*An Apology for South Park: Getting in Touch
with Your Inner Cartman*
The Talking Cure for Our Culture

Chapter 2: The Chewbacca Defense: A South Park Logic Lesson

It Does Not Make Sense!
Dude, Listen to Reason
You're Not Asleep Yet, Are You?
*If Chewbacca Lives on Endor, You Must
Acquit*
The Defense Rests

Chapter 3: Wikiality, Truthiness, and Gut Thinking: Doing Philosophy Colbert-Style

My Truth (Individual Relativism)
Wikiality (Cultural Relativism)
Truthiness (Intuitionism)
A Right to Your Opinion
How to do Philosophy

Part II: Epistemology.

Introduction

Chapter 4: You Know, I Learned Something Today: Stan Marsh and the Ethics of Belief

If Evidence is Lacking, So What?
Belief and Evidence
Faith vs. Reason
Prudential Reasons vs. Evidence
What's The Harm, Dude?
Inquiry, Hard Work, and Progress

Chapter 5: Tumbling Down the Rabbit Hole: Knowledge, Reality, and the Pit of Skepticism

The Skeptical Dilemma: Cartesian Dreams and Demons
Skepticism within the Matrix
How Deep Does the Rabbit Hole Go?
Skepticism Outside the Matrix

Chapter 6: Adama's True Lie: Earth and the Problem of Knowledge

"You're Right. There's No Earth. It's All a Legend"
"I'm Not a Cylon! ... Maybe, But We Just Can't Take That Chance"
"You Have to Have Something to Live For. Let it be Earth"

Part III: Metaphysics

Introduction

Chapter 7: Mind and Body in Zion

The Matrix Scenario
Mystery and Miracles
Mind-Body Dualism
Mind-Body Materialism
Mental States: Reduction or Elimination?
The Role of Matter: Biology or Function?

Chapter 8: Amnesia, Personal Identity, and the Many Lives of Wolverine

What Is Personal Identity?
Cassandra Nova, Charles Xavier, and John Locke
Bringing It All Back to Wolverine
Jamie Madrox and Derek Parfit
Bringing It All Back to Wolverine (Again)
Be Slow to Judge

Chapter 9: Destiny in the Wizarding World

Varieties of Prophecy
Fallible Prophecies
Self-Fulfilling Prophecies
Destiny
A Rodent's Destiny
Time Travel and Fixed Time

Chapter 10: The Terminator Wins: Is the Extinction of the Human Race the

End of People, or Just the Beginning?

“Hi There ... Fooled You! You’re Talking to a Machine.”

“It’s Not a Man. It’s a Machine.”

“Skynet Becomes Self-Aware at 2:14 am Eastern Time, August 29th.”

“Cyborgs Don’t Feel Pain. I Do.”

Part IV: Philosophy of Religion

Introduction

Chapter 11: Cartmanland and the Problem of Evil

There’s No God, Dude!

And That’s It?!? The Story of Job

The Sweet Milk of Our Tears

You Are Up There!

Jesus Christ and John Hick: The Soul Making Theodicy

Chapter 12: Aquinas and Rose on Faith and Reason

What Can We Know?

Chain of Truth

Rose Colored Glasses

Does Rose Really Know?

Do We Really Know?

“I have made my peace” - Rose

**Does Rose Presume to Know?
To Know ... and Believe**

Chapter 13: "I Am an Instrument of God": Religious Belief, Atheism, and Meaning

**"A Rational Universe Explained Through
Rational Means"**

"That Is Sin. That Is Evil. And You Are Evil"

**"You Have a Gift, Kara ... And I'm Not
Gonna Let You Piss That Away"**

**"The Gods Shall Lift Those Who Lift Each
Other"**

"You Have to Believe in Something"

Part V: Ethics

Introduction

Chapter 14: Plato on Gyges' Ring of Invisibility: The Power of Heroes and the Value of Virtue

Claire's Thumos Saved the World

Claire Is Logical; Spock Is Not

The Virtue That Sylar Lacks

Superpowers and Super-Vices

Why Claire Apologized

But Isn't It Only Natural?

Chapter 15: The Virtues of Humor: What The Office Can Teach Us About Aristotle's Ethics

Virtues and Vices

Wit and Virtue

**David Brent: Regional Manager, Chilled-Out
Entertainer, Buffoon**

**Gareth Keenan: Assistant (to the) Regional
Manager, Territorial Army Lieutenant, Boor**

**Tim Canterbury: Senior Sales Clerk,
Unrequited Lover, Ironic Wit**

Lessons Learned

Chapter 16: Why Doesn't Batman Kill the Joker?

Meet the Joker

**Is Batman a Utilitarian or Deontologist? (Or
None of the Above?)**

To the Bat-Trolley, Professor Thomson!

Hush Will Love This Next Story ...

**Top Ten Reasons the Batmobile Is Not a
Trolley ...**

**"I Want My Lawyer! Oh, That's Right, I
Killed Him Too"**

So, Case Closed - Right?

Chapter 17: Means, Ends, and the Critique of Pure Superheroes

*“In the end’? Nothing ends, Adrian.
Nothing ever ends.”*

The Utilitarians Strike Back

*“Even in the face of Armageddon I shall not
compromise in this.”*

“Who watches the watchmen?”

Part VI: Challenges to Traditional Ethics

Introduction

Chapter 18: Metallica, Nietzsche, and Marx: The Immorality of Morality

Morality and Power

Metallica and Rebellion

Metallica, Nihilism, and Nostalgia

Chapter 19: When Machines Get Souls: Nietzsche on the Cylon Uprising

Master Morality and Slave Morality

Escaping Slavery by Creating Souls

The Spiritual Move from Slave to Equal

“They Have a Plan”

Chapter 20: Being-in-The Office: Sartre, the Look, and the Viewer

Bad Faith and the Look

Pam Beesley's Shame and the Camera's Unwelcomed Look

David Brent's Pride and the Welcomed Look of the Camera

The Viewer and the Look

Chapter 21: Batman's Confrontation with Death, Angst, and Freedom

A Determined Batman?

Alfred and Appearance

Thrown into Our Worlds

Death and the Dark Knight

I Shall Become a Bat

Determinism and the Dark Knight

Chapter 22: "You Care for Everybody": Cameron's Ethics of Care

Beyond "Doctor Knows Best": Feminist Ethics

"It Almost Looks Like He's ... Caring": The Ethic of Care

Does Cameron Care Too Much?

You're Basically "a Stuffed Animal Made by Grandma"

Chapter 23: Vampire Love: The Second Sex Negotiates the Twenty-First Century

Back in Time

The Second Sex in the Twenty-first Century
A Feminist Subtext
The Price of Existence

**Chapter 24: Killing the Griffins: A
Murderous Exposition of
Postmodernism**

Family Guy is Real

Family Guy is Serious

Family Guy Must Die! Long Live Family Guy!

**Part VII: Social and Political
Philosophy**

Introduction

Chapter 25: Lost's State of Nature

Lining up for Peace

Human Nature and Natural Man

Amid the Wreckage

The Longer Haul

Over or Under the Language Barrier

Confidence and the Con Men

Roles and Rules

Tit-for-Tat

Gaining Trust from the Past

**Chapter 26: Laughter Between
Distraction and Awakening: Marxist**

Themes in The Office

The Class That Dare Not Speak Its Name

Reading Marx at Work

Running Out the Clock

Downsizing Dreams

Chapter 27: The Ethics of Torture in 24: Shockingly Banal

Cultural Context of Torture

Defining Torture

Arguments for Torture

Arguments Against Torture

It's Not That Simple

Chapter 28: Mutants and the Metaphysics of Race

Race and the X-Gene

Mutants and Biological Race

Mutants and Social Races

The Difference between Mutants and Race

Mutants as Racelike

Part VIII: Eastern Views

Introduction

Chapter 29: Zen and the Art of Cylon Maintenance

“Life is a Testament to Pain”: Suffering, Ignorance, and Interdependent Arising

***“All of This Has Happened Before ...”:
Karma and Rebirth***

“God Has a Plan for You, Gaius”: Religion, God, and Kenōsis

“How Could Anyone Fall in Love with a Toaster?” Cylons as Persons?

Chapter 30: The Sound of One House Clapping: The Unmannerly Doctor as Zen Rhetorician

House, Zen, and Making Sense

A Style of Behaving Ethically

A Way of Establishing Intimacy

A Path to Truth, and a Method of Healing

House Sitting

Chapter 31: The Tao of the Bat

Part IX: The Meaning of Life

Introduction

Chapter 32: Beyond Godric’s Hollow: Life after Death and the Search for Meaning

Death and Philosophy

The Approaching Battle

King’s Cross Station

Reap a Destiny

**Chapter 33: Selfish, Base Animals
Crawling Across the Earth: House and
the Meaning of Life**

**“If You Talk to God, You’re Religious; If God
Talks to You, You’re Psychotic”**

Eternity, Anyone?

**“If Her DNA Was Off by One Percentage
Point, She’d Be a Dolphin”**

**“You Could Think I’m Wrong, but That’s No
Reason to Stop Thinking”**

House and the Life of Reason

Acknowledgments

We would like to thank our friends and colleagues who offered feedback and advice in assembling this volume, especially Dave Baggett, Greg Bassham, and Jason Eberl. We would also like to thank Andrew Morton for permission to use his glossary definitions. Thanks are also due to Jeff Dean and a bevy of anonymous reviewers who helped us shape the volume. Kyle wishes to thank his wife Lori for her love and support. Bill wishes to thank his wife Megan and his children Daniel and Kate for making home so happy and philosophy-friendly.

Introduction

Philosophy has a public relations problem. Just the sound of the word “philosophy” scares a lot of people, conjuring images of long-dead Greeks and crusty old professors. But the stereotypes of philosophy are just that – stereotypes. They are mistaken exaggerations and overgeneralizations. Western Philosophy may have begun in Ancient Greece, but it is alive and well in contemporary America and around the globe. Some philosophy professors may be egg-headed, ivory tower intellectuals, but most are not. In fact, many philosophy professors like the same things you like: television, movies, music, and video games. We see connections between these elements of pop culture and philosophy. So this book, written by philosophy professors, takes you from pop culture to philosophy; we wade into the shallow water before swimming out deep. Each chapter focuses on a piece of pop culture, like *Harry Potter* or *The Office*, and teaches you about a particular issue in philosophy or the views of a particular philosopher. We think you’ll agree that, to paraphrase a classic Disney truism, a spoonful of pop culture helps the philosophy go down.

The idea of using examples to facilitate learning is not new to philosophy. Famously, Plato (429–347 BCE) used the story of the ring of Gyges, and Descartes (1596–1650) imagined a deceitful demon. However, most examples in philosophy are rather dry – finding people with bland names like Jones and Brown in difficult to describe circumstances, such as those in which we are potentially justified in believing that “Jones owns a Ford, or Brown is in Barcelona.” Thankfully, Hollywood writers do a much better job of creating engaging, imaginative scenarios than philosophers do. So why not use their creations to add spice to philosophy? As you’ll discover in this book, *The Matrix* provides a vivid way

of picturing Descartes' concerns about deception and knowledge, and *South Park* hilariously dramatizes the problem of evil by asking why good things (like inheriting a million dollars) happen to bad people (like Cartman). Indeed, many other insightful philosophical illustrations from pop culture await your reading.

Now, of course, you may be concerned that you're in trouble because in addition to being clueless about philosophy you're also clueless about *The Matrix* and *South Park*. There's no need to worry. You don't have to be an expert on Batman or to have seen every episode of *House* to benefit from this book. Even a passing acquaintance with the pop culture icon discussed in any given chapter will be enough for you to learn the philosophy to which it is connected. You can get that easily enough on the Internet. In fact, you can visit the website for this book at www.pop-philosophy.org for all kinds of helpful up-to-date links.

In sum, this book is intended to make initial connections between pop culture and philosophy that will pique your interest in the latter and lead you to study and appreciate the subject more deeply. Maybe you'll even decide to tell your friends that philosophy has gotten a bad rap. Certainly, we believe you'll find that philosophy is relevant, fun, and exciting.

How to Use this Book in a Philosophy Course

This book is intended to serve primarily as a supplementary text in Introduction to Philosophy courses. Introductory courses are structured in a variety of different ways depending on the professor. Some courses are questions and issues based, some are historically based. Some courses use a standard textbook; others rely on primary

philosophical texts. Others mix it up and use a combination of approaches. This book is designed to go along with any of them. However, this book is not intended to cover all philosophical issues and figures in exhaustive detail. We leave that for the main text and the professor.

This book can be used in a variety of ways in the classroom. Its chapters can be used to introduce a philosophical topic unfamiliar to the student. Assigning a summary of the chapter can ensure the student reads it and is better prepared for a lecture on the topic of the chapter. Each chapter could also be used for philosophical reflection; you might consider having your students write reflection or argument papers in response to them. If you are worried about whether your students are familiar with the relevant pop culture phenomena, there is a wiki site for each pop culture phenomenon discussed (e.g., heroeswiki.com) that can provide a quick and easy summary. Other suggestions for professors on how to use this book in courses are available at www.pop-philosophy.org.

Part I

What is Philosophy?

Introduction

The word “philosophy” is often confused with the words “opinion,” “theory” or “approach” – as in, “What is your philosophy of life?” or “Our philosophy is never to be undersold!” As a result, some students have mistaken ideas about what a philosophy class is. “Can you even give a wrong answer in a philosophy class? Isn’t it just whatever you think?” Well, yes you can, and no it’s not.

The word “philosophy” comes from the Greek language and means “love of wisdom.” Philosophers seek truth and wisdom above all else. The questions for which true answers are most important, but most elusive, form the core of philosophy. What is the nature of reality? What is knowledge, and how can one attain it? Is there a God? What is the nature of good and evil? How can I live a good life? How should we govern ourselves? What is the meaning of life? So how do philosophers seek answers these questions? Are there really answers? Or is whatever anyone thinks just “true for them” because they have a “right to their opinion”? What role does philosophy play in society? And, what attitude does philosophy require?

In his chapter, William Young argues that philosophy and the TV show *South Park* share some common aims. Like the philosopher Socrates (469–399 BCE), *South Park* is charged with corrupting the youth, inappropriately challenging moral norms, and being a social nuisance. But, the accusations are

unfounded for both Socrates and *South Park*. The accusers are actually the corruptors; for example, parents corrupt the youth when they leave their kids to be raised by television without educating them about what they are seeing. Thankfully *South Park*, like Socrates, teaches us to draw our own conclusions – not merely accept the consensus of the crowd – and to reach those conclusions by considering the perspectives of others. Clearly, Young argues, *South Park* is not mindless and harmful; the show, like philosophy, is a gadfly, “an annoying pest that goes around ‘stinging people’ with ... challenging questions and critical reflections so as to keep them intellectually awake and on their toes.”

Philosophers’ appetite for truth is insatiable, but they do not always agree. To solve their disputes they use logic. In his chapter, Robert Arp takes examples from *South Park* to teach some of the basics of logic including the structure of arguments, the differences between good and bad arguments, and the distinction between inductive and deductive arguments. The lesson concludes with common logical fallacies, illustrated by *South Park* for comedic effect. In one classic episode, for example, the cartoon version of Johnnie Cochran commits the red-herring fallacy by suggesting that Chef must not have written the Alanis Morissette song “Stinky Britches” because Chewbacca spent most of his time on Endor: “If Chewbacca lives on Endor, you must acquit.”

South Park is not the only show that plays philosopher. Late night political talk shows, like *The Daily Show* and *The Colbert Report*, are gadflies as well. In his chapter, David Kyle Johnson uses Stephen Colbert to teach us about the philosophical attitude. Relativism (what Colbert calls “wikiality”) and intuitionism (what Colbert calls “truthiness”) are contrary to the endeavor of philosophy. More importantly, Johnson enlists Colbert to dispel a myth that holds back almost every philosophy course – the myth that

everyone has a right to their opinion. Attempts to end philosophical discussion with appeals to “a right to my opinion” only reveal a disregard for truth and a desire to protect entrenched beliefs. Real philosophers must be willing to give up disproven beliefs and embrace the truth.

Chapter 1

Flatulence and Philosophy

A Lot of Hot Air, or the Corruption of Youth?

William W. Young III

Summary

Though Trey Parker and Matt Stone haven't been killed for it yet (they did receive death threats after their 200th episode) the creators of *South Park* have faced accusations much like those that led to Socrates' execution: the corruption of youth and the teaching of vulgar, irreligious behavior. A closer examination, however, reveals that *South Park* is very much within the Platonic tradition, as Kyle and Stan engage in questioning and dialogue in order to "learn something today." Moreover, the mob mentality of the parents, along with the malicious yet mimetic evil of Cartman, demonstrates how evil emerges from thoughtlessness: a failure to ask if one can live with oneself, and a failure to put oneself in the place of others. Through its different characters, and even in its apparently mindless vulgarity, *South Park* shows the need for engaging in dialogue, and thinking from others' perspectives, in order to pursue wisdom, examine life, and make it worth living.

The "Danger" of *South Park*

In the episode "Death," Kyle's mother leads a boycott of the boys' favorite cartoon show - *Terrance and Philip* - because of its continuous farting, name-calling, and general "potty humor." While the parents are up in arms over this "moral"

issue, the boys wrestle with the problem of euthanasia for Stan's grandfather, something none of the parents will discuss with them. "Death" brings together many of the central issues that have made *South Park* successful and controversial: vulgarity, the misplaced moral concerns of American culture, the discussion of controversial moral topics, and the criticism that *South Park* itself is a "disgusting" show. Since "Death" the criticism of the show has only grown - getting even bigger than Cartman's fat ass - drawing fire for its obscene language, criticisms of religion, and emphasis upon freedom of speech.

Like the parents protesting *The Terrance and Philip Show*, critics of *South Park* make claims that are strikingly similar to those that have been leveled against Western philosophy since its beginnings. It mocks religious **beliefs**, leads younger folks to question accepted authority and values, and corrupts our children and culture. The "it" in the previous sentence refers to *South Park*, but in fact, the same criticisms formed the basis for Socrates' (470-399 BCE) trial and execution in Athens, Greece in 399 BCE.¹ So in this chapter we'll explore the heretical possibility that people perceive *South Park* as dangerous precisely because it is a form of philosophy. The "danger" that *South Park* poses has to do with its depiction of dialogue and free thinking. In the end we will have learned something: like Socrates, *South Park* harms no one. Philosophy and *South Park* actually instruct people and provide them with the intellectual tools they need to become wise, free, and good.

Oh My God! They Killed Socrates! You Bastards!

In Plato's (427-327 BCE) *Apology*, Socrates defends himself against two charges: (1) impiety (false teachings about the

gods, possibly that they don't exist) and (2) corrupting the youth of Athens. In reality, Socrates probably had as much chance of winning his case as Chef did against Johnny Cochran's "Chewbacca" defense! What is most important about Socrates' defense, however, is not so much what he says as *how* he says it. He defends himself by questioning his accuser, Meletus, leading him through a process of **reasoning**. For example, Socrates refutes the charge of corrupting the youth as follows:

SOCRATES: You say you have discovered the one who corrupts them, namely me, and you bring me here and accuse me to the jury ... All the Athenians, it seems, make the young into fine good men, except me, and I alone corrupt them. Is that what you mean?

MELETUS: That is most definitely what I mean.

SOCRATES: You condemn me to a great misfortune. Tell me: does this also apply to horses do you think? That all men improve them and one individual corrupts them? Or is quite the contrary true, one individual is able to improve them, or very few, namely the horse breeders, whereas the majority, if they have horses and use them, corrupt them? Is that not the case, Meletus, both with horses and all other animals? ... It would be a happy state of affairs if only one person corrupted our youth, while the others improved them. You have made it sufficiently obvious, Meletus, that you have never had any concern for our youth; you show your indifference clearly; that you have given no thought to the subjects about which you bring me to trial. (*Apology*, p. 30)

Through the analogy with horse training, Socrates shows how illogical the accusations against him really are. Just as a majority of people would injure horses by training them, and only a few good trainers improve them, so too it is likely that a few teachers improve the virtue of the youth, while many others corrupt them. Socrates argues, further, that he is in fact the one who is teaching Athens' youth what virtue involves, while many others - including the idiots sitting before him - corrupt them. (As you can imagine, this did not go over well with the jury.)

While showing that the accusations are groundless, this "apology" - a word that also can mean *defense* - demonstrates why Socrates got a death sentence of hemlock. Socrates is famous for saying "I know that I don't know" and, actually, this is a wise insight. For Socrates, philosophy was the love and pursuit of wisdom, and this

required questioning others to find out what they do or don't know. Unfortunately, people often believe they are wiser than they are. By questioning them, Socrates would show them that they don't know what they believe they know: "I go around seeking out anyone, citizen or stranger, whom I think wise. Then if I do not think he is, I come to the assistance of the god and show him that he is not wise" (*Apology*, pp. 28-9). What makes Socrates wise is his recognition of his own ignorance, through continuous questioning of himself and others. Many powerful people in Athens saw him as dangerous because his questioning and debate would undermine their bases for power.

In the town of South Park, people in positions of power believe they are teaching the children wisdom and virtue. However, as in Athens, the many people of South Park seem to make the children worse, not better. For example, Mr. Garrison "teaches" the children life lessons from re-runs of *Barnaby Jones*, Mrs. Broflovski always goes to crazy extremes with her "moral" outrage, Uncle Jim and Ned teach the boys to kill harmless bunnies and squirrels in "self-defense," and the mayor panders shamelessly to voters. None of the townsfolk really *talk* to the children, except Chef (God rest his soul), who taught the art of making sweet, sweet love to a woman. Blindly following the crowd, from protesting *The Terrance and Philip Show* to boy-cotting Harbucks, to - yes - burying their heads in the sand to avoid watching *Family Guy*, the parents of South Park corrupt the children far more than a television show ever could. Like the Athenians, the adults don't know as much as they believe they know. Ultimately, if television does corrupt them, it does so because they are left to it by their parents, with no one to educate them about what they are seeing. Of course, there are also cases where parents and people in powerful positions *do* try to discuss issues and **ideas** with the
