ABOUT THE AUTHORS

AMANDA PERRAN is a Microsoft Most Valuable Professional for Microsoft SharePoint Server located in St. John's, Newfoundland and Labrador. She has been working as a consultant and trainer with SharePoint since the release of the first version of the product in 2001. Amanda is a regular speaker and presenter at user group meetings, webcasts, and Microsoft events on topics such as Microsoft SharePoint, InfoPath, and Project Server. She is the co-founder of SharePoint Nation, www.sharepointnation.org, which is a virtual user group for SharePoint. You can follow her on Twitter as *@amandaperran*.

SHANE PERRAN is a Microsoft Most Valuable Professional for Microsoft SharePoint Server located in St. John's, Newfoundland and Labrador. He has been designing online user experiences for over 15 years. His strong passion for visual presentation, web standards, and usability has paved the way for a successful transition into the SharePoint Products and Technologies space where, over the past seven years, Shane has become highly involved and recognized in the SharePoint customization space. He is the co-founder of SharePoint Nation, www.sharepointnation.org, which is a virtual user group for SharePoint. Shane's SharePoint Customization Blog at www.graphicalwonder.com is a popular stop for customization enthusiasts across the globe. You can follow Shane on Twitter as *@shaneperran*.

JENNIFER MASON has dedicated the last seven years to working with SharePoint. She started out as an intern focused on SharePoint and eventually began working as a full-time SharePoint consultant. She is currently working as a Senior SharePoint Consultant with the team at SharePoint911. Her focus has been on strategy, project planning, project management, governance, and best practices for implementing business solutions using SharePoint Technologies. She has worked with a range of companies at different points in the life cycles of their SharePoint implementation. She is passionate about SharePoint, and loves using the out-of-the-box features to bring immediate ROI to the organization. Jennifer is involved in the SharePoint community and is one of the founding members of the Columbus Ohio SharePoint Users Group (BuckeyeSPUG). You can learn more about Jennifer by viewing her blog at <http://sharepoint911.com/blogs/jennifer>. You can follow Jennifer on Twitter as *@jennifermason*.

LAURA DERBES ROGERS is a Senior SharePoint Consultant at SharePoint911. Her background is in server administration, and she has been an MCSE for 11 years, working in SharePoint for the last 6 years. She is enthusiastic about accomplishing business solutions in SharePoint by using the out-of-the-box capabilities without writing code. She specializes and trains others in SharePoint workflows, data view web parts, and InfoPath. Laura is a regular speaker at several different SharePoint conferences, loves sharing ideas on her SharePoint blog at <http://sharepoint911.com/blogs/laura>, and has recorded a set of screencasts about data view web parts. Laura is a graduate of Louisiana State University, and currently resides in Birmingham, Alabama with her husband, Chris, and two lovely daughters. You can follow Laura on Twitter as *@WonderLaura*.

ABOUT THE TECHNICAL EDITORS

MARTIN WP REID is a systems analyst at the Queen's University of Belfast, one of the leading U.K. universities. In addition to administrating large SharePoint systems, Martin is particularly interested in SharePoint as an end-user tool to help information workers get the job done without having to wade through technical manuals. Martin is currently working on a 30,000 user SharePoint 2007 system. Martin has authored several technical books, including *Microsoft SharePoint 2007 for Office 2007 Users*, published by Wrox. He has been a technical editor on many technical books for Wiley.

CHARLIE LEE is a SharePoint Subject Matter Expert working for Capgemini UK. He also runs a web application development consultancy specializing in SharePoint services and contributes to the SharePoint community whenever he can. He has a wealth of experience with real-life issues with WSS 3.0, MOSS 2007, SharePoint Foundation, and Server 2010. He lives and works in the U.K. with his beautiful wife and two amazing children.

ACKNOWLEDGMENTS

IT IS COMMON FOR AUTHORS to thank their spouses or partners for their understanding and support during the book-writing process. In our case, this was a project by a husband-and-wife team, which meant that the late nights, deadlines, and missed holidays were spent together, side by side, for better or worse. Of course, we would have it no other way.

We would like to thank our families for their love, support, and encouragement throughout this book and all the other challenges and surprises that life can bring.

We are excited to have Jennifer Mason and Laura Derbes Rogers join us on this book. It is an honor and a pleasure to share a title with such talented individuals. We are so happy to have you each onboard with us for this book and look forward to any future opportunities to work together again.

As always, we would like to thank Jim Minatel for introducing us to the Wrox team so many years ago. Thank you to Paul Reese for spearheading this project and for always keeping things moving along. Thank you to Adaobi Obi Tulton for your constant grace under pressure and excellent editing skills. It was an extreme pleasure to work with you on this project and we hope our paths cross again. Thank you to Martin Reid and Jeri Freedman for your diligence and attention to detail throughout the editing process. Each of your talents contributed significantly to this project and we are so very grateful to each of you.

Finally, to Dylan. Thank you for constantly being that light at the end of the tunnel and helping to always keep life in perspective.

—AMANDA AND SHANE PERRAN

WRITING A TECHNICAL BOOK has been a longtime dream of mine. It is one of the things that I have always had on my “list” of things I had wanted to accomplish throughout my career. Along the way, so many different people have invested in my future and I wouldn’t be who I am without their influences.

First, I would like to thank my family for investing so much into my education and supporting me through many different changes and moves. Mom and Dad — I wouldn’t be what I am today without you and I am blessed to have you in my life. Bob and Jane — thanks so much for being my “other parents”; your support means more than I could ever thank you for!

Dr. Metzgar, thanks so much for all the encouragement, knowledge, wisdom, and friendship you gave me while I was at Liberty. You taught me so many things that I can honestly say I still apply on a daily basis. I definitely wouldn’t be here without your support and investment.

Shane and Nicola — you two might be the best people in the world to work for! Thanks so much for all you have done for me. I don't think it would be possible to work with a better group of people than the ones I work with at SharePoint911. I thank each of them for all the support they give me.

Laura, Shane, and Amanda, this has been a great experience and I am honored to have written alongside you. I am looking forward to working together again on future projects.

Finally, I would like to thank the team at Wrox that helped bring this project together. Paul Reese for inviting me to join this project and Adaobi Obi Tulton for all the hard work you have done to get this book ready to go. You have shown great patience and understanding, which has been appreciated! Thanks also to Martin Reid and Jeri Freedman for all your efforts throughout the editing process. I hope that we will all be able to work together again in the future.

—JENNIFER MASON

WORKING ON THIS BOOK has been quite an experience, and there are several people who I would like to thank. The major influencers in my life exist on both the personal and the professional sides.

First of all, my husband, Chris, has been amazing and supportive. His sarcasm and wit have always kept me laughing despite any book-deadline stresses. Speaking of family, I thank my daughters for always been so loving, smart, delightful, and happy. I love my sweeties! Thanks to my parents, Greg and Caroline, who have always been encouraging and supportive, and to my artist brother, Clark, and his family.

Thank you so much to Jennifer Mason for being a brilliant and driven businesswoman and friend, and thanks to Shane and Amanda Perran for being so inspiring to work with. Thanks for including me in this endeavor; it has been amazing. You three are such outstanding SharePoint gurus, and I sincerely look forward to spending more time with you and joining you in any future endeavors that may arise.

Of course, I would also like to extend my thanks to the Wrox team, especially Paul Reese and Adaobi Obi Tulton. It has been a pleasure working with all of you on this adventure of a book. I think you all have been wonderful and professional, and I hope that we cross paths again soon.

Lastly, I would like to thank those of you in my life who have been part of the path that I have taken to become a SharePoint professional, in chronological order. Thanks, Susan Cargile, for assigning me the task of first installing SharePoint in 2004. Who knew, right? Bill English, Brett Lonsdale, and Mark Miller, you have been major influences on me and the direction that my career has gone. Last, but certainly not least, I'd like to thank Shane Young and all of my colleagues at SharePoint911. You all are family to me, and I truly enjoy working with you. The personalities in this company are awesome, and we always have so much fun together.

—LAURA DERBES ROGERS

CHAPTER 1: GETTING STARTED WITH MICROSOFT SHAREPOINT SERVER 2010 1

Introducing SharePoint	1
What Is Portal Technology?	2
Why Does an Organization Invest in Portal Technology?	2
What Is SharePoint 2010?	3
Comparing SharePoint Foundation and SharePoint Server	4
SharePoint Foundation Primary Benefits	4
SharePoint Server Primary Benefits	7
SharePoint Components Overview	10
The Ribbon	10
SharePoint Lists	10
SharePoint Libraries	11
Web Parts	12
Workflow	12
Content Types	13
Sites, Workspaces, and Site Collections	14
Enterprise Features	17
Summary	19

CHAPTER 2: WORKING WITH SHAREPOINT LISTS 21

Understanding List Elements	21
Discovering SharePoint List Column Types	22
Understanding the Standard List Templates	24
Understanding the Contacts List	27
Understanding the Announcements List	29
Understanding the Tasks List	30
Understanding the Project Tasks List	31
Understanding the Issues List	32
Understanding the Calendar List	34
Understanding the Links List	36
Understanding Discussion Lists	36
Exploring Survey Lists	38

Understanding the Status List	40
Understanding the External List	41
Working with Lists	41
Working with List Content	41
Summary	57
CHAPTER 3: WORKING WITH LIBRARIES	59
Understanding Libraries and Documents	59
Creating and Managing Documents in a Library	62
Updating and Sharing Documents	69
Review Document Version History	79
Understanding SharePoint Library Templates	82
Document Libraries	83
Form Libraries	85
Wiki Page Libraries	86
Picture Libraries	90
Data Connection Libraries	97
Slide Libraries	98
Summary	103
CHAPTER 4: MANAGING AND CUSTOMIZING LISTS AND LIBRARIES	107
Creating an Environment That Reflects Your Business	108
Best Practices for Building a Dynamic System for Managing Content	109
Ensure Your Changes Add Value	109
Follow Similar Processes and Practices	109
Provide Guides and Descriptions	110
Working with Columns	110
Exploring List Column Types	112
Single Line of Text	112
Multiple Lines of Text	113
Choice	114
