Dedicated

*to our advisors Prof. Shashi Shekhar and
Prof. David Lilja.*

Baris Kazar & Mete Celik

*To my wife Neslihan, my teacher parents
Mualla Hatice and Kemal, my brothers Ozgur
and Caglar, my parent in-laws Fadime and
Muzaffer, my brother in-law Emrullah, my
sister in-law Emriye, and my whole family.*

Baris Kazar

*To my wife Filiz, my son Cagri Fatih, my
daughter Elif Huma, my parents Fatma and
Metin, and my whole family.*

Mete Celik

Acknowledgements

We would like to thank our advisors Professor Shashi Shekhar and Professor David J. Lilja. Without their invaluable help, guidance, and endless support we would never be able to make this study a reality.

We also would like to thank Minnesota Supercomputing Institute (MSI), University of Minnesota Digital Technology Center (DTC) and Army High Performance and Computing Center (AHPCC), Department of Electrical and Computer Engineering, and Department of Computer Science and Engineering at the University of Minnesota and Department of Computer Engineering at Erciyes University for their financial support and permissions to use their facilities and computing resources.

We are very grateful to the all members of Spatial Database and Spatial Data Mining Group and ARCTiC Labs (Laboratory for Advanced Research in Computing Technology and Compilers) at the University of Minnesota and Birali Runesha and Dr. Shuxia Zhang at the Minnesota Supercomputing Institute for their valuable discussions, critiques, and contributions.

This research also benefited from discussions with many colleagues and friends. We would like to thank Professor Daniel Boley, Professor Pen Chung Yew, Professor Vipin Kumar, Dr. Siva Ravada, Dr. Joshua Yi, Chris Hescott, Dr. Sreekumar Kodakara, Dr. Ying Chen, Dr. Keqiang Wu, Dr. Alex Zhang, Professor Hui Xiong, Professor Sanjay Chawla, Dr. Betsy George, Professor Jin Soung Yoo, Dr. Sangho Kim, Professor Kelley Pace, Professor James P. LeSage, Professor Giannakis Georgios, Professor Resit Sendag, Cetin Yavuz, Professor Vladimir Cherkassky, Professor Paul Schrater, Professor Filiz Dadaser-Celik, Neslihan Erdogan Kazar (MBA), Dr. Shuxia Zhang, and Dr. Birali Runesha for participating in white board discussions, proof reading papers, discussing spatial autoregressive model (SAR) on the phone or on our presentations for hours with great patience, and helping us debugging serial and parallel codes.
