

S. Fred Singer

NIPCC vs. IPCC

Addressing the Disparity between Climate Models and Observations:
Testing the Hypothesis of Anthropogenic Global Warming

Interim Science Update
Presented at Majorana Conference in Erice, Sicily
August 2011

This publication has been published with the kind support of the
European Climate and Energy Institute.

Contents

Introduction	4
1 – The Controversy about Attribution – Cause of Climate Change	5
2 – Overcoming Chaotic Uncertainty of Climate Models	10
3 – Hockeystick, Climategate, and 20 th -Century Climate Changes	12
Land Data Problems	16
Solar “Paradox”	16
Ocean Data	19
Proxy Data	21
Solar Activity: A Major Cause of Decadal-Scale Climate Change	25
A Historical Note	26
Conclusions	27
Key References	28
About the Author	28
