Introduction

About This Book
Foolish Assumptions
What You Don’t Need To Read
Conventions Used In This Book
How This Book Is Organized

Part I: Basic Information about the Saxophone
Part II: Getting Started: From First Notes to Special Effects
Part III: A Variety of Styles: The Blues, Jazz, Pop, and Classical
Part IV: Saxophone Accessories, Maintenance, and Practice Tips
Part V: The Part of Tens
Appendixes

Icons Used In This Book
Where to Go from Here

Part I: Basic Information about the Saxophone
Chapter 1: Saxophone Basics

Meeting Mr. Sax

The invention of the saxophone
The saxophone goes mainstream

Getting to Know the Sax’s Components and Their Functions

Parts of the saxophone
How the saxophone sings

Finding the Right Sized Sax

Meeting the saxophone family
Deciding on your perfect match
Following your favorite sound
Matching the saxophone to musical styles

Acquiring a Saxophone

Leasing
Buying: New or used?
Starting with a quality sax

Chapter 2: Assembling and Tuning the Sax

Checking Out Some Important Parts
Needing the Reed
Minding the Mouthpiece

Structure of the mouthpiece
Metal or rubber mouthpiece

Holding It Together with the Ligature
Assembling the Reed, Ligature, and Mouthpiece
Putting the Saxophone Together

Assembling the sax, step by step
Making high and low sounds

Tuning the Sax

Tuning in to a common pitch
Transposing: Different notes for different instruments
Adjusting the saxophone’s tuning

Chapter 3: The Body–Saxophone Connection

Adopting Proper Posture

Standing correctly
Sitting correctly
Practicing posture with the saxophone

Breathing Technique for Playing the Saxophone

Diaphragm and abdominal breathing
Physical support
Training the diaphragm with deep breathing
Adjusting Your Embouchure

Part II: Getting Started: From First Notes to Special Effects

Chapter 4: Notes, Intervals, and First Melodies

Gearing Up for That First Note

Producing good sound
Positioning your hands and fingers correctly
Starting with the note G
Playing notes with the left hand
Playing notes with the right hand

Exercising Proper Finger Technique

Trying a few fingering exercises
Moving on to first melodies

Understanding the Octave Key
Deciphering Key Signatures and Accidentals
Knowing All 12 Notes on the Saxophone

C#/Db
D#/Eb
F#/Gb
G#/Ab
A#/Bb

Chapter 5: The Language of Music: Articulation and Intonation
Playing Short and Long Notes with Articulation and Phrasing
Ascending and Descending Scales
Getting Down with Dynamics

Bringing dynamics into play

Chapter 6: Have You Got Rhythm?

Feeling Rhythm in Your Body

Clapping yourself free
Going over ten rhythmic clapping exercises

Going from Notes to Songs

Playing a bit of the blues
Playing a pop ballad

Letting Yourself Go with Improvisation

How improvisation works
Improvising with pentatonics
Practicing improvisation exercises

Chapter 7: Scaling New Notes and Expanding Your Range

Discovering the Highs and Lows of the Saxophone

Descending into the low notes
Lower-register exercises
Climbing up to the high notes
High-register exercises

Getting Personal with Scales

Adapting your playing using scales
Getting to know the major scale
Examining the structure of major scales
Remembering flats and sharps

Conquering the Chromatic Scale

Chapter 8: Special Rhythms and Techniques

Getting Into the Swing of the Rhythm

Re-examining the eighth note
Playing with swing

Reaching New Rhythms: Syncopation, Offbeats, and 5/4 Time

Syncopation and offbeats
5/4 Time: “Take Me to 5th Avenue”

Having Fun with Sound Effects

Vibrato
Bending
Growling
Flutter tonguing
Part III: A Variety of Styles: The Blues, Jazz, Pop, and Classical

Chapter 9: Getting Down with the Blues

Using the Sax to Play the Blues

The blues scale
The 12-bar blues
Playing the blues

Going from Blues Licks to Your Own Blues Solo

Playing blues licks
The Blues Lick Solo

Playing Your Own Blues Solo

Chapter 10: Jazz — Practice Makes Perfect

Swinging with “Walking Home”

Preliminary rhythmic exercises
Getting down to the song “Walking Home”

Improvising on “Jack the Mack”

First theme
Second theme
Third theme
Solo improvisation
The whole piece

Chapter 11: Rock ’n’ Roll and Rhythm and Blues

Rocking and Rolling to Rhythm and Blues
Getting a Rock ’n’ Roll Sound
Playing “Green Potatoes”

Chorus 1 and 4
Chorus 2
Chorus 3
Putting the whole song together

Catching a “Late Night Train”

Taking it chorus by chorus
Playing the whole song

Chapter 12: Getting Your Groove On: Soul and Funk

Getting to Know the Horn Section

Seeing how each horn section is unique
Playing in a horn section: Five tips

Playing the Quick Sixteenth

Doing the math of sixteenth notes
Playing sixteenth-note phrases

Getting Funky with “Brown Sax”
Grooving with “Crushed Ice”
Chapter 13: Latin Music

Diving Into the Diversity of Latin Music

Checking Out Clave

Rhythm exercise 1 — foundations for clave
Rhythm exercise 2 — clapping clave

Spicing Things Up with “Sax con Salsa”

Mastering melody and tones
Seeing the structure and rhythm
Improvising

Blaming It On the Bossa Nova
Playing “Antonio’s Bossa”

Checking out the parts
Getting the fundamentals

Stars of the Latin Saxophone

Stan Getz (1927–1991)
Paquito D’ Rivera (1948)
Gato Barbieri (1934)
Chris Vadala
David Sanchez (1968)
Wayne Shorter (1933)
Joe Henderson (1937–2001)

Chapter 14: Pop Saxophone: To the Point and Straight to the Heart
Hitting the Highlights of Sax in Pop Music

“Sax on Baker Street”
Careless Sax

Playing Around with Pop Techniques

Growling
Bending
Grace notes and ornamentation
Overtones and altissimo
False fingering
Glissando

Playing with Courage, Intensity . . . and Clichés

Decisiveness and courage
Intensity and emotion
Clichés, famous riffs, and originality

Standing in the Spotlight at Showtime!

Styling, outfits, and accessories
Moves and poses
Freedom with a transmitter mic

Feeling Starstruck: The Greatest Pop Saxophonists of All Time

Rudy Pompilli (1924–1976)
Sam Butera (1927–2009)
Phil Woods (1931)
David Sanborn (1945),
Branford Marsalis (1960),
Candy Dulfer (1969),
Clarence Clemons (1942–2011),
Kenny G (1956),
Pete Christlieb (1945),
Michael Brecker (1949–2007).

Exploring the Big World of Classical Saxophone
Examining the Repertoire of Classical Saxophone Hits

Orchestral pieces for saxophone
Concert pieces for saxophone
Solo and chamber music for saxophone
Saxophone and ... Bach?
Stars of classical saxophone
Great saxophone quartets

Getting Serious about Classical Sax

Ideal classical sound
Tuning, dynamics, and virtuosity

Pondering Playing Techniques in Classical and Contemporary Music

Top tones, upper register, and altissimo
Double tonguing
Flutter tonguing
Slap tongue
Circular breathing
Multiphonics
Quarter tone technique

Selecting a Mouthpiece for Classical Music

Typical and traditional mouthpieces in classical music
The classical reed
Choosing a saxophone

Playing Bach

Noticing the parts of the piece

Part IV: Saxophones, Accessories, Maintenance, and Practice Tips

Chapter 16: The Right Tools for the Job: Saxophone and Accessories

Selecting Your Saxophone

Looking at top manufacturers and models
Avoiding junk
Being wary of vintage

Looking at Mouthpieces, Reeds, and Ligatures

Considering mouthpiece manufacturers
Seeing reeds
Looking at ligatures

Finding the Right Support with Neck and Shoulder Straps
Protecting Your Sax with a Case

Types of cases
Selecting a case

Taking a (Musical) Stand

Saxophone stands
Music stands

Meeting the Metronome and Tuner

Metronome for time and rhythm
Tuner for being in tune

Chapter 17: Cleaning and Maintenance

Keeping Your Saxophone Clean

Swabbing your saxophone dry
Caring for the mouthpiece and reeds

Fixing a Sticky G# Key
Maintaining Mechanics

A well-oiled instrument
First aid for the saxophone

Storing and Reviving Reeds
Storing a saxophone reed
Adjusting a bad reed

Following Some Final Advice

Chapter 18: Practice Makes Perfect
(Saxophonists)

The Nine Commandments of Practicing

Practice undisturbed
Practice regularly
Practice effectively
Listen to yourself
Structure your practice
Use practice resources
Work on technical exercises
Practice with others and through others
Practice with joy

Approaching a New Song

Part V: The Part of Tens

Chapter 19: The Ten Greatest Saxophone Players You Should Know

Lester Young (1909–1959)
Charlie Parker (1920–1955)
Sonny Rollins (1930)
John Coltrane (1926–1967)
Dexter Gordon (1923–1990)
Stan Getz (1927–1991)
Maceo Parker (1943)
David Sanborn (1945)
Michael Brecker (1949–2007)
Jan Garbarek (1947)

Chapter 20: The Ten Most Important Sax Players and Their Best Recordings

Lester Young: “The Lester Young Trio” (1946)
Charlie Parker: “The Savoy and Dial Recordings” (1944–1948)
Sonny Rollins: “Saxophone Colossus” (1956)
Miles Davis with John Coltrane and Julian “Cannonball” Adderley: “Kind Of Blue” (1959)
Dexter Gordon: “A Swinging Affair” (1962)
Stan Getz: “Getz/Gilberto” (1964)
Michael Brecker: “Michael Brecker” (1987)
David Sanborn: “Straight to the Heart” (1984)
Keith Jarrett and Jan Garbarek: “My Song” (1977)

About the Authors

Denis Gäbel studied saxophone at the renowned Conservatory of Amsterdam, in Holland and has taught as a visiting lecturer at the Johannes Gutenberg University, Mainz, Germany.

In 2003, he won first prize at the international Pim Jacobs Concours in Rotterdam, Holland. He was also a finalist at the Dutch Jazz Competition, and won the 2009 Jazz Award from Germany’s Federal Association of Music Industry for his work as composer and arranger on his brother Tom Gäbel’s CD Don’t Wanna Dance.

Denis Gäbel is also a bandleader in his own right, primarily with his group the Denis Gäbel Trio. In collaboration with Jasper Blom, he released two CDs with Nagel Heyer Records (2006 Keep on Rollin’; 2009 Love Call — Impressions of Ellington).

You can find further information about Denis Gäbel at www.denisgaebel.com.

Michael Villmow has played with many renowned musicians such as Ray Charles, Sammy Davis Jr., Caterina Valente and Johnny Logan. He is the founder of the Cologne Big Band, in which jazz giants such as Randy Brecker, Bendik Hofseth, Manfred Schoof and Chad Wackermann played.
As a composer, Villmow has created works for the German radio stations WDR and NDR, and for the opera in Cologne. In 1999, the Norwegian Music Committee commissioned Villmow to write a piece for their national big band and choir, which inspired him to be more involved in vocal music. Since then, he has written several compositions for saxophone and choir, including several masses.

Since 1980, Michael Villmow has worked as music teacher at the Rhein Music School in Cologne, where he mentors students of all ages through individual lessons, and leads many ensembles, and is the head of the Jazz-Rock-Pop Department. In addition, he has worked as guest lecturer for saxophone at the University of Cologne and has conducted ensembles at the Robert Schumann University for Music in Düsseldorf, Germany. Since 1993, he has worked as a conductor, composer, and arranger of the musical executive team at the Youth Jazz Orchestra of Nordrhein-Westfalen in Germany.

Dedication

Denis Gäbel: Thanks to my parents Monika and Peter and my brothers Oliver, Tom, and Colin.

Michael Villmow: Thanks to my children Annika and Frederik

Authors’ Acknowledgments

The authors are grateful to Anne Jonas of Wiley-VCH press for the collaboration.
We’re also thankful to Judith Bregy, Thomas Haberkamp, Prof. Heiner Wiberny, Lina Sommer, and our other students.

Finally, we’re thankful to the producers at K&M, Vandoren Paris and for the support of the company Klemm Music Technology, whose music notation software “Finale” was used for this book.

Publisher’s Acknowledgments

Introduction

Are you fascinated by the saxophone? Is it your dream instrument? Maybe you already know how to play this wonderful instrument or perhaps you want to try it out. Well, *Saxophone For Dummies* is exactly the right choice for beginners and anyone else looking to expand their skills and knowledge.

The saxophone has influenced many styles of music. Whether it’s in the big bands of Count Basie and Duke Ellington, Bill Haley’s legendary rock ’n’ roll band, or the funk master James Brown, saxophonists have left their indelible mark on music. In the bossa nova song “The Girl from Ipanema,” the breathy saxophone is the icing on the cake.

Saxophone also plays an essential role in the so-called “serious music.” Maurice Ravel’s *Boléro* shows another side of the instrument. Here, it’s not about the roaring R&B sax that King Curtis played or what you might recall from the pop hit “Baker Street.” Instead, in Ravel’s piece, the saxophone has a fine, clear sound that’s a beautifully integral part of the classical orchestra.

The many faces and voices of the saxophone ensure that it remains a popular instrument. Whether as a solo instrument, as part of a horn section in a big band, or at home in your living room, the dynamic and rich sound is captivating!

About This Book

*Saxophone For Dummies* helps you to discover the world of the saxophone. This book provides you with everything you need
— from help in selecting your instrument and accessories, to sounding out your first notes, to unlocking the secrets of the different musical styles including blues, jazz, pop, and classical. This is a comprehensive guide to playing and understanding the instrument.

We’ve combined our individual experiences, wisdom, and insights as saxophone players and teachers into this book. We have mixed manageable, short exercises and helpful background information in between the melodies and songs. And you can also let yourself be accompanied by the audio tracks that accompany the book. The philosophy of *Saxophone For Dummies* is a blend of profound knowledge, goal-oriented exercises, and musical applications for a variety of music styles.

You’ll discover, step by step, all the notes that the saxophone can produce. We provide a detailed fingering chart and example of how the note is written for each pitch. With our detailed descriptions, key charts, and notation, playing is easy. You can repeat each new note through exercises and actual music to cement your ability to play it. To help you develop an expressive musical language, we also explain useful techniques for good articulation, phrasing, and dynamics.

These skills help you play in a whole bunch of musical styles. Learn to play the blues, jazz, rock ’n’ roll, R&B, funk, soul, bossa nova, pop, and classical on your saxophone. Moreover, we familiarize you with the greatest saxophone players in music history and provide you with listening tips to fascinating recordings.

On the accompanying audio tracks, you can find multiple exercises and songs. When you use the playback versions, you have the opportunity to play with a band.
Foolish Assumptions

We assume a few things about you, the reader. We assume that you share our interest in the saxophone. Actually we assume that you share our enthusiasm for this instrument, its sound, and the music it can produce. And we assume that you really want to learn to play the saxophone yourself — and play it well!

We do not assume that you already own a saxophone. We don’t assume that you can read the sheet music for Rimsky-Korsakow’s “Flight of the Bumblebee,” but we do assume that you’re slightly familiar with written music and that you want to take advantage of this tool to make great music.

And now, please excuse us if we make a bold assumption. We figure that regardless of whether you’re a beginner, an advanced saxophonist, or just an interested music lover, we believe you’ll benefit from Saxophone For Dummies.

What You Don’t Need To Read

To work successfully with this book, you don’t need to read the whole book from the beginning to the end. The sidebars (shaded boxes) provide additional and in-depth information to supplement the text. For the most part, these include musical jargon that you don’t necessarily need to know if you want to play. The icons also mark information that’s exciting but isn’t essential for you to know.
Conventions Used In This Book

This book uses certain conventions so you can follow along easily:

✔ Track numbers that accompany the songs and exercises refer to the track numbers of audio tracks.

✔ All tracks have two versions, one for the Eb saxophones alto and baritone, and a second version for the Bb instruments soprano and tenor.

✔ Some songs feature chord symbols, which are roman numerals marked above the written music. Experienced sax teachers, pianists, or guitarists can play the chords to accompany you. Chapter 6 provides more detailed information on this.

✔ Every section of the book is cross-referenced so that you can easily find all related sections about a particular topic. Additionally, the table of contents at the beginning of the book and the index at the end help you navigate with ease.

✔ All notes and their corresponding fingerings are explained in detail in Chapters 4 and 7. A supplementary fingering chart is provided in Appendix B. You can quickly find the relevant fingering for each note.

How This Book Is Organized
Saxophone For Dummies is designed to accommodate your personal preference by allowing you to read any chapter in any order. So you can enjoy browsing at will. If you get stuck at any point, the cross-references and index can help you quickly get the appropriate answer to your questions. Of course, you can also read the book from the beginning to end in sequential order.

Part I: Basic Information about the Saxophone

In Part I we discuss the genius Adolphe Sax and what inspired him to build such a beautiful, admirable, and gorgeous instrument. And by the way, it’s an exciting story! You’ll also find out about all the different members of the saxophone family. In addition to the well-known alto and tenor saxophones, you’ll meet the small soprano and the large baritone sax.

Are you looking for your own saxophone? Then, in this section, you discover tips on how to find a good-fitting instrument, regardless of whether it’s new or used. We explain the basic functioning of a saxophone and how all of its parts fit together. And we discuss the foundations of playing, including the correct posture, the breathing technique, and the importance of the embouchure.

Part II: Getting Started: From First Notes to Special Effects

Part II starts to get juicy. This section provides plenty of good stuff regardless of whether you are sounding out your first notes, are interested in getting those challenging high and/or
low notes, or just want to try out certain effects. All of the fingerings and notes are clearly explained and illustrated.

Chapter 5 discusses how you can use articulation to play expressively and to create excitement. Because music is a language, naturally the right intonation and pronunciation are essential. In Chapter 6 we serve up the first longer songs. And for dessert, an introduction to improvisation, but prepared so that it is easily digested.

**Part III: A Variety of Styles:**
**The Blues, Jazz, Pop, and Classical**

In Part III we teach you about the various music styles you can play on the sax. The best part is that saxophone plays an important role in every genre! Each chapter in this section discusses the heroes of each respective style. We present technical details that you can practice with tailor-made exercises. Then you can release all of your energy into our songs by playing with the accompanying band on the audio tracks. Eventually you can invite friends, relatives, and neighbors over for a house concert.

**Part IV: Saxophone Accessories, Maintenance, and Practice Tips**

Part IV discusses different saxophone brands as well as important and useful equipment. In Chapter 16 we suggest many ideas. Fortunately, the market has the right saxophone for
