foundation

Contributor: Lustgarten Foundation

Additional Information: Additional details regarding this grant can be found in the Program Guidelines and Competitive Letter of Intent Application Instructions: https://www.aacr.org/wp-content/uploads/2024/08/2025-Lustgarten-JL-CDA-LOI_PG.pdf. Final determinations of eligibility will not be completed until the AACR is in receipt of the submitted Competitive Letter of Intent. Lustgarten Foundation-AACR Career Development Award for Pancreatic Cancer Research, in Honor of Ruth Bader Ginsburg

Purpose: This Award represents a joint effort to support the career advancement of a female scientist engaged in pancreatic cancer research relevant to the goals and mission of the Lustgarten Foundation. The proposed project may be basic, translational, clinical, or epidemiological in nature and must have direct applicability and relevance to the understanding, detection, diagnosis, or treatment of pancreatic cancer.

Eligibility: Applicants must be female investigators with a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree

Level of Study: Doctorate

Type: Award

Value: US\$300,000

Length of Study: 3 Years

Application Procedure: Program Guidelines and Competitive Letter of Intent Application Instructions <https://www.aacr.org/professionals/research-funding/lustgarten-foundation-aacr-career-development-awards-for-pancreatic-cancer-research/> are available for download. Please read all guidelines and instructions carefully before submitting an application.

Closing Date: 8 January

Additional Information: Website: Additional details regarding this grant can be found in the Program Guidelines and Competitive Letter of Intent Application Instructions. Final determinations of eligibility will not be completed until the AACR is in receipt of the submitted Competitive Letter of Intent. www.aacr.org/grants/lustgarten-foundation-aacr-career-development-award-for-pancreatic-cancer-research-in-honor-of-ruth-bader-ginsburg/

The Bosarge Family Foundation-Waun Ki Hong Scholar Award for Regenerative Cancer Medicine

Purpose: The Bosarge Family Foundation-Waun Ki Hong Scholar Award for Regenerative Cancer Medicine represents a joint effort to encourage and support postdoctoral or clinical research fellows to conduct highly novel and provocative research in the field of regenerative cancer medicine and to establish a successful career path in this field. The research proposed for funding may be translational, clinical, or epidemiological in nature and must have direct applicability and relevance to enhancing the physiology or function of cancer survivors using regenerative medicine techniques.

Eligibility: Applicants must have a doctoral degree (including PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree.

Level of Study: Postdoctorate

Value: US\$120,000

Length of Study: 2 Years

Country of Study: Any country

Application Procedure: The AACR requires applicants to submit an online application, using the ProposalCentral website at proposalcentral.com. Program Guidelines and Application Instructions are available for download. Please read all guidelines and instructions carefully before submitting an application.

Closing Date: 7 February

Funding: Foundation

Abell Foundation

Suite 2300, 111 S. Calvert Street, Baltimore, MD 21202-6174, United States of America.

Tel: (1) 410 547 1300
Website: www.abell.org/

The Abell Foundation, formerly known as The A.S. Abell Company Foundation, was established by Harry C. Black, philanthropist and then chairman of the board of the A.S. Abell Company, the former publisher of The Baltimore Sun. The Foundation has acted as an agent of change by supporting innovative, results-oriented efforts to ameliorate the systemic social, economic, and environmental challenges encountered by those living in concentrated poverty. With a unique focus on Baltimore City, Abell provides grant

funding to enterprising non-profits as well as research to better inform civic conversation. It also invests in new businesses and technologies that have the potential to benefit society and build Baltimore's workforce. Since its establishment, the Abell Foundation has contributed more than US\$339,000,000 to the community.

Abell Foundation - For Small Grant Requests

Purpose: The Abell Foundation is dedicated to the enhancement of the quality of life in Maryland, with a focus on Baltimore City. The Foundation is committed to improving the lives of the population by supporting innovative, results-oriented efforts to solve systemic social, economic, and environmental problems.

Eligibility: Check Website

Type: Grant

Value: up to US\$10,000 or less

Application Procedure: 1. We accept and review grant requests of US\$10,000 or less on a rolling basis. There is no deadline to apply. 2. Once we have received your proposal, an Abell staff member may contact you with follow-up questions and/or request a site visit. 3. You can expect to be notified of a decision within 60 days of submitting your small grant request. 4. Please note that we receive many worthy grant requests and unfortunately cannot fund all of them. Organizations are welcome to submit multiple proposals if they are each for different projects during the same calendar year, but the Foundation has a policy of not reviewing repeat proposals for the same project within a calendar year.

Additional Information: Website: abell.org/grants/small-grants-process/

Abell Foundation - Grant Requests Greater than US\$10,000

Purpose: The Abell Foundation is dedicated to the enhancement of the quality of life in Maryland, with a focus on Baltimore City. The Foundation is committed to improving the lives of the population by supporting innovative, results-oriented efforts to solve systemic social, economic, and environmental problems.

Eligibility: Check Website

Level of Study: Masters/PhD Degree

Type: Grant

Value: US\$10,000

Frequency: Annual

Application Procedure: 1. We accept and review grant requests greater than US\$10,000 on the schedule outlined above. 2. Once we have received your proposal, an Abell

staff member may contact you with follow-up questions and/or request a site visit. 3. We notify applicants of all decisions made by the Board of Trustees within one week of each Board meeting. 4. Please note that we receive many worthy grant requests and unfortunately cannot support all of them. Organizations are welcome to submit multiple proposals if they are each for different projects during the same calendar year, but the Foundation has a policy of not reviewing repeat proposals for the same project within a calendar year.

Closing Date: 1 October

Abraham Lincoln High School

2800 Ocean Pkwy, Brooklyn, NY 11235, United States of America.

Tel: (1) 718 333 7400

Website: www.alhs.nyc/

For nearly a century Abraham Lincoln High School has been a leader in New York City education. Lincoln alumni have distinguished themselves in every imaginable field, including music, sports, and science. Among our notable graduates is music legend Neil Diamond, who generously funds a college scholarship for ten graduating seniors every year. Other distinguished alumni include countless.

Abraham Lincoln High School Alumni Association

Purpose: The purpose of the ALHS Alumni Association Scholarship Program is to make available scholarships to Lincoln High School students who are graduating and going onto college or continuing education

Eligibility: 1. ALHS Alumni will award scholarships. 2. ALHS graduating seniors seeking to further his/her education by obtaining a higher degree such as AA, BA, BS, or Certificated from a Trade, Vocational School or Military Academy. 3. Applications shall be completed by the applicant together with the official transcript, recommendation(s) by faculty/staff member(s), school activities records and a personal statement by the applicant of his/her goals. 4. Applicants will be evaluated and judged on the following factors. a. Their scholastic record. b. Their activity and other evidence of leadership and character. c. Recommendations of faculty and/or staff. d. A personal statement by applicant of his/her goals must be attached together with official transcripts, school activities records and personal statement by the applicant. 5. Results of the competition will be announced in April. Judging will be done by the ALHS Alumni Association Scholarship Committee. The committee looks forward to honoring the recipients in person at the Annual Wall of Fame/Scholarship Dinner. If the recipient is unable to attend the Scholarship Dinner a family member should attend to accept the scholarship on their behalf

Academy of Marketing Science Foundation

Academy of Marketing Science, c/o Louisiana Tech University, P.O. Box 3072, Ruston, LA 71272, United States of America.

Tel: (1) 318 257 2612
Email: ams@latech.edu
Website: www.ams-web.org

The Academy of Marketing Science established the Academy of Marketing Science Foundation to provide awards to marketing students, primarily at the graduate level. It is also the intention of the Foundation to provide awards for both the advancement of the teaching of marketing and for research in marketing.

Mary Kay Doctoral Dissertation Award

Purpose: Sponsored by Mary Kay, Inc. and the Academy of Marketing Science, doctoral candidates in marketing who have completed their dissertation during January 1–December 31 of the calendar year prior to the AMS Annual Conference to which they wish to submit are eligible for the AMS Mary Kay Doctoral Dissertation Award. A completed dissertation is defined as one successfully defended during the calendar year prior to the year in which the AMS Annual Conference of submission takes place.

Eligibility: To be eligible for the The AMS Mary Kay Doctoral Dissertation Proposal Award, candidates must meet the following criteria 1. Candidates must have successfully defended their dissertation proposal between January 1 and December 31 of the previous calendar year leading up to the AMS Annual Conference. 2. Submissions covering any marketing-related topic, methodology and research interest are welcome. 3. Doctoral students from programs at any recognized university, college of higher learning, business school or management school worldwide are eligible for the AMS Mary Kay Doctoral Dissertation or Proposal Competition. 4. Finalists must attend and register for the AMS Annual Conference in order to be considered as the winner or a runner-up for either award. 5. Candidates may not be considered for both the proposal and dissertation awards during the same year. If a candidate successfully defends both the proposal and the final dissertation in the same year, then he or she will only be considered for the Mary Kay Doctoral Dissertation Award.

Level of Study: Doctorate
Type: Award

Value: the winner will receive US\$600 and a one-year membership in the Academy of Marketing Science. Two runners up will receive US\$500 each.

Frequency: Annual

Application Procedure: To be considered, please submit an electronic version of a dissertation abstract that is no longer than 15 double-spaced pages (including appendices, tables, figures, and references).

Email: info@acmedsci.ac.uk
Website: www.acmedsci.ac.uk

Our mission is to help create an open and progressive research sector to improve the health of people everywhere.

Academy of Medical Sciences Professorship Scheme

Purpose: These awards will offer flexible support to biomedical and healthcare researchers, who have moved to the UK, during the initial years of a full Professorship.

Eligibility: You will have recently commenced, accepted, or have been guaranteed, a full Professorship post at a Higher Education Institution (HEI) in the UK, and will have completed a move (or be planning to move) from overseas to the UK. While this does not have to be your first full Professorship, this scheme is intended to support researchers in the early-leadership career stage and the Panel will take this into account in their assessment of applications. Applicants would not typically have resided in the UK for more than a total of twelve months in the recent period prior to having accepted their professorial appointment. It is our expectation that applicants who have already commenced their Professorship will typically have done so within the previous three years, though the Panel will be asked to take all factors into account in the assessment of the proposal. It is a strict requirement of the scheme that the HEI will need to be providing you with an open-ended contract and evidence that you will be offered a supportive environment. You should be a researcher in the

field of biomedical sciences or healthcare. If you are interested in making an application to the scheme but do not fully adhere to these criteria, or wish to discuss your suitability for the scheme, we are happy to discuss your situation further. Please contact the Office at amsprofessorships@acmedsci.ac.uk. Provided that they still meet all eligibility criteria, unsuccessful candidates may reapply in one subsequent round, but should seek advice from the Office before doing so.

Value: £500K

For further information contact:

Email: amsprofessorships@acmedsci.ac.uk

Clinician Scientist Fellowships

Purpose: These fellowships provide five years' salary and consumables to enable talented clinicians to pursue academic research alongside their clinical practice in order to make long-term improvements in healthcare.

Eligibility: We look for outstanding professionals with the potential to be the best in their field and who are driven to improve practice through advances in clinical research. Applicants must be: 1. Committed to patient-orientated clinical research and able to provide clear evidence that their research will directly benefit patients. 2. Medically qualified, with a PhD or MD in a basic science or clinical/health related subject. 3. Either approaching the end of their training or having recently been awarded consultant status. 4. Able to provide evidence of their clinical research skills. 5. Able to provide evidence of the ability to communicate and disseminate the results of their work. 6. Able to influence and inspire others and drive through changes in clinical practice. 7. Working in an environment that would support their professional development. The programme supports clinicians working in any medical discipline, whose research has a translational focus. We particularly welcome applications from professionals working in the fields of anaesthesia, paediatric disciplines, pathology, psychiatry, radiology and surgery.

Level of Study: Postgraduate

Type: Fellowship

Value: An allowance for research expenses.

Length of Study: Five years

For further information contact:

Email: csf@acmedsci.ac.uk

Cross-Sector Experience Awards

Purpose: These awards provide up to £100,000 to support individuals who want to work in a different sector between three and twelve months.

Eligibility: See website: acmedsci.ac.uk/cross-sector-experience-awards

Level of Study: Postgraduate

Type: Award

Value: £100,000

Length of Study: three and twelve months.

Additional Information: acmedsci.ac.uk/cross-sector-experience-awards

For further information contact:

Email: cross-sectorawards@acmedsci.ac.uk

Daniel Turnberg Travel Fellowships

Purpose: The Fellowships give early-career biomedical and medical researchers the chance to meet leading researchers in their field, further their research experience and learn new techniques. This scheme aims to build research links and develop ideas for longer-term collaborations between the UK and the Middle East.

Eligibility: This fellowship provides an opportunity for biomedical researchers from the Middle East to visit a research institution of their choice in the UK, and for those from the UK to visit a research institution of their choice in the Middle East. They are open to medical and biomedical graduates who can show a commitment to a career in research. Applicants will typically, but not necessarily, be at post-doctoral level. Your research may be in any field within biomedical research, but the funding may only be used to support studies that are relevant to human health. Your proposal must be a discrete research project, it cannot be used as additional funding for another project or help pay for conference or PhD travel. While there can be a training element to the project it must not be wholly training. The countries included in the scheme are the UK, Israel, Egypt, Jordan, Lebanon and the Palestinian Territories. Applicants must either be based in the UK and plan to work in one of the other countries, or intend to come to a UK institution from one of the other countries.

Level of Study: Research

Type: Fellowship

Value: Funding is provided to an upper limit of £4,000 per fellowship (up to £750 of which can be used to cover the cost of airfares)

Length of Study: Four weeks or three months

Frequency: Annual

Country of Study: United Kingdom

Application Procedure: Applications will need to be submitted online using the Academy's electronic Grants and Awards management system Flexi-Grant®. Please download the guidance notes from the web page to assist you in your application. If you have any queries after referring to the guidance notes. For further details, contact turnberg.fellowships@acmedsci.ac.uk

Closing Date: 21 February

Global Challenges Research Fund Networking Grants

Purpose: These grants provide opportunities for researchers, drawn from a wide spectrum of disciplines and backgrounds. It helps to develop new collaborations and improve interactions between United Kingdom researchers and those in developing countries.

Eligibility: The GCRF Networking Grants will be delivered as part of the Joint Academies Resilient Futures programme. Your application will be reviewed by Fellows across all of the partnership Academies and experts from developing or Low and Middle Income Countries (LMICs), and you will not need to attend an interview.

Level of Study: Research

Type: Grant

Value: Awards provide up to £25,000 over a year

Frequency: Annual

Country of Study: Any country

Application Procedure: Applications are invited from researchers affiliated to institutions in DAC-listed countries in collaboration with researchers within eligible United Kingdom higher education institutions (HEIs). You will need to apply for the programme using the Academy's online grant management system Flexi-Grant. Grants cannot be used to pay for salary costs or to employ research assistants, PhD students or postdoctoral staff

Contact: Ms Theresa Starratt, Graduate Studies Officer-Research and Graduate Studies

Acadia University is an institution that is committed to providing a liberal education based on the highest standards. The University houses a scholarly community that aims to ensure a broadening life experience for students, faculty and staff.

Acadia Graduate Scholarship / Acadia Graduate Teaching Assistantships

Purpose: To financially support students.

Eligibility: Open to registered full-time graduate students at Acadia University. In order to be eligible for an award, students must have a GPA of not less than 3.0 in their major field in each of their last 2 years of undergraduate study.

Level of Study: Postgraduate

Type: Award

Value: Value can vary

Length of Study: 1–2 years

Frequency: Annual

Study Establishment: The Division of Research and Graduate Studies at Acadia University

Country of Study: Canada

Application Procedure: Applicants must write for details. In almost all cases, to be automatically considered for funding, applicants need to apply by 1 February of each year

Funding: Private

Additional Information: Recipients of an Acadia Graduate Teaching Assistantship should expect to undertake certain duties during the academic year (up to 10 hours per week and a maximum of 120 hours per semester) as a condition of tenure gradstudies.acadiau.ca/tl_files/sites/gradstudies/docs/University%20Support.pdf

Type: Project grant

Value: up to £200,000

Length of Study: up to 36 months duration

Frequency: Dependent on funds available

Application Procedure: Research should be both innovative and of a high standard as judged by rigorous peer review. Applications should: 1. Address a significant, unmet need for babies (including unborn babies) or children and/or young people (CYP) in the UK 2. Explain how clinical impact could be achieved within the short to medium term 3. Have a strong scientific rationale 4. Describe a discrete medical research project 5. Start after December 2025 6. Smaller applications to help researchers develop original and innovative ideas are also welcome. Applications may include pilot studies that will generate data enabling larger scale applications to funding bodies or practical application.

No. of awards offered: Up to 10 awards

Closing Date: 11 February

Funding: Individuals, Private, Trusts

No. of awards given last year: 42

Agency for Science, Technology and Research (A*STAR)

1 Fusionopolis Way, 20-10 Connexis North Tower, 138632, Singapore.

Tel: (65) 6826 6111

Email: contact@a-star.edu.sg

Website: www.a-star.edu.sg/

The Agency for Science, Technology and Research (A*STAR) drives mission-oriented research that advances scientific discovery and technological innovation. We play a key role in nurturing and developing talent and leaders for our Research Institutes, the wider research community, and industry.

A*Star Graduate Scholarship

Purpose: A fully funded overseas post-doctoral programme, the AGS Post-Doctoral Fellowship is opened only to A*STAR Graduate Scholarship (AGS) awardees. With this fellowship, scholars may conduct post-doctoral research at a leading overseas laboratory of their choice for up to two years.

Eligibility: 1. Singaporeans and other nationals are welcome to apply 2. Non-Singaporeans must have completed a degree in a Singapore autonomous university 3. Satisfy criteria for and seek admission to PhD or EngD programme in an autonomous university 4. Have obtained at least a 2nd Upper Class Honours Degree or equivalent in relevant disciplines 5. Have strong interest in a research career The eligibility criteria are not exhaustive. A*STAR may include additional selection criteria based on prevailing scholarship policies.

Level of Study: Postgraduate

Type: Scholarship

Value: Full tuition fees; Monthly sustenance allowance, inclusive of CPF contribution (where applicable)

Length of Study: 12 months

Frequency: Every 2 years

Country of Study: Any country

Application Procedure: As AGS awardees are required to serve in an A*STAR Research Institute after their post-doctoral training, AGS applicants should identify the relevant Research Institute in which they will work during their service commitment period, and engage the Research Institute Executive Director and prospective supervisor prior to their AGS application.

Closing Date: 1 February

Funding: Private

Additional Information: [www.a-star.edu.sg/Scholarships/for-post-doctoral-studies/a-star-graduate-scholarship-\(post-doc\)](http://www.a-star.edu.sg/Scholarships/for-post-doctoral-studies/a-star-graduate-scholarship-(post-doc))

A*STAR International Fellowship

Purpose: The A*STAR International Fellowship (AIF) is a scholarship that will fund your post-doctoral training at leading research institutions or universities overseas, providing you with opportunities to expand your research experience and deepen your knowledge in your chosen field.

Eligibility: 1. Be Singaporeans or Singapore Permanent Residents (SPR). Foreigners who are non-SPRs and with outstanding track records may be considered on an exceptional basis. Non-Singaporeans are required to have obtained Singapore citizenship prior to the commencement of the fellowship. 2. Have completed a PhD within the last 4 years 3. Possess excellent publication records 4. Not have existing bonds to any institution 5. Have applied or be applying for a relevant post-doctoral position at a top overseas university/laboratory

Level of Study: Postdoctorate

Type: Fellowship

Value: Varies

Length of Study: 2 years

Application Procedure: See website: www.a-star.edu.sg/Scholarships/for-post-doctoral-studies/a-star-international-fellowship

Closing Date: 1 April

Additional Information: www.a-star.edu.sg/Scholarships/for-post-doctoral-studies/a-star-international-fellowship

For further information contact:

Email: student_services@hq.a-star.edu.sg

A*STAR Research Attachment Programme (ARAP)

Purpose: The A*STAR Research Attachment Programme (ARAP) facilitates collaboration between A*STAR and overseas universities to provide research opportunities for PhD students at A*STAR Research Institutes.

Eligibility: International PhD students with a bachelor's degree with at least a Second-Class (Upper) Honours or equivalent may be nominated for this programme if their home university supervisor has a collaboration with an A*STAR researcher.

Level of Study: Postgraduate

Type: Research grant

Value: 1. Monthly stipend of S\$3,200 2. One-time airfare grant of S\$1,500 3. One-time settling-in allowance of S\$1,000 4. Housing allowance 5. Medical insurance 6. Conference allowance 7. IT allowance

Frequency: Annual

Application Procedure: see website: www.a-star.edu.sg/Scholarships/for-graduate-studies/a-star-research-attachment-programme

Closing Date: 30 November

Additional Information: www.a-star.edu.sg/Scholarships/for-graduate-studies/a-star-research-attachment-programme

Email: singa_enquiries@hq.a-star.edu.sg

National Science Scholarship (MASTERS)

Purpose: The National Science Scholarship (Masters) aims to develop and deepen your research skills, providing you the requisite foundation and head start towards a career in research.

Eligibility: 1. Be Singaporeans 2. Have obtained, or are on track to obtain, at least a 2nd Upper Class Honours Degree or equivalent in relevant disciplines 3. Applicants who are in the last semester of their final year of undergraduate studies are welcome to apply; however, successful candidates will only be awarded the scholarship if they obtain at least a 2nd Upper Class Honours Degree or equivalent 4. Have applied or will be applying for a Master of Research (or equivalent) programme in selected research areas at a top overseas global university 5. Have strong interest in a research career

Level of Study: Masters Degree

Type: Scholarship

Value: 1. Full tuition fees 2. Monthly overseas living allowance 3. Annual return airfare 4. Other allowances including a. Conference allowance b. Thesis allowance c. Computer allowance d. Settling-In allowance

Length of Study: 2 years

Application Procedure: See Website: www.a-star.edu.sg/Scholarships/for-graduate-studies/national-science-scholarship-masters

Closing Date: 1 April

Additional Information: www.a-star.edu.sg/Scholarships/for-graduate-studies/national-science-scholarship-masters

For further information contact:

Email: student_services@hq.a-star.edu.sg

National Science Scholarship (PHD)

Purpose: The National Science Scholarship (PhD) is awarded to outstanding individuals who wish to pursue a rewarding career in research. Successful applicants will be funded for up to five years of your academic pursuit, which will commence after you have completed a one year of paid research attachment at an A*STAR Research Institute.

Eligibility: 1. Be Singaporeans and other nationals intending to take up Singapore citizenship. Non-Singaporeans are required to have obtained minimally Singapore Permanent Residence prior to the commencement of the studies. 2. Have strong interest in a research career 3. Have attained a good class of honours degree or equivalent in relevant disciplines 4. Applicants who are in the last semester of their final year of undergraduate studies are welcome to apply; however, successful candidates will only be awarded the scholarship if they obtain a Bachelor's Degree or equivalent results that meet A*STAR's requirements 5. Have applied or be applying for a PhD programme at a top global university

Level of Study: Postgraduate

Type: Scholarship

Value: 1. Full tuition fees 2. Monthly sustenance allowance, inclusive of CPF contribution (where applicable) 3. Monthly overseas living allowance 4. Annual return airfare 5. Other allowances including

Length of Study: five years

Application Procedure: See website: www.a-star.edu.sg/Scholarships/for-graduate-studies/national-science-scholarship-phd

Closing Date: 1 April

Additional Information: www.a-star.edu.sg/Scholarships/for-graduate-studies/national-science-scholarship-phd

Singapore International Graduate Award (SINGA)

Purpose: The Singapore International Graduate Award (SINGA) is a collaboration between the Agency for Science, Technology & Research (A*STAR), the Nanyang Technological University (NTU) and the National University of Singapore (NUS). PhD training will be carried out in English at chosen lab at A*STAR Research Institutes, NTU or NUS.

Eligibility: 1. Open for application to all international graduates with a passion for research and excellent academic

results Note SINGA is intended primarily for international students studying for the first time in Singapore. Singaporeans, Singapore Permanent Residents and International students studying/who have studied in Singapore tertiary institutions are not eligible. 2. Good skills in written and spoken English 3. Good reports from academic referees.

Type: Award

Value: 1. Tuition fees 2. Monthly stipend of S\$2,700 which will be increased to S\$3,200 after the passing of the Qualifying Examination 3. One-time airfare grant of up to S\$1,500 4. One-time settling-in allowance of S\$1,000

Length of Study: up to 4 years

Country of Study: Singapore

Application Procedure: 1. Browse PhD Research Projects Go to Research Areas to browse the projects you are interested in. 2. Documents Required to be prepared in advance before applying. Note Do NOT mail any hard copy documents to SINGA Office. All necessary documents are to be submitted online. a. Valid Passport b. A recent passport-sized photo (in .jpeg or .png format) 3. Transcripts & reports ALL transcripts need to be in English translation

Closing Date: 1 June
