*To my great team and work family  
at Pragmatic Works*

—BRIAN KNIGHT

*To my parents, Paul and Darian Veerman*

—ERIK VEERMAN

*For the SQL Community: without you,  
this would not be possible.*

—JESSICA M. MOSS

*To my wife Jessy, she makes me a better  
person every day.*

—MIKE DAVIS

*To the three girls in my life that mean more than  
anything to me, Tammy, Calista, and Callie.*

—CHRIS ROCK

# ABOUT THE AUTHORS

**BRIAN KNIGHT**, SQL Server MVP, MCITP, MCSE, MCDBA, is the owner and founder of Pragmatic Works. He is also the cofounder of BIDN.com, SQLServerCentral.com, and SQLShare.com. He runs the local SQL Server users group in Jacksonville (JSSUG). Brian is a contributing columnist at several technical magazines. He is the author of a dozen SQL Server books. Brian has spoken at conferences like PASS, SQL Connections, and TechEd, SQL Saturdays, Code Camps, and many pyramid scheme motivational sessions. His blog can be found at <http://www.bidn.com>. Brian lives in Jacksonville, Florida, where he enjoys his kids and running marathons.

**ERIK VEERMAN** is a mentor with SolidQ focusing on training, mentoring, and architecting solutions on the SQL Server BI platform. Erik has designed dozens of BI solutions across a broad business spectrum — telecommunications, marketing, retail, commercial real estate, finance, supply chain, and information technology. His industry recognition includes Microsoft's Worldwide BI Solution of the Year and *SQL Server Magazine's* Innovator Cup winner. As an expert in OLAP design, ETL processing, and dimensional modeling, Erik is a presenter, author, and instructor. He has helped drive the industry ETL standards and best practices for SSIS through his Wrox books on SSIS and is the lead author of Microsoft Press SQL Server BI training kits. Erik lives in Atlanta, Georgia, with his wife and four energetic children.

**JESSICA M. MOSS** is a well-known practitioner, author, and speaker of Microsoft SQL Server business intelligence. She has created numerous data warehouse and business intelligence solutions for companies in different industries and has delivered training courses on Integration Services, Reporting Services, and Analysis Services. While working for a major clothing retailer, Jessica participated in the SQL Server 2005 TAP program where she developed best implementation practices for Integration Services. Jessica has authored technical content for multiple magazines, websites, and books, including the Wrox book *Microsoft SQL Server 2008 Integration Services: Problem-Design-Solution*, and has spoken internationally at conferences such as the PASS Community Summit, SharePoint Connections, and the SQLTeach International Conference. As a strong proponent of developing user-to-user community relations, Jessica actively participates in local user groups and code camps in central Virginia. In addition, Jessica volunteers her time to help educate people through the PASS organization.

**MIKE DAVIS**, MCTS, MCITP, is the Managing Project Lead at Pragmatic Works. This book is his third on the subject of business intelligence and specifically Integration Services. He has worked with SQL Server for almost a decade and has led many successful business intelligence projects with his clients. Mike is an experienced speaker and has presented at many events such as SQL Server user groups, code camps, SQL Saturday events, and the PASS Summit. Mike is an active member at his local user group (JSSUG) in Jacksonville, Florida. In his spare time he likes to play darts and guitar. You can also find him on twitter @MikeDavisSQL and his blog on MikeDavisSQL.com and BIDN.com.

**CHRIS ROCK** is a software developer and program manager for Pragmatic Works. He started developing software using VB6 and SQL Server 6.5 in 1998 and has been using SSIS since its inception. Chris has spoken at many local SQL Saturday and Code Camp events in Florida. When he's not writing code, Chris enjoys training cats to speak English. He blogs at <http://rocksthoughts.com>.

## ABOUT THE TECHNICAL EDITORS

**DR. WEE-HYONG TOK** is a Program Manager from the SQL Server product group. Wee-Hyong spent the last few years working on Integration Services. Prior to joining Microsoft, Wee-Hyong was a Microsoft Most Valuable Professional (MVP), and he is a frequent speaker at various conferences in Asia-Pacific. He is deeply passionate about how organizations can make use of business intelligence tools to gain insights into the nuggets of data within the organization and make better, more informed decisions.

**MATTHEW ROCHE** has nearly 20 years' experience as a developer, trainer, and mentor, with a focus on the Microsoft SQL Server platform. He has designed, developed, and deployed small- and large-scale applications based on SQL Server starting with version 6.5, and with the release of SQL Server 2005, he has increasingly focused on BI and ETL solutions with SQL Server Integration Services. Matthew has presented on SQL Server topics across the United States and Europe at numerous user groups, code camps, and technical conferences, including TechEd and SQL Server Connections, and has contributed to multiple SQL Server books as author and technical reviewer. Matthew has been a Microsoft Certified Trainer (MCT) since 1996 and prior to joining Microsoft in 2008 was a Microsoft Most Valuable Professional (MVP) for SQL Server. He is currently a Senior Program Manager on the SQL Server Integration Services team.

# ACKNOWLEDGMENTS

**THANKS TO EVERYONE** who made this book possible. As always, I owe a huge debt to my wife Jenn, for putting up with my late nights, and to my children, Colton, Liam, Camille, and my newest son John, for being so patient with their tired dad who has always overextended. Thanks to Kevin Kent and my tech editors Matthew Roche and Wee-Hyong Tok for keeping me in my place. Thanks also to the makers of Guinness for providing my special juice that helped me power through the book. Thanks for all the user group leaders out there who work so hard to help others become proficient in technology. You make a huge difference! Finally, thanks to my acting coach Shawn Harrison for getting me ready for my debut this fall.

—BRIAN KNIGHT

**MANY PEOPLE** to thank . . . First thanks again to Brian and the Wrox team for another opportunity to participate in a grand book adventure. You'll notice that for this book, I dedicated it to my wonderful parents. Thanks for buying me that Commodore 64 way back, and of course, thanks for the opportunity to be your perpetual help desk support. (What technologist isn't the family's help desk support?) I'll never forget the call about the virus where your desktop icons would move away from the mouse pointer, or the "issue" last year with the printer not working (plugging it in does wonders).

I would like to commend Discovery Channel's documentary *How Beer Saved the World*. This book is an indirect proof of its theory. As always, thanks to my elegant wife Amy and to our kids for their patience and tolerance. I would also like to recognize John Calvin (my philosophical and theological hero) and the reformers —Soli Deo Gloria.

—ERIK VEERMAN

**I AM TRULY THANKFUL** to the many people who have helped me throughout my career. Most recently, I would like to thank my coauthors and editors on this book: Brian Knight, Erik Veerman, Mike Davis, Chris Rock, Matthew Roche, Wee-Hyong Tok, Kevin Kent, Bob Elliott, and the rest of the Wrox team. It definitely takes a village to raise a child, and our "baby" was no exception. Thank you also to my wonderful family and friends who stood by me through late nights and caffeine overloads. I would not be here without every one of you. Thank you.

—JESSICA M. MOSS

**THANKS TO** my Pragmatic Works Team for its support in this book. Thank you to Brian Knight for giving me the opportunity of a lifetime. Thank you to Adam Jorgensen for pushing me. Thank you to the Wiley team, especially Kevin and Bob. Thank you to the technical editors for their help in making this book great. Thank you to my mother for raising me to be the man I am today. Thank you to my wife and kids for being by my side. And finally, thank you to the Flying Spaghetti Monster for showing me the way of logic and reasoning.

—MIKE DAVIS

**THANKS TO** everyone who made this book possible. I want to thank my wife, Tammy, for putting up with “I’m writing the book” for the last few months. Thank you to my two girls, Calista and Callie. Without you two I wouldn’t have tried so hard to achieve the goals I’ve reached in my life. Thanks to Matt Masson for answering any questions I had during this process. Thanks to Brian Knight for giving me the opportunity to contribute to this book. Finally, thanks to Andy Warren for setting me on the right professional development path all those years ago.

—CHRIS ROCK

## *INTRODUCTION*

*xxix*

---

## **CHAPTER 1: WELCOME TO SQL SERVER INTEGRATION SERVICES** **1**

<b>SQL Server SSIS Historical Overview</b>	<b>2</b>
<b>What's New in SSIS</b>	<b>2</b>
<b>Tools of the Trade</b>	<b>2</b>
Import and Export Wizard	3
The SQL Server Data Tools Experience	4
<b>SSIS Architecture</b>	<b>5</b>
Packages	5
Control Flow	6
Data Flow	9
Variables	13
Parameters	14
Error Handling and Logging	14
<b>Editions of SQL Server</b>	<b>14</b>
<b>Summary</b>	<b>15</b>

---

## **CHAPTER 2: THE SSIS TOOLS** **17**

<b>Import and Export Wizard</b>	<b>17</b>
<b>SQL Server Data Tools</b>	<b>23</b>
<b>Creating Your First Package</b>	<b>25</b>
<b>The Solution Explorer Window</b>	<b>26</b>
The Toolbox	27
The Properties Windows	28
<b>The SSIS Package Designer</b>	<b>28</b>
Control Flow	29
Connection Managers	32
Variables	32
Data Flow	34
Parameters	34
Event Handlers	34
Package Explorer	35
Executing a Package	36
<b>Management Studio</b>	<b>36</b>
<b>Summary</b>	<b>37</b>

---

<b>CHAPTER 3: SSIS TASKS</b>	<b>39</b>
<b>SSIS Task Objects</b>	<b>40</b>
Using the Task Editor	40
The Task Editor Expressions Tab	40
SSDTCommon Properties	41
<b>Looping and Sequence Tasks</b>	<b>42</b>
<b>Script Task (.NET)</b>	<b>43</b>
<b>Analysis Services Tasks</b>	<b>45</b>
Analysis Services Execute DDL Task	45
Analysis Services Processing Task	46
Data Mining Query Task	46
<b>Data Flow Task</b>	<b>47</b>
<b>Data Preparation Tasks</b>	<b>48</b>
Data Profiler	48
File System Task	50
Archiving a File	52
FTP Task	53
Getting a File Using FTP	54
Web Service Task	55
Retrieving Data Using the Web Service Task and XML Source Component	57
XML Task	60
Validating an XML File	62
<b>RDBMS Server Tasks</b>	<b>64</b>
Bulk Insert Task	64
Using the Bulk Insert Task	67
Execute SQL Task	68
<b>Workflow Tasks</b>	<b>80</b>
Execute Package Task	80
Execute Process Task	81
Message Queue Task	82
Send Mail Task	83
WMI Data Reader Task	84
WMI Event Watcher Task	86
Polling a Directory for the Delivery of a File	86
<b>SMO Administration Tasks</b>	<b>87</b>
Transfer Database Task	88
Transfer Error Messages Task	89
Transfer Logins Task	89
Transfer Master Stored Procedures Task	90

---

Transfer Jobs Task	91
Transfer SQL Server Objects Task	91
<b>Summary</b>	<b>92</b>
<b>CHAPTER 4: CONTAINERS</b>	<b>93</b>
<hr/>	
<b>Task Host Containers</b>	<b>93</b>
<b>Sequence Containers</b>	<b>94</b>
<b>Groups</b>	<b>95</b>
<b>For Loop Container</b>	<b>95</b>
<b>Foreach Loop Container</b>	<b>97</b>
Foreach File Enumerator Example	98
Foreach ADO Enumerator Example	100
<b>Summary</b>	<b>103</b>
<b>CHAPTER 5: THE DATA FLOW</b>	<b>105</b>
<hr/>	
<b>Understanding the Data Flow</b>	<b>105</b>
<b>Data Viewers</b>	<b>106</b>
<b>Sources</b>	<b>106</b>
OLE DB Source	107
Excel Source	109
Flat File Source	110
Raw File Source	114
XML Source	115
ADO.NET Source	115
<b>Destinations</b>	<b>115</b>
Excel Destination	116
Flat File Destination	116
OLE DB Destination	116
Raw File Destination	117
Recordset Destination	117
SQL Server and Mobile Destinations	118
Data Mining Model Training	118
DataReader Destination	118
Dimension and Partition Processing	118
<b>Common Transformations</b>	<b>119</b>
Synchronous versus Asynchronous Transformations	119
Aggregate	119
Conditional Split	121
Data Conversion	122
Derived Column	122
Lookup	123

---

Row Count	124
Script Component	125
Slowly Changing Dimension	126
Sort	126
Union All	127
<b>Other Transformations</b>	<b>128</b>
Audit	128
Character Map	129
Copy Column	130
Data Mining Query	130
DQS Cleansing	131
Export Column	131
Fuzzy Lookup	133
Fuzzy Grouping	138
Import Column	142
Merge	144
Merge Join	144
Multicast	145
OLE DB Command	145
Percentage and Row Sampling	147
Pivot Transform	147
Unpivot	150
Term Extraction	152
Term Lookup	156
<b>Data Flow Example</b>	<b>157</b>
<b>Summary</b>	<b>160</b>
<b>CHAPTER 6: USING VARIABLES, PARAMETERS, AND EXPRESSIONS</b>	<b>161</b>
<b>Dynamic Package Objects</b>	<b>162</b>
Variable Overview	162
Parameter Overview	162
Expression Overview	163
<b>Understanding Data Types</b>	<b>164</b>
SSIS Data Types	164
Date and Time Type Support	166
How Wrong Data Types and Sizes Can Affect Performance	167
Unicode and Non-Unicode Conversion Issues	167
Casting in SSIS Expressions	169
<b>Using Variables and Parameters</b>	<b>170</b>
Defining Variables	170

---

Defining Parameters	171
Variable and Parameter Data Types	172
<b>Working with Expressions</b>	<b>173</b>
C#-Like? Close, but Not Completely	174
The Expression Builder	175
Syntax Basics	176
Using Expressions in SSIS Packages	190
<b>Summary</b>	<b>200</b>
<b>CHAPTER 7: JOINING DATA</b>	<b>201</b>
<hr/>	
<b>The Lookup Transformation</b>	<b>202</b>
<b>Using the Merge Join Transformation</b>	<b>203</b>
<b>Contrasting SSIS and the Relational Join</b>	<b>203</b>
<b>Lookup Features</b>	<b>206</b>
<b>Building the Basic Package</b>	<b>207</b>
Using a Relational Join in the Source	209
Using the Merge Join Transformation	211
<b>Using the Lookup Transformation</b>	<b>216</b>
Full-Cache Mode	216
No-Cache Mode	219
Partial-Cache Mode	220
Multiple Outputs	223
Expressionable Properties	226
Cascaded Lookup Operations	227
<b>Cache Connection Manager and Cache Transform</b>	<b>229</b>
<b>Summary</b>	<b>231</b>
<b>CHAPTER 8: CREATING AN END-TO-END PACKAGE</b>	<b>233</b>
<hr/>	
<b>Basic Transformation Tutorial</b>	<b>233</b>
Creating Connections	234
Creating the Control Flow	237
Creating the Data Flow	237
Completing the Package	239
Saving the Package	239
Executing the Package	240
<b>Typical Mainframe ETL with Data Scrubbing</b>	<b>241</b>
Creating the Data Flow	242
Handling Dirty Data	242
Finalizing	246
Handling More Bad Data	247

---

Looping and the Dynamic Tasks	250
Looping	250
Making the Package Dynamic	250
<b>Summary</b>	<b>252</b>
<b>CHAPTER 9: SCRIPTING IN SSIS</b>	<b>253</b>
<hr/>	
<b>Introducing SSIS Scripting</b>	<b>253</b>
<b>Getting Started in SSIS Scripting</b>	<b>255</b>
Selecting the Scripting Language	255
Using the VSTA Scripting IDE	256
Example: Hello World	257
Adding Code and Classes	259
Using Managed Assemblies	260
Example: Using Custom .NET Assemblies	261
<b>Using the Script Task</b>	<b>264</b>
Configuring the Script Task Editor	265
The Script Task Dts Object	266
Accessing Variables in the Script Task	267
Connecting to Data Sources in a Script Task	271
Raising an Event in a Script Task	281
Writing a Log Entry in a Script Task	287
<b>Using the Script Component</b>	<b>288</b>
Differences from a Script Task	288
Configuring the Script Component Editor	289
Accessing Variables in a Script Component	291
Connecting to Data Sources in a Script Component	292
Raising Events	292
Logging	293
Example: Data Validation	294
Synchronous versus Asynchronous	302
<b>Essential Coding, Debugging, and Troubleshooting Techniques</b>	<b>305</b>
Structured Exception Handling	305
Script Debugging and Troubleshooting	308
<b>Summary</b>	<b>311</b>
<b>CHAPTER 10: LOADING A DATA WAREHOUSE</b>	<b>313</b>
<hr/>	
<b>Data Profiling</b>	<b>315</b>
Initial Execution of the Data Profiling Task	315
Reviewing the Results of the Data Profiling Task	317
Turning Data Profile Results into Actionable ETL Steps	321
<b>Data Extraction and Cleansing</b>	<b>322</b>

---

<b>Dimension Table Loading</b>	<b>322</b>
Loading a Simple Dimension Table	323
Loading a Complex Dimension Table	327
Considerations and Alternatives to the SCD Transformation	335
<b>Fact Table Loading</b>	<b>337</b>
<b>SSAS Processing</b>	<b>345</b>
<b>Using a Master ETL Package</b>	<b>350</b>
<b>Summary</b>	<b>351</b>
<b>CHAPTER 11: ADVANCED DATA CLEANSING IN SSIS</b>	<b>353</b>
<hr/>	
<b>Advanced Derived Column Use</b>	<b>354</b>
Text Parsing Example	355
<b>Advanced Fuzzy Lookup and Fuzzy Grouping</b>	<b>357</b>
Fuzzy Lookup	357
Fuzzy Grouping	363
<b>DQS Cleansing</b>	<b>366</b>
Data Quality Services	366
DQS Cleansing Transformation	370
<b>Summary</b>	<b>373</b>
<b>CHAPTER 12: USING THE RELATIONAL ENGINE</b>	<b>375</b>
<hr/>	
<b>Data Extraction</b>	<b>376</b>
SELECT * Is Bad	376
WHERE Is Your Friend	377
Transform during Extract	378
Many ANDs Make Light Work	381
SORT in the Database	382
Modularize	384
SQL Server Does Text Files Too	385
Using Set-Based Logic	389
<b>SQL Server Change Data Capture</b>	<b>391</b>
Benefits of SQL Server CDC	392
Preparing CDC	393
Capture Instance Tables	394
The CDC API	396
Using the New SSIS CDC Tools	398
Querying CDC in SSIS	401
<b>Data Loading</b>	<b>405</b>
Database Snapshots	406
The MERGE Operator	408
<b>Summary</b>	<b>411</b>

---

<b>CHAPTER 13: ACCESSING HETEROGENEOUS DATA</b>	<b>413</b>
<b>Excel and Access</b>	<b>415</b>
64-Bit Support	415
Working with Excel Files	417
Working with Access	421
<b>Importing from Oracle</b>	<b>427</b>
Oracle Client Setup	428
Importing Oracle Data	429
<b>Using XML and Web Services</b>	<b>431</b>
Configuring the Web Service Task	431
Working with XML Data as a Source	439
<b>Flat Files</b>	<b>442</b>
Loading Flat Files	443
Extracting Data from Flat Files	444
<b>ODBC</b>	<b>447</b>
<b>Other Heterogeneous Sources</b>	<b>450</b>
<b>Summary</b>	<b>451</b>
<b>CHAPTER 14: RELIABILITY AND SCALABILITY</b>	<b>453</b>
<b>Restarting Packages</b>	<b>453</b>
Simple Control Flow	455
Containers within Containers and Checkpoints	457
Variations on a Theme	459
Inside the Checkpoint File	461
<b>Package Transactions</b>	<b>463</b>
Single Package, Single Transaction	464
Single Package, Multiple Transactions	466
Two Packages, One Transaction	468
Single Package Using a Native Transaction in SQL Server	469
<b>Error Outputs</b>	<b>471</b>
<b>Scaling Out</b>	<b>473</b>
Architectural Features	474
Scaling Out Memory Pressures	474
Scaling Out by Staging Data	475
Scaling Out with Parallel Loading	479
<b>Summary</b>	<b>485</b>

---

<b>CHAPTER 15: UNDERSTANDING AND TUNING THE DATA FLOW ENGINE</b>	<b>487</b>
<b>The SSIS Engine</b>	<b>488</b>
Understanding the SSIS Data Flow and Control Flow	488
Handling Workflows with the Control Flow	491
Data Processing in the Data Flow	491
Memory Buffer Architecture	492
Types of Transformations	493
Advanced Data Flow Execution Concepts	501
<b>SSIS Data Flow Design and Tuning</b>	<b>508</b>
Data Flow Design Practices	508
Optimizing Package Processing	513
Troubleshooting Data Flow Performance Bottlenecks	516
<b>Pipeline Performance Monitoring</b>	<b>518</b>
<b>Summary</b>	<b>520</b>
<b>CHAPTER 16: SSIS SOFTWARE DEVELOPMENT LIFE CYCLE</b>	<b>521</b>
<b>Introduction to Software Development Life Cycles</b>	<b>523</b>
SDLCs: A Brief History	524
Types of Software Development Life Cycles	524
<b>Versioning and Source Code Control</b>	<b>525</b>
Subversion (SVN)	526
Team Foundation Server, Team System, and SSIS	533
<b>Summary</b>	<b>547</b>
<b>CHAPTER 17: ERROR AND EVENT HANDLING</b>	<b>549</b>
<b>Using Precedence Constraints</b>	<b>549</b>
Precedence Constraint Basics	550
Advanced Precedence Constraints and Expressions	551
<b>Event Handling</b>	<b>557</b>
Events	558
Using Event Handlers	560
Event Handler Inheritance	567
<b>Breakpoints</b>	<b>569</b>
<b>Error Rows</b>	<b>572</b>
<b>Logging</b>	<b>576</b>
Logging Providers	577
Log Events	577
Catalog Logging	582
<b>Summary</b>	<b>584</b>

---

<b>CHAPTER 18: PROGRAMMING AND EXTENDING SSIS</b>	<b>585</b>
<b>The Sample Components</b>	<b>586</b>
Component 1: Source Adapter	586
Component 2: Transform	587
Component 3: Destination Adapter	588
<b>The Pipeline Component Methods</b>	<b>588</b>
Design-Time Functionality	589
Runtime	593
Connection Time	594
<b>Building the Components</b>	<b>596</b>
Preparation	596
Building the Source Component	602
Building the Transformation Component	614
Building the Destination Adapter	625
<b>Using the Components</b>	<b>633</b>
Installing the Components	633
Debugging Components	634
Design Time	635
Building the Complete Package	636
Runtime Debugging	637
<b>Upgrading to SQL Server 2012</b>	<b>641</b>
<b>Summary</b>	<b>641</b>
<b>CHAPTER 19: ADDING A USER INTERFACE TO YOUR COMPONENT</b>	<b>643</b>
<b>Three Key Steps for Designing the UI: An Overview</b>	<b>644</b>
<b>Building the User Interface</b>	<b>644</b>
Adding the Project	645
Implementing IDtsComponentUI	647
Setting the UITypeName	651
Building the Form	653
<b>Extending the User Interface</b>	<b>658</b>
Runtime Connections	658
Component Properties	661
Handling Errors and Warnings	663
Column Properties	665
<b>Other UI Considerations</b>	<b>667</b>
<b>Summary</b>	<b>667</b>

<b>CHAPTER 20: EXTERNAL MANAGEMENT AND WMI TASK IMPLEMENTATION</b>	<b>669</b>
<b>External Management of SSIS with Managed Code</b>	<b>670</b>
Setting Up a Test SSIS Package for Demonstration Purposes	670
The Managed Object Model Code Library	671
Catalog Management	672
Folder Management	673
Environments	674
The DTS Runtime Managed Code Library	676
SSIS Deployment Projects	676
Parameter Objects	677
Server Deployment	679
Executing SSIS Packages Deployed to the SSIS Catalog	680
EnvironmentReferences	681
<b>Package Operations</b>	<b>682</b>
<b>Application Object Maintenance Operations</b>	<b>683</b>
Package Operations	683
Package Monitoring	686
Project, Folder, and Package Listing	688
A Package Management Example	689
<b>Package Log Providers</b>	<b>699</b>
Specifying Events to Log	701
Programming to Log Providers	702
SQL Server 2012 Operation Logs	703
<b>Package Configurations</b>	<b>705</b>
Creating a Configuration	706
Programming the Configuration Object	707
Configuration Object	708
<b>Windows Management Instrumentation Tasks</b>	<b>709</b>
WMI Reader Task Explained	709
WMI Data Reader Example	710
WMI Event Watcher Task	715
WMI Event Watcher Task Example	716
<b>Summary</b>	<b>718</b>
<b>CHAPTER 21: USING SSIS WITH EXTERNAL APPLICATIONS</b>	<b>719</b>
<b>InfoPath Documents</b>	<b>720</b>
<b>ASP.NET Applications</b>	<b>727</b>
<b>Winform .NET Applications</b>	<b>731</b>
Executing a Package with T-SQL	736
<b>Summary</b>	<b>741</b>

---

<b>CHAPTER 22: ADMINISTERING SSIS</b>	<b>743</b>
<b>Using the SSIS Catalog</b>	<b>743</b>
Setting the SSIS Catalog Properties	744
SSISDB	747
<b>Deployment Models</b>	<b>748</b>
Project Deployment Model	749
Package Deployment Model	751
<b>Using T-SQL with SSIS</b>	<b>757</b>
Executing Packages	757
Using Parameters	758
Querying Tables for Parameter Values	759
Using Environments	760
Using Data Taps	765
<b>Creating a Central SSIS Server</b>	<b>766</b>
<b>Clustering SSIS</b>	<b>768</b>
<b>Package Configuration</b>	<b>770</b>
<b>Command-Line Utilities</b>	<b>774</b>
DTEExec	774
DTEExecUI	775
DTUtil	780
<b>Security</b>	<b>782</b>
Securing the SSIS Catalog	782
Legacy Security	785
<b>Scheduling Packages</b>	<b>787</b>
SQL Server Agent	787
Proxy Accounts	789
<b>64-Bit Issues</b>	<b>790</b>
<b>Monitoring Package Executions</b>	<b>791</b>
Built-in Reporting	791
Custom Reporting	795
<b>Performance Counters</b>	<b>796</b>
<b>Summary</b>	<b>796</b>
<b>CHAPTER 23: CASE STUDY: A PROGRAMMATIC EXAMPLE</b>	<b>797</b>
<b>What You Will Take Away</b>	<b>798</b>
<b>Background</b>	<b>798</b>
<b>Business Problem</b>	<b>799</b>
<b>Solution Summary</b>	<b>799</b>
<b>Solution Architecture</b>	<b>801</b>
Naming Conventions and Tips	804
Additional SSIS Tips Before You Start a Large Project	805

---

<b>Data Architecture</b>	<b>805</b>
File Storage Location Setup	806
Bank ACH Payments	806
Lockbox Files	807
PayPal or Direct Credits to the Corporate Account	808
Case Study Database Model	808
Database Setup	810
<b>Case Study Load Packages</b>	<b>819</b>
Bank File Load Package	819
ACH Load Package	845
E-mail Load Package	861
Testing	866
<b>Case Study Invoice Matching Process</b>	<b>867</b>
Matching Process Control Flow	867
Matching Process High-Confidence Data Flow	870
Matching Process Medium-Confidence Data Flow	875
Interpreting the Results	879
<b>Creating a Parent Driver Package</b>	<b>880</b>
Driver Package Setup	880
<b>Summary</b>	<b>881</b>
 <b>INDEX</b>	 <b>883</b>
