About the Authors

Heather Ball is a writer and editor. She has worked on book projects covering topics such as genealogy, cooking, and small business Internet technology. She's also the author of two non-fiction books for children.

Andrew Bell was an investment reporter and editor with the *Globe and Mail* for 12 years. He joined the Business News Network as a reporter in 2001. Bell, an import from Dublin, Ireland, was for 10 years the main compiler of Stars & Dogs in Saturday's *Globe*. The roundup of hot and damp stocks and mutual funds was an invaluable therapeutic aid in relieving his own myriad jealousies, regrets, and resentments. He lives in Toronto.

Andrew Dagens is a bestselling author who has written and co-authored several books, including *Investing Online For Canadians For Dummies* and *Stock Investing For Canadians For Dummies*. He has appeared on *Canada AM* and several CBC broadcasts to offer his opinions on the Canadian and world investment landscape. He lives in Toronto with his wife, Dawn-Ava, and three children — Brendan, Megan, and Jordan. Andrew looks forward to your comments, and can be reached at aj@@hydagys@rogers.com.

Tony Ioannou is a senior associate and manager with Dexter Associates Realty. Tony obtained his real estate licence in 1984, and has consistently been a top producing salesperson with NRS Block Bros., and with Dexter Associates Realty since 1990. In 1990 he obtained his agents (brokers) licence, but continues to enjoy working as a residential real estate sales person primarily on the West Side of Vancouver. He has also worked as a division director for the Real Estate Board of Greater Vancouver. Tony was born and raised in Sydney, Australia, and immigrated with his family to Vancouver in 1973. He has lived in Vancouver's Kitsilano neighbourhood for over 25 years and is an avid mountain biker, motorcyclist, and golfer.

Margaret Kerr and JoAnn Kurtz are lawyers, and they are also both entrepreneurs — and they have the bumps, bruises, and scars to prove it. Occasionally, they find they have a minute of free time here and there, and that's how they came to be the authors of, among other books, *Canadian Small Business Kit For Dummies* and *Wills and Estates Planning Kit For Canadians For Dummies*.

Paul Mladjenovic has over 22 years' experience writing and teaching about common stocks and related investments. He maintains a financial database for his readers and students at www.supermoneylinks.com.

John Lawrence Reynolds is a native of Hamilton, Ontario, and a graduate of McMaster University. He has won several awards for his writing, including two Arthur Ellis awards for Best Mystery Novel. His book *Free Rider: How a Bay Street Whiz Kid Stole and Spent \$20 Million* won the 2002 National Business Book Award. Mr. Reynolds lives in Burlington, Ontario.

Kathleen Sindell is an instructor at the John Hopkins University MBA Program and is the founder of a firm that provides consulting and authoritative publications about management, finance, and real estate in the e-commerce environment.

About the Technical Editor

Christopher Cottier, BSc, MBA, is a senior investment advisor based in British Columbia. In 1982, he left the world of banking to join the investment industry in Vancouver so he could continue to pursue his love of rugby. More than twenty-five years later, he's still managing money and playing rugby. With Betty Jane Wylie, Christopher is the co-author of *The Best Is Yet to Come: Enjoying a Financially Secure Retirement*, a pioneering Canadian book on financial planning. Christopher was ably assisted by Daniel Quon, BA, who has been awarded the Queen Elizabeth II Golden Jubilee Medal.

Introduction

When planning for your financial future, you may sometimes feel like you're navigating a field plugged with all sorts of roadblocks and land mines and barbed-wire fences and any number of impediments, all designed to keep you from finding information you can apply to your specific needs. This book recognizes the challenges you face in figuring out how your home-buying decision relates to your investment choices, which relates to your estate planning scenarios, which may even relate to a small business opportunity. With *Money Management For Canadians All-in-One Desk Reference For Dummies*, 2nd Edition, you'll find much of what you're looking for to help you get out of that field of impediments and get into a secure and rewarding financial bunker.

About This Book

Like all *For Dummies* books, *Money Management For Canadians All-in-One Desk Reference For Dummies* is a reference — the kind of book that's most useful if you keep it by your side at all times, especially when making your most important money management and investment decisions. (Though if you make all your most important decisions during a time of contemplation in your shower, you may want to avoid that keep-it-by-your-side bit.)

If you're reading this Introduction at your neighbourhood bookstore — trying to decide whether to purchase this book — look around you at the dozens (or hundreds or even thousands, if you're at Chapters) of money management books you can choose from. With all those options, can one book possibly promise *all* the information you need about money management and investing? In a word, no. But this book does its best to give you all the information you need to get you on your way to a successful and rewarding financial future.

Conventions Used in This Book

Because some information in this book really deserves to stand out, you'll find certain conventions that apply to the following situations:

- ✓ Web site addresses appear in this font.
- ✓ Terms and phrases that may be unfamiliar to you appear in *italics*. You'll find an appropriate definition of the term or phrase nearby.
