Introduction

You've decided to take the General Education Development (GED) test to earn the equivalent of a high school diploma. Congratulations! You're about to clear a major hurdle standing between you and your educational and professional goals. But now you realize that you need extra guidance to tackle the GED Social Studies test. Perhaps you took the test once or even twice and didn't do so well. Perhaps you've done an honest self-assessment and now realize that social studies was never your favorite or best subject. Whatever the reason, you need to quickly review the essentials and practice answering questions like those you'll encounter on the test. You want to know what to expect so you're not blindsided on test day.

Welcome to *GED Social Studies Test For Dummies* — your key to excelling on the GED Social Studies test. Here, you find everything you need to do well on the test, from guidance on how to improve reading speed and comprehension to whirlwind tours of civics, government, history, economics, and geography that get you up to speed on the basics. You also find out how to write a top-notch essay for the Extended Response portion of the test. Along the way, you get plenty of practice questions to cement your knowledge and skills.

About This Book

As we were writing *GED Test For Dummies*, 3rd Edition (Wiley), we didn't have the space to cover all four sections of the GED test in great detail. In that book, we provide a general overview of the GED test and two full-length practice tests that cover all four sections — Reasoning Through Language Arts (RLA), Mathematical Reasoning, Science, and Social Studies.

Knowing that test-takers can take each section of the GED test separately and that they probably need more guidance in some subject areas than in others, we decided to develop a separate workbook for each section — four workbooks, each with a balance of instruction and practice. In this book, the *GED Social Studies Test For Dummies*, we focus exclusively on the GED Social Studies test. Our goal is twofold: to prepare you to answer correctly any social studies question you're likely to encounter on the test so that you'll receive a high score and to help you do well on your Extended Response essay.

We begin by giving you a sneak peek at the test format and an overview of what's on the GED Social Studies test. We then provide a diagnostic test that presents you with Social Studies questions that challenge your reading, reasoning, and social studies skills and knowledge and identify your unique strengths and weaknesses. The diagnostic test and the self-assessment table following it guide you to specific skills and knowledge areas where you may need to focus your test-prep activities. When you feel ready, you can then tackle the full-length Social Studies practice test in Chapter 13 and turn to Chapter 14 for answers and explanations. Check the answers even for questions you answered correctly because the answers provide additional insight.

We wrap up with two Part of Tens chapters — one that presents ten study tips and another that reveals ten skills to develop prior to test day.

Foolish Assumptions

When we wrote this book, we made a few assumptions about you, dear reader. Here's who we think you are:

- ✔ You're serious about earning a GED as soon as possible.
- ✔ You're looking for additional instruction and guidance specifically to improve your score on the GED Social Studies test, not the Reasoning Through Language Arts (RLA), Math, or Science test. We have a separate workbook for each of those tests for when you're ready to tackle them.
- ✔ You've made earning your GED a priority in your life because you want to advance in the workplace or pursue higher learning that requires a GED or high-school diploma.
- ✔ You're willing to give up some activities so you have the time to prepare, always keeping in mind your other responsibilities.
- ✔ You meet your state's requirements regarding age, residency, and the length of time since leaving school that make you eligible to take the GED test. (See Chapter 1 for details.)
- ✔ You have sufficient English language skills to handle the test.
- ✔ You want a fun and friendly guide that helps you achieve your goal.

If any of these descriptions sounds like you, welcome aboard. You're about to embark on a journey that takes you from point A (where you are right now) to point B (passing the GED Social Studies test with flying colors).

Icons Used in This Book

TIP

Icons — little pictures you see in the margins of this book — highlight bits of text that you want to pay special attention to. Here's what each one means:

Whenever we want to tell you a special trick or technique that can help you succeed on the GED Social Studies test, we mark it with this icon. Keep an eye out for this guy.

REMEMBER

This icon points out information you want to burn into your brain. Think of the text with this icon as the sort of stuff you'd tear out and put on a bulletin board or your refrigerator.

WARNING!

Take this icon seriously! Although the world won't end if you don't heed the advice next to this icon, the warnings are important to your success in preparing to take the Social Studies test.

EXAMPLE

We use this icon to flag example questions that are much like what you can expect on the actual GED Social Studies test. So if you just want to get familiar with the types of questions on the test, this icon is your guide.

Beyond the Book

In addition to the book content, you can find valuable free material online. We provide you with a Cheat Sheet that addresses things you need to know and consider when getting ready for the GED Social Studies test. You can access this material at www.dummies.com/cheatsheet/gedsocialstudiesestest.

We also include additional articles at www.dummies.com/extras/gedsocialstudiesestest that provide even more helpful tips and advice to help you score your best on the GED Social Studies test.

Where to Go from Here

Some people like to read books from beginning to end. Others prefer to read only the specific information they need to know now. Here we provide a road map so you can find your way around.

Chapter 1 starts off with an overview of the GED test and how to register for the exam. Chapter 2 brings you up to speed on what the Social Studies test covers. Chapter 3 is a must-read — a diagnostic test followed by a self-assessment to target areas where you need the most guidance and practice. Based on your self-assessment, you'll know which chapters to focus on in Parts II and III of this book, which divide instruction into two areas that the test evaluates:

- ✓ Part II focuses on social studies *skills*, which include reading comprehension; understanding data presented graphically in charts, tables, maps, political cartoons, and so on; and analyzing arguments and the evidence used to back them up. With these skills, you should be able to answer almost all the questions on the test.
- ✓ Part III focuses on social studies *knowledge* and breaks it down into subject areas — civics, government, history, economics, and geography.

When you're ready to dive into a full-length practice test that mimics the real GED Social Studies test, check out Part IV. After the test, you can check your answers with the detailed answer explanations we provide. (But be sure to wait until *after* you take the practice test to look at the answers!)

If you need a break, turn to the chapters in Part V, where you'll find ten study tips and ten skills you need to master.

Part I

Getting Started with the GED Social Studies Test

getting started
with the

**GED social
studies test**

For Dummies can help you get started with lots of subjects. Visit www.dummies.com to learn more and do more with *For Dummies*.

In this part . . .

- ✓ Get oriented to the test format, question types, test scheduling, and scoring, and find out what steps to take if English isn't your first language.
- ✓ Find out what's on the GED Social Studies test and the knowledge and skills you'll be required to demonstrate on the test.
- ✓ Take a diagnostic test to identify your strengths and weaknesses and highlight the areas where you may need additional practice.
- ✓ Find out what you should or shouldn't do on the day(s) before and the day of the test and during the exam.

Chapter 1

Taking a Quick Glance at the GED Social Studies Test

In This Chapter

- ▶ Warming up to the GED test format
 - ▶ Checking out what's on the GED Social Studies test
 - ▶ Registering for the test and choosing a test date
 - ▶ Completing the GED test when English is your second language
 - ▶ Understanding what your score means and how it's determined
-

The GED test offers high-school dropouts, people who leave school early, and people who were educated outside the United States an opportunity to earn the equivalent of a United States (U.S.) high-school diploma without the need for full-time attendance in either day or night school. The GED test is a recognized standard that makes securing a job or college placement easier.

The GED test complies with current 12th-grade standards in the United States and meets the College and Career Readiness Standards for Adult Education. The GED test also covers the Common Core Standards used in most states. These standards are based on the actual expectations stated by employers and postsecondary institutions.

The GED test measures whether you understand what high-school seniors across the country have studied before they graduate. Employers need better-educated employees. In addition, some colleges may be uncertain of the quality of foreign credentials. The GED provides those assurances. When you pass the GED test, you earn a high-school equivalency diploma. That can open many doors for you, perhaps doors that you don't even know exist at this point.

You're permitted to take the GED test in sections, so you can take the Reasoning Through Language Arts (RLA), Math, Science, and Social Studies tests in separate testing sessions. This flexibility enables you to focus your studies and practice on one section of the test at a time, and this book supports your efforts to do just that.

Ready to get started? This chapter gives you the basics of the GED Social Studies test: how the test is administered, what the Social Studies test section looks like, how to schedule the test (including whether you're eligible), and how your score is calculated (so you know what you need to focus on to pass).

Knowing What to Expect: The GED Test Format

A computer administers the GED test. That means that all the questions appear on a computer screen, and you enter all your answers into a computer with a keyboard and mouse. You read, evaluate, analyze, and write everything on the computer. Even when drafting an

essay, you don't use paper. Instead, the test centers provide you with an erasable tablet. If you know how to use a computer and are comfortable with a keyboard and a mouse, you're ahead of the game. If not, practice your keyboarding. Also, practice reading from a computer screen, because reading from a screen is very different from reading printed materials. At the very least, you need to get more comfortable with computers, even if that means taking a short course at a local learning center. In the case of the GED test, the more familiar you are with computers, the more comfortable you'll feel taking the computerized test.

Under certain circumstances, the sections are available in booklet format as a special accommodation. Check with the GED Testing Service to see what exceptions are acceptable.

The computer-based GED test allows for speedy detailed feedback on your performance. When you pass (yes, we said *when* and not *if*, because we believe in you), the GED Testing Service provides both a diploma and a detailed transcript of your scores, similar to what high-school graduates receive. They're now available online at www.gedtesting.com within a day of completing the test. You can then send your transcript and diploma to an employer or college. Doing so allows employers and colleges access to a detailed outline of your scores, achievement, and demonstrated skills and abilities. This outline is also a useful tool for you to review your progress. It highlights those areas where you did well and areas where you need further work. If you want to (or have to) retake the test, these results will provide a detailed guide to what you should work on to improve your scores. Requests for additional copies of transcripts are handled online and also are available within a day.

Reviewing the GED Social Studies Test

The Social Studies test is scheduled for 90 minutes. You have 65 minutes to answer the multiple-choice and fill-in-the-blank questions and 25 minutes to write your Extended Response (an essay). You get no break between the two sections of the test and can't transfer time from one section to the other. Here's a breakdown of what you'll see on this test:

- ✓ **Multiple-choice, drag-and-drop, hot spot, and fill-in-the-blank questions:** The source text and data for these question types varies. For about half of the questions you get one source item, such as a graph or text, followed by a single question. Other items present a single source item as the basis for several questions. In either case, you need to analyze and evaluate the content presented to you as part of the question. The test items evaluate your ability to answer questions by using reasoning and analytical skills. The information for the source materials comes from primary and secondary sources, both text and visual. That means you need to be able to "read" charts, tables, maps, and graphs as well as standard text materials.
- ✓ **Extended Response:** In this part of the Social Studies test, you're presented with two source texts, usually a quote and a longer passage. You are required to analyze how the issues expressed represent an enduring issue in American history.

The content of the Social Studies test is drawn from these four areas:

- ✓ **Civics and government:** The largest part (about 50 percent of the test) focuses on civics and government. These items examine the development of democracy from ancient times to modern days. Other topics include how civilizations change over time and respond to crises.
- ✓ **American history:** American history makes up 20 percent of the test. It covers all topics from the pilgrims and early settlement to the American Revolution, the Civil War, World Wars I and II, the Vietnam War, and current history — all of which involve the United States in one way or another.

- ✓ **Economics:** Economics makes up about 15 percent of the test. The economics portion examines basic theories, such as supply and demand, the role of government policies in the economy, and macro- and microeconomic theory.
- ✓ **Geography and the world:** This area also makes up 15 percent of the test. The areas with which you need to become familiar are very topical: sustainability and environmental issues, population issues, and rural and urban settlement. Other topics include cultural diversity and migration and those issues that are of universal and not national concern.

You're not expected to be a historian or a civics professor. You won't be asked to identify state capitals, identify the key issues that triggered the Civil War, or name the ships that Christopher Columbus sailed to the New World. All the information you need to answer the questions is provided in the reading passages, maps, graphs, questions, and other material provided on the test. Only the Extended Response requires some prior outside knowledge. However, even on the rest of the test, knowing something about these topics and key historical events, terminology, and concepts helps a great deal in understanding the material presented on the test. That means you can answer the questions correctly and faster in the limited time you're given.

For more about what's covered on the GED Social Studies test, check out Chapter 2.

It's a Date: Scheduling the Test

To take the GED test, you schedule it based on the available testing dates. Each state or local testing center sets its own schedule for the GED test, which means that your state decides how and when you can take each section of the test. In some states, you're required to pass the GED Ready Test before taking the actual test; in others you're not. It also determines how often and how soon after failing a section you can retake it. Some states have a waiting period and additional charge for retakes. The GED Testing Service limits you to three retakes a year, but individual states may allow more. The fee for each retake varies by state. How different test centers administer the test also varies. Because the test is taken on a computer, many testing centers allow you to schedule an individual appointment. Your test starts when you start and ends when your allotted time expires. Other centers administer the test to groups on specific schedules. The test centers are small computer labs, often containing no more than 15 seats, and actual testing facilities are located in many communities in your state.

You book your appointment through the GED Testing Service (www.gedtestingservice.com). Your local GED test administrator can give you all the information you need about scheduling the test. In addition, local school districts and community colleges can provide information about local test centers in your area.

Sending a specific question or request to the GED Testing Service site may come with a charge for the service. To save money, you're better off asking a person at your local testing center. That way, you don't have to pay for the privilege of asking a question, and your answer will be based on rules and conditions specific to your area.

The following sections answer some questions you may have before you schedule your test date, including whether you're even eligible to take the test, when you can take the test, and how to sign up to take the test.

Determining whether you're eligible

Before you schedule your test, make sure you meet the requirements to take the GED test. You're eligible to apply to take the GED test only if

- ✔ **You're not currently enrolled in a high school.** If you're currently enrolled in a high school, you're expected to complete your diploma there. The purpose of the GED test is to give people who aren't in high school a chance to get an equivalent high-school diploma.
- ✔ **You're not a high-school graduate.** If you're a high-school graduate, you should have a diploma, which means you don't need to take the GED test. However, you can use the GED as proof of up-to-date skills and show that you're ready for further education and training.
- ✔ **You meet state requirements regarding age, residency, and the length of time since leaving high school.** Check with your local GED test administrator to determine your state's requirements concerning these criteria. Residency requirements are an issue, because you may have to take the test in a different jurisdiction, depending on how long you've lived at your present address.

Being aware of when you can take the test

If you're eligible, you can take the GED test whenever you're prepared. You can apply to take the GED test as soon as you want. Just contact your local testing center or www.gedtestingservice.com for a test schedule. Pick a day that works for you.

You can take all four sections of the GED test together, but that's seven hours of intense testing. To relieve the burden, the test is designed so that you can take each section separately, whenever you're ready. In most areas, you can take the test sections one at a time, even in the evening or on weekends, depending on the individual testing center. If you pass one test section, that section of the GED test is considered done no matter how you do on the other sections. If you fail one section, you can retake that section of the test. The scheduling and administration of the test and retakes vary from state to state, so check with the GED Testing Service site or your local high-school guidance office.

Because the test starts when you're ready and finishes when you've used up the allocated time, you should be able to take it alone and not depend on other people. For you, that means you may be able to find locations that offer the testing in evenings or on weekends as well as during regular business hours. Even better, because you don't have to take the test with a group, you may be able to set an individual starting time that suits you.

If circumstances dictate that you must take the paper version of the test, you'll probably have to forgo the flexibility afforded by the computer. Check well in advance to see what the rules are for you.

You can also apply to take the test if you're not prepared, but if you do that, you don't stand a very good chance of passing. If you do need to retake any section of the test, use your time before your next test date to get ready. The GED Testing Service offers a discounted retake up to twice a year, but these promotions change. Some states include free retakes in the price of the test. Check with the GED Testing Service or your state about any special discounts that may be available. To save time and money, prepare well before you schedule the test. Refer to the later section "Knowing what to do if you score poorly on one or more tests" for details.

Are special accommodations available?

If you need to complete the test on paper or have a disability that makes it impossible for you to use the computer, your needs can be accommodated. However, other specifics apply: Your choice of times and testing locations may be much more restricted, but times to complete a test may be extended. Remember also that the GED testing centers will ask for documentation of the nature of the accommodation required.

The GED testing centers make every effort to ensure that all qualified people have access to the tests. If you have a disability, you may not be able to register for the tests and take them the same week, but, with some advanced planning, you can probably take the tests when you're ready. Here's what you need to do:

- ✔ Check with your local testing center or check out www.gedtestingservice.com/testers/accommodations-for-disability.
- ✔ Contact the GED Testing Service or your local GED test center and explain your disability.
- ✔ Request any forms that you have to fill out for your special circumstances.
- ✔ Ensure that you have a recent diagnosis by a physician or other qualified professional.
- ✔ Complete all the proper forms and submit them with medical or professional diagnosis.
- ✔ Start planning early so that you're able to take the tests when you're ready.

Note that, regardless of your disability, you still have to be able to handle the mental and emotional demands of the test.

The GED Testing Service in Washington, D.C., defines specific disabilities, such as the following, for which it may make special accommodations, provided the disability severely limits your ability to perform essential skills required to pass the GED test:

- ✔ Medical disabilities, such as cerebral palsy, epilepsy, or blindness
- ✔ Psychological disabilities, such as schizophrenia, major depression, attention deficit disorder, or Tourette's syndrome
- ✔ Specific learning disabilities, including perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia

Signing up

When you're actually ready to sign up for the test, follow these steps:

1. **Contact your local GED test administrator to make sure you're eligible.**
Refer to the earlier section "Determining whether you're eligible" for some help.
2. **Ask the office for an application (if needed) or an appointment.**
3. **Complete the application (if needed).**
4. **Return the application to the proper office, with payment, if necessary.**

The fees vary state by state, so contact your local administrator or testing site to find out what you have to pay to take the tests. In some states, low-income individuals may be eligible for financial assistance.

Note: You can also do all of this online, including submitting the payment, with your computer, tablet, or smartphone. Go to www.gedtestingservice.com to start the process.

Never send cash by mail to pay for the GED test. Most local administrators have payment rules and don't accept cash.

Working with unusual circumstances

If you feel that you may have a special circumstance that prevents you from taking the GED test on a given day, contact the GED test administrator in your area. If, for example, the test is going to be held on your Sabbath, the testing center may make special arrangements for you.

When applying for special circumstances, keep the following guidelines in mind:

- ✓ Document everything in your appeal for special consideration.
- ✓ Contact the GED test administrator in your area as early as you can.
- ✓ Be patient. Special arrangements can't be made overnight. The administrator often has to wait for a group with similar issues to gather so he can make arrangements for the entire group.
- ✓ Ask questions. Accommodations can be made if you ask. For example, special allowances include extended time for various disabilities, large print and Braille for visual impairments, and considerations for age (for individuals older than 60 who feel they may have a learning disability).

Taking the GED Test When English Isn't Your First Language

English doesn't have to be your first language for you to take the GED test. The GED test is offered in English, Spanish, and French. If you want to take the test in Spanish or French, contact your local GED test administrator to apply. Individuals who speak other languages as their first language, however, must do the test in English. If you're in that category, the GED Testing Service recommends that you take an English as a Second Language (ESL) competency test before taking the GED test.

If English, Spanish, or French isn't your first language, you must decide whether you can read and write English as well as or better than 40 percent of high-school graduates because you may be required to pass an English as a Second Language (ESL) placement test. If you write and read English well, prepare for and take the test (either in English or in Spanish or French). If you don't read or write English well, take additional classes to improve your language skills until you think you're ready. An English Language Proficiency Test (ELPT) is also available for people who completed their education in other countries. For more information about the language component of the GED test, check out www.gedtestingservice.com/testers/special-test-editions-spanish and www.gedtestingservice.com/testers/special-test-editions-french.

In many ways, the GED test is like the Test of English as a Foreign Language (TOEFL) comprehension test. If you've completed the TOEFL test with good grades, you're likely ready to take the GED test. If you haven't taken the TOEFL test, enroll in a GED test-preparation course to see whether you have difficulty understanding the subjects and skills assessed on the test. GED test courses provide you with some insight into your comprehension ability, along with a teacher to discuss your skills and struggles.

Websites that can help you plan to take the GED test

The Internet is a helpful and sometimes scary place. Some websites are there to help you in your GED test preparation, while others just want to sell you something. You have to know how to separate the good from the bad. Here are a couple of essential ones (most are accessible through www.gedtestingservice.com):

- ✓ adulted.about.com/od/gettingyourged/a/statedged.htm is a website that links to the GED test eligibility requirements and testing locations in your state.
- ✓ usaeducation.info/Tests/GED/International-students.aspx is a site that explains GED test eligibility for foreign students.

If you're curious and want to see what's out there, type "GED test" into any search engine and relax while you try to read about 22 million results, ranging from the helpful to the helpless. We suggest leaving this last activity until after you've passed the tests. As useful as the Internet can be, it still provides the opportunity to waste vast amounts of time. And right now, you need to spend your time preparing for the test — and leave the rest for after you get your diploma.

Taking Aim at Your Target Score

To pass the GED Social Studies test, you need to score a minimum of 150 on a scale of 100 to 200, and you must pass all other subjects of the test to earn your GED. If you achieve a passing score, congratulate yourself: You've scored better than at least 40 percent of today's high-school graduates, and you're now a graduate of the largest virtual school in the country. And if your marks are in the honors range (score of 170 or more), you're ready for college or career training.

Be aware that some colleges require scores higher than the minimum passing score. If you plan to apply to postsecondary schools or some other form of continuing education, check with their admissions offices for the minimum admission score requirements.

The following sections address a few more points you may want to know about how the GED test is scored and what you can do if you score poorly on one or more of the test sections.

Identifying how scores are determined

Correct answers may be worth one, two, or more points, depending on the item and the level of difficulty. The Extended Response (also known as the essay) is scored separately. However, the Extended Response is only part of the RLA and Social Studies sections. On each test section, you must accumulate a minimum of 150 points.

Because you don't lose points for incorrect answers, make sure you answer all the items on each test. After all, a guessed answer can get you a point. Leaving an answer blank, on the other hand, guarantees you a zero. The information and practice in this book provides you with the knowledge and skills you need to answer most questions on the Social Studies section with confidence and to narrow your choices when you're not quite sure which answer choice is correct.

Knowing what to do if you score poorly on one or more tests

If you discover that your score on the GED Social Studies test is less than 150, start planning to retake the test — and make sure you leave plenty of time for additional study and preparation.

As soon as possible after obtaining your results, contact your local GED test administrator to find out the rules for retaking the failed section of the test. Some states may ask that you wait a certain amount of time and/or limit the number of attempts each year. Some may ask that you attend a preparation course and show that you've completed it before you can retake the GED test. Some may charge you an additional fee. However, you need to retake only those sections of the test that you failed. Any sections you pass are completed and count toward your diploma. Furthermore, the detailed evaluation of your results will help you discover areas of weakness that need more work before repeating any section of the test.

One advantage of taking the GED test on a computer is that you can receive, within a day, detailed feedback on how you did, which includes some specific recommendations of what you need to do to improve your scores.

No matter what score you receive on your first round of the section, don't be afraid to retake any section that you didn't pass. After you've taken it once, you know what you need to work on, and you know exactly what to expect on test day.

Chapter 2

Preparing for the GED Social Studies Test

In This Chapter

- ▶ Getting familiar with the Social Studies test's topics and components
 - ▶ Surveying the types of questions and passages on the test
 - ▶ Preparing for and writing the essay
 - ▶ Optimizing your performance through proper preparation
 - ▶ Budgeting your time
-

The GED Social Studies test assesses your skills in understanding and interpreting concepts and principles in civics, history, geography, and economics. Consider this test as a kind of crash course in where you've been, where you are, and how you can continue living there. You can apply the types of skills tested on the Social Studies test to your experience in visual, academic, and workplace situations as a citizen, a consumer, or an employee.

This test includes questions drawn from a variety of written and visual passages taken from academic and workplace materials as well as from primary and secondary sources. The passages in this test are like the ones you read or see in most daily newspapers and news magazines. Reading either or both of these news sources regularly can help you become familiar with the style and vocabulary of the passages you find here.

In this chapter, we take a look at the skills required for the Social Studies section of the GED test, the format of the test, and what you can do to prepare.

Looking at the Skills the Social Studies Test Covers

The question-and-answer items of the Social Studies test evaluate several specific skills, including the ability to read and understand complex text, interpret graphs and relate graphs to text, and relate descriptive text to specific values in graphs. For example, an item may ask about the relationship between a description of unemployment in text and a graph of the unemployment rate over time.

You don't have to study a lot of new content to pass this test. Everything you need to know is presented to you with the questions. In each case, you see some content, either a passage or a visual; a question or direction to tell you what you're expected to do; and a series of answer options.

The questions do require you to draw on your previous knowledge of events, ideas, terms, and situations that may be related to social studies. From a big-picture perspective, you must demonstrate the ability to

- ✔ Identify information, events, problems, and ideas and interpret their significance or impact.
- ✔ Use the information and ideas in different ways to explore their meanings or solve a problem.
- ✔ Use the information or ideas to do the following:
 - Distinguish between facts and opinions.
 - Summarize major events, problems, solutions, and conflicts.
 - Arrive at conclusions based on source material.
 - Influence other people's attitudes.
 - Find alternate meanings in a passage or mistakes in logic.
 - Identify causes and their effects.
 - Recognize how writers may have been influenced by the times in which they lived and a writer's historical point of view.
 - Compare and contrast differing events and people and their views.
 - Compare places, opinions, and concepts.
 - Determine what impact views and opinions may have both at this time and in the future.
 - Organize information to show relationships.
 - Analyze similarities and differences in issues or problems.
 - Give examples to illustrate ideas and concepts.
 - Propose and evaluate solutions.
- ✔ Make judgments about the material's appropriateness, accuracy, and differences of opinion. Some questions will ask you to interpret the role information and ideas play in influencing current and future decision making. These questions ask you to think about issues and events that affect you every day. That fact alone is interesting and has the potential to make you a more informed citizen of the modern world. What a bonus for a test!

About one-third of the questions test your ability to read and write in a social studies context. That means you'll be tested on the following:

- ✔ Identifying and using information from sources
- ✔ Isolating central ideas or specific information
- ✔ Determining the meaning of words or phrases used in social studies
- ✔ Recognizing points of view, differentiating between fact and opinion, and identifying properly supported ideas

Another third of the questions ask you to apply mathematical reasoning to social studies. Much of that relates to the ability to do the following:

- ✔ Interpret graphs.
- ✔ Use charts and tables as source data and interpret the content.

- ✔ Interpret information presented visually.
- ✔ Differentiate between correlation and causation. Just because one event occurred after another (correlation) doesn't necessarily mean that the first event caused the second (causation).

The remaining third deals with applying social studies concepts. That includes the following:

- ✔ Using specific evidence to support conclusions
- ✔ Describing the connections between people, environments, and events
- ✔ Putting historical events into chronological order
- ✔ Analyzing documents to examine how ideas and events develop and interact, especially in a historical context
- ✔ Examining cause-and-effect relationships
- ✔ Identifying bias and evaluating validity of information, in both modern and historical documents

Being aware of what skills the Social Studies test covers can help you get a more accurate picture of the types of questions you'll encounter. The next section focuses more on the specific subject materials you'll face.

Understanding the Social Studies Test Format

You have a total of 90 minutes to complete the Social Studies test. That time is split between the two components of the test. You have 65 minutes to answer a variety of question-and-answer items and then 25 minutes to write an Extended Response (essay) of 250 to 500 words. You can't transfer time from one section to the other. The question-and-answer section consists mostly of multiple-choice questions with a few fill-in-the-blank questions. The multiple-choice questions come in various forms. Most are the standard multiple-choice you know from your school days. Other formats include drop-down menu, drag-and-drop, and hot-spot items. For more about responding to these different question types on the computerized version of the GED test, check out *GED Test For Dummies* (Wiley).

In the following sections, we explore the subject areas the Social Studies test covers, give you an overview of the types of passages you can expect to see, and take a look at what the Extended Response is all about.

Checking out the subject areas on the test

The question-and-answer section of the Social Studies test includes about 50 questions. The exact number varies from test to test because the difficulty level of the questions varies. Most of the information you need will be presented in the text or graphics accompanying the questions, so you need to read and analyze the materials carefully but quickly. The questions focus on the following subject areas:

- ✔ **Civics and government:** About 50 percent of the Social Studies test includes such topics as rights and responsibilities in democratic governance and the forms of governance.
- ✔ **American history:** About 20 percent of the test covers a broad outline of the history of the United States from precolonial days to the present, including such topics as the War of Independence, the Civil War, the Great Depression, and the challenges of the 20th century.
