

Making Everything Easier!™

Physician Assistant Exam

FOR

DUMMIES®

Premier

Learn:

- How the PANCE and PANRE exams are organized and scored
- Which topics you know well by answering hundreds of test questions
- Test-taking strategies that will help you ace the exam

Review concepts with 300 flashcards and take 4 practice tests on the companion CD

Dr. Rich Snyder, DO

Certified internist and nephrologist

Barry Schoenborn

Coauthor of Medical Dosage Calculations For Dummies

Table of Contents

[Introduction](#)

[About This Book](#)

[Conventions Used in This Book](#)

[What You're Not to Read](#)

[Foolish Assumptions](#)

[How This Book Is Organized](#)

[Part I: Scratching the Surface of the PANCE
and PANRE](#)

[Part II: Getting to the Heart of the Test: Four
Foundational Systems](#)

[Part III: Reviewing Surgical Topics and Other
Organ Systems](#)

[Part IV: Pursuing Primary Care, Pharmacology,
and Behavioral Health](#)

[Part V: The Brain, Blood, Bugs, Skin, and
Glands](#)

[Part VI: Tackling a PANCE Practice Test](#)
[Part VII: The Part of Tens](#)
[CD-ROM](#)

[Icons Used in This Book](#)
[Where to Go from Here](#)

[Part I: Scratching the Surface of the PANCE and PANRE](#)

[Chapter 1: Becoming a Physician Assistant](#)

[Knowing What to Expect as a PA](#)

[Training to become a PA](#)
[What you do when you're a PA](#)
[Sizing up your prospects](#)

[Introducing the Tests](#)

[Getting your PANCE on](#)
[Reviewing for the PANRE](#)

[Chapter 2: Presenting the PANCE and PANRE](#)

[Beyond Studying: Preparing to Take the PANCE or PANRE](#)

[Applying to take the test](#)
[Locating the test center](#)
[Chillaxing before the test](#)

[Making It through Test Day](#)

Planning for a timely arrival
Getting in the door
Knowing what's allowed in the testing room
Knowing what to expect before and during the test
Looking at what happens after the test

Understanding How the Exam Is Scored
Familiarizing Yourself with the Test Format

Understanding the test organization
Checking out question topics
Examining the question structures
Knowing conventions

Part II: Getting to the Heart of the Test: Four Foundational Systems

Chapter 3: Tending to the Heart and the Great Vessels

Keeping Blood Pressure in Line

Defining hypertension
Handling essential and resistant hypertension
Helping extremely high pressure
Raising low blood pressure

Analyzing Acute Coronary Syndrome

Sorting out stable versus unstable angina

[Reviewing basic criteria for myocardial infarction](#)

[Knowing the NSTEMI and STEMI](#)

[Treating ACS](#)

[Reviewing variant angina](#)

[Clarifying Congestive Heart Failure](#)

[Seeing and treating systolic heart failure](#)

[Diagnosing and treating diastolic heart failure](#)

[Muscling In on the Cardiomyopathies](#)

[Dealing with dilated cardiomyopathy](#)

[Recognizing restrictive cardiomyopathy](#)

[Handling hypertrophic cardiomyopathy](#)

[Vexing Over Valvular Disorders](#)

[Meeting the mitral valve](#)

[Assessing the aortic valve](#)

[Testing the tricuspid valve](#)

[Pushing the pulmonary valve](#)

[Diagnosing Congenital Heart Disease](#)

[Analyzing atrial septal defect](#)

[Persistent patent ductus arteriosus](#)

[Viewing ventricular septal defect](#)

[The telling tetralogy of Fallot](#)

[Going Ga-Ga Over Conduction Disorders](#)

[Annihilating atrial flutter and atrial fibrillation](#)

[Reviewing some conduction system blocks](#)

[Battling bundle branch blocks](#)

[Viewing ventricular arrhythmias](#)

[Probing the Pericardium](#)

[Linking pericarditis to multiple causes](#)

[Building up to pericardial effusion](#)

[Acting swiftly to relieve cardiac tamponade](#)

[Evaluating Endocarditis](#)

[The staph: Looking for vegetation with infective endocarditis](#)

[The strep: Searching for structural issues with subacute endocarditis](#)

[Worrying about the Vascular System](#)

[Dissecting the aorta, so to speak](#)

[Establishing arterial patency](#)

[Evaluating the venous system](#)

[Practice Cardiovascular System Questions](#)

[Answers and Explanations](#)

[Chapter 4: Taking a Deep Breath: The Lungs](#)

[Evaluating Obstructive Lung Disease](#)

[Ameliorating asthma](#)
[Chronic obstruction: Correcting COPD](#)
[Dilated air sacs: Beating bronchiectasis](#)
[Chasing cystic fibrosis](#)

[Reviewing Restrictive Lung Disease](#)

[After the dust settles: Exploring occupational exposures](#)
[Investigating interstitial lung disease](#)
[Sarcoidosis: Gasping about granulomatous disease](#)

[Blanketing the Lungs: The Pleura](#)

[Fluid around the lungs: Probing the pleural effusion](#)
[Clearing the air on pneumothorax](#)
[Pleural pain: Not putting up with pleurisy](#)

[Investigating Infectious Processes](#)

[Knocking out pneumonias](#)
[Analyzing acute bronchitis](#)
[Investigating influenza](#)
[Tuberculosis: Preparing for the TB test](#)

[Addressing Childhood Lung Conditions](#)

[A barking cough: Catching up with croup](#)
[Recognizing emergency epiglottitis](#)
[Reacting to respiratory syncytial virus \(RSV\)](#)

Sizing Up Lung Malignancy

Focusing on small-cell lung cancer

Seeing the bigger picture: Non-small-cell lung cancer

Scrutinizing the lung lesion

Probing the Pulmonary Vasculature

Blood clots: Evaluating the pulmonary embolism

Taking the pressure off pulmonary hypertension

Practice Pulmonary Questions

Answers and Explanations

Chapter 5: Hungering for the Digestive System

Going Down the Esophagus

Inviting inflammation: Esophagitis

Narrowing but not swallowing

Bleeding from the esophagus

Stomaching the Gastric Area

Inviting inflammation yet again: Gastritis

Uncovering the ugly peptic ulcer

Going after gastric cancer

Can I Buy a Bowel?

[Identifying irritable bowel syndrome \(IBS\)](#)
[Investigating ischemic bowel](#)
[Recognizing inflammatory bowel disease \(IBD\)](#)
[Concerning celiac disease and malabsorption](#)
[Diagnosing diverticulosis and diverticulitis](#)
[Conquering colon cancer](#)

[Putting Up with the Pancreas](#)

[Improving acute pancreatitis](#)
[Treating chronic pancreatitis](#)
[Recognizing pancreatic cancer](#)

[Looking at the Liver](#)

[Helping people with hepatitis](#)
[Keeping cirrhosis in check](#)
[Looking at liver cancer](#)

[Fixing a Wrecked Rectum](#)

[Helping patients with hemorrhoids](#)
[Fingering fecal impactions](#)
[Reaching for rectal cancer](#)
[Probing for perirectal abscess](#)
[Figuring out anal fissures](#)

[Practice Questions about the Digestive System](#)
[Answers and Explanations](#)

Chapter 6: Knowing the Hard Facts about Bones and Joints

Reviewing the Rheumatologic Conditions

Reading up on rheumatoid arthritis

Learning about lupus

Scrutinizing scleroderma

Dry eyes and mouth: Seeking out

Sjögren's syndrome

Managing monoarticular arthritis: Gout and pseudogout

The polys: Affecting the proximal muscles

Obsessing about Three Amigos: The Osteos

Winning over bone thinning: Osteoporosis

Paining over osteoarthritis

Bad to the bone: Opting out of osteomyelitis

We Got Your Back: Conditions of the Spine

Analyzing ankylosing spondylitis

Dangerous curves: Seeing scoliosis

Don't be a slouch: Keeping up with kyphosis

Helping herniated discs

Sorting out spinal stenosis

Pott's disease: Looking at TB of the spine

Shouldering the Pain from Fractures

[Getting clued in on collarbone fractures](#)
[Securing the fractured scapula](#)
[Helping the fractured humerus](#)

[Forewarned, Forearmed: Advancing to the Elbow and Wrist](#)

[Tennis, golfer's, and Little League elbow: Evaluating epicondylar injury](#)
[Elbowing nursemaids: A lift by the wrist](#)
[Bettering bursitis](#)
[Noting numbing of the nerves of the forearm](#)
[Breaking a fall . . . and a wrist](#)

[Thumbing through Hand Injuries](#)

[Going ganglionic: Ganglion cysts](#)
[De Quervain's tenosynovitis: Teasing tendons at the base of the thumb](#)
[Thumbs up: Pointing out sprains and tears of the UCL](#)
[Boxer's fracture: Giving metacarpels the old two-three](#)

[Getting Hip to the Jive](#)

[Asking about avascular necrosis \(AVN\)](#)
[Reviewing the slipped capital femoral epiphysis](#)
[Helping hip fractures and dislocations](#)

[Mending a Wounded Knee](#)

[Observing Osgood-Schlatter syndrome](#)
[Mulling over meniscal tears](#)
[Considering cruciate tears](#)

[Assessing Ankle Injuries](#)

[Studying the soft tissues of the ankle](#)
[Testing Achilles](#)
[Examining ankle fractures](#)

[Figuring Out the Foot](#)

[Studying the soft tissues of the foot](#)
[Stressing over stress fractures](#)
[The bottom of the foot: Finessing fascia](#)

[Practice Questions about Bones and Joints](#)
[Answers and Explanations](#)

[Part III: Reviewing Surgical Topics and Other Organ Systems](#)

[Chapter 7: Checking Out Common Surgical Topics](#)

[Reviewing Surgical Signs and Symptoms](#)

[Asking the right questions about symptoms](#)
[Focusing on the patient's medical history](#)
[Performing the physical exam](#)

[Evaluating the Pre-Op Patient](#)

[Looking at the labs](#)
[Assessing the perioperative risk](#)

[Caring for the Post-Op Patient](#)

[Monitoring for fever](#)
[Reducing the clot risk](#)
[Understanding fluids and nutrition](#)

[Getting on with the Gallbladder](#)

[Hot and bothered: Gallbladder inflammation](#)
[Stoned: Gallbladder stones](#)

[Investigating Common Intestinal Surgeries](#)

[Apprehending the inflamed appendix](#)
[Dealing with diverticulitis](#)
[Intestinal twists: Straightening out volvulus](#)
[Helping people with hernias](#)
[Removing the spleen](#)

[Practice Questions on Surgical Topics](#)
[Answers and Explanations](#)

[Chapter 8: Exploring Problems of the Eyes, Ears, Nose, and Throat](#)

[Knowing Facts about the Nose](#)

[Airing your grievances: Sinus problems](#)

Nosing around nasal polyps: Mucosa gone wild

Assessing allergic rhinitis

Stopping nosebleeds: Epistaxis

Removing stuff stuck up the nose

Looking at the Mouth and Throat

Soothing the sore throat

Connecting oral ulcers to other conditions

Feeling around for inflamed glands

Managing Malignancies of the Head and Neck

Open wide for a look at oral cancer

Talking about throat cancer

Examining the Ear

Ear inflammation: Observing otitis of all types

Bracing for vertigo

Does tinnitus ring a bell?

Minding the mastoids

Evaluating ear trauma

Waxing eloquent

Homing in on hearing loss

Eye, Eye, Captain: Looking at Eye Conditions

Clearing up lens conditions

Covering external eye structures

Focusing on the retina

[Looking deep into the eyes](#)
[Tracking eye movements and muscle conditions](#)

[Practice Questions on the Eyes, Ears, Nose, and Throat](#)
[Answers and Explanations](#)

[Chapter 9: Reviewing Reproductive Medicine](#)

[Managing Menstrual Disorders](#)

[Missing periods: Considering primary and secondary causes of amenorrhea](#)
[Painful periods: Diagnosing dysmenorrhea by process of elimination](#)
[Premenstrual syndrome](#)

[Homing in on Problems of the Breast](#)

[Blocked milk ducts: Managing mastitis](#)
[Leaking milk: Controlling prolactin to treat galactorrhea](#)
[Man boobs: When hormone imbalance leads to gynecomastia](#)
[Distinguishing the fibros](#)
[Beating breast cancer](#)

[Understanding the Uterus](#)

[Uterine prolapse: Slipping into the vagina](#)
[Ruling out causes for dysfunctional uterine bleeding](#)

[Leiomyomas: Bleeding from uterine fibroids](#)

[A not-so-silver lining: Evaluating endometriosis](#)

[Treating endometrial cancer](#)

[Examining the Ovaries](#)

[Looking at ovarian cysts and PCOS](#)

[Reviewing ovarian cancer](#)

[Surveying the Cervix](#)

[Dealing with an incompetent cervix](#)

[Treating an inflamed cervix](#)

[Sorting out sexually transmitted infections](#)

[Understanding cervical dysplasia and carcinoma](#)

[Reviewing Vulvas and Vaginas](#)

[Treating vaginal infections](#)

[Recognizing protrusions: Things ending in -cele](#)

[Visiting cancer of the vulva](#)

[Managing the Normal Pregnancy](#)

[Understanding prenatal screening](#)

[Moving through the stages of labor and delivery](#)

Dealing with Pregnancy Complications

Gestational bleeding problems

Ectopic pregnancy: Attaching in the wrong place

Sharing spaces with tumors: Gestational trophoblastic disease

Treating blood pressure problems in pregnancy

Watching gestational diabetes

Touching on other complications

Avoiding Unwanted Pregnancy

Understanding Spontaneous and Elective Abortions

Practice Reproductive Medicine Questions Answers and Explanations

Chapter 10: Understanding the Genitourinary System

Analyzing Urinary Abnormalities

Using urinalysis

Handling hematuria: Blood in the urine

Watching for proteinuria

Exploring Acute Kidney Failure: It Isn't Cute

Starting out simply: Prerenal azotemia

Analyzing acute tubular necrosis (ATN)

Assessing acute interstitial nephritis (AIN)

Getting it about glomerulonephritis (GN)

[Blood vessels of the kidney: Getting inflamed over vasculitis](#)
[Obstructive uropathies: Obsessing about urinary blockages](#)
[Persisting about polycystic kidney disease \(PKD\)](#)

[Confronting Chronic Kidney Disease \(CKD\)](#)

[Seeing the stages of chronic kidney disease](#)
[Understanding how kidney disease affects the blood and the bones](#)

[Eliminating Kidney Stones: Pass/Fail](#)

[Searching for signs and symptoms of kidney stones](#)
[Diagnosing kidney stones with imaging studies](#)
[Categorizing kidney stones by type](#)
[Treating kidney stones](#)

[Getting Excited about Electrolytes](#)

[Hyponatremia: Not enough sodium](#)
[Hypernatremia: Too much sodium](#)
[Hypokalemia: Not enough K](#)
[Hyperkalemia: Too much K](#)

[Touching Base with Acid-Base](#)

[Reviewing some base-ics](#)

[Interpreting the arterial blood gas results](#)

[Putting Up with the Problematic Prostate](#)

[Shrinking benign prostatic hyperplasia \(BPH\)](#)

[Not passing on prostatitis](#)

[Prostate cancer](#)

[Investigating Urinary Incontinence](#)

[Testing the Testes and Surrounding Anatomy](#)

[Tales of the twisted testicle: Torsion](#)

[Seeking testicular conditions ending in -cele](#)

[Priapism: Erections that won't go away](#)

[Evaluating erectile dysfunction \(ED\)](#)

[Inspecting for infection: The -itises](#)

[Testicular tumors](#)

[Considering Kidney and Bladder Cancer](#)

[Reeling in renal cell carcinoma \(RCC\)](#)

[Beating bladder cancer](#)

[Practice Genitourinary System Questions](#)

[Answers and Explanations](#)

[Part IV: Pursuing Primary Care, Pharmacology, and Behavioral Health](#)

[Chapter 11: Prepping for Pediatrics](#)

Performing a Newborn Examination

Examining the baby's body

Checking reflexes

Assigning a score: APGAR, Not AEIOU

Reviewing Childhood Milestones

Vaccinating the Infant

Reviewing Some Pediatric Medical Conditions

Jaundice: Heeding the warning of yellow skin

Reducing the runs: Rotavirus and diarrhea

Keeping up with Kawasaki's disease

Assessing childhood avascular necrosis

Preventing Reye's syndrome

Keeping an Infant or Child Safe

Practice Questions for Pediatrics

Answers and Explanations

Chapter 12: Managing Health Maintenance and Medical Ethics

Recalling Preventive Medicine Guidelines

Categorizing prevention types

Screenings: Following preventive medicine guidelines

Population Patterns: Reviewing Epidemiology

Identifying conditions with lab tests:
Being positive and negative, sensitive yet specific

Looking at the numbers: Incidence and prevalence of a condition

Studies and trials: Evaluating epidemiological studies

Seeking statistical significance

Dealing with Domestic Violence

Meeting Up with Medical Ethics

Practicing ethical principles

Abiding by patients' rights

Practice Health Maintenance and Medical Ethics Questions

Answers and Explanations

Chapter 13: Tending to Behavioral Health

Getting Specific about Anxiety Disorders

Watching for panic attacks: A perceived reason to panic

Generalized anxiety disorder:

Experiencing general, ongoing worry

Naming other anxiety disorders

Figuring out phobias

Scrutinizing Schizophrenia

[Distinguishing between delusions and hallucinations](#)

[Diagnosing schizophrenia](#)

[Treating schizophrenia](#)

[Probing Personality Disorders](#)

[Diagnosing and treating personality disorders](#)

[Reviewing common personality disorders](#)

[Meeting the Mood Disorders](#)

[Overcoming major depression and dysthymia](#)

[Understanding bipolar disorder and cyclothymia](#)

[Understanding Substance Abuse](#)

[Distinguishing between dependence and addiction](#)

[Looking at common forms of substance abuse](#)

[Evaluating Eating Disorders](#)

[Recognizing anorexia](#)

[Beating bulimia](#)

[Practice Behavioral Health Questions](#)

[Answers and Explanations](#)

Chapter 14: Focusing on Pharmacology and Toxicology

Reviewing Basic Pharmacological Principles

Absorbing the medication

Distributing the medication

Metabolizing the medication

Eliminating the medication

Examining Common Medication Side Effects

Coughing up the ACE (inhibitor)

Dealing with digoxin

Sorting out the statin side effects

Bashing the blockers' side effects

Treating toxic theophylline

Eliminating excess lithium

Negating narcotics

Recognizing Common Drug Interactions

Being careful about warfarin (Coumadin)

Assessing the antiarrhythmic interactions

Having HAART: Interactions with anti-HIV meds

Watching over transplant medications

Seizing the antiseizure medications

Probing serotonin

Being alert to the anticholinergics

Managing the Toxic Ingestions

[Being aware of acetaminophen overdoses](#)
[Avoiding the aspirin overdose](#)
[Treating the toxic alcohols](#)
[Messing with methamphetamines](#)
[Closing in on cocaine overdoses](#)
[Combating carbon monoxide poisoning](#)

[Practice Pharmacology/Toxicology Questions
Answers and Explanations](#)

[Part V: The Brain, Blood, Bugs, Skin, and Glands](#)

[Chapter 15: Evaluating the Endocrine System](#)

[Dealing with Diabetes and Other Glucose
Problems](#)

[Looking at the shared traits of type 1 and
type 2 diabetes](#)
[Missing insulin: Reviewing type 1
diabetes](#)
[Weighing in on type 2 diabetes](#)
[Blasting super-high blood glucose](#)
[Handling blood glucose when it bottoms
out: Hypoglycemia](#)

[Discerning Calcium and Magnesium Problems](#)

[Hampering hypercalcemia](#)
[Getting down with hypocalcemia](#)
[Reviewing hypomagnesemia](#)
[Helping hypermagnesemia](#)

Pursuing Those Pesky Adrenals

Awakening lazy adrenals
Confronting Cushing's syndrome

Thinking about the Thyroid

Helping hypothyroidism
Handling hyperthyroidism
Identifying the similarities between
Hashimoto's and Graves'
Throttling thyroid cancer

Looking Over Lipids

Blaming relatives for some forms of
hyperlipidemia
Treating hyperlipidemia

Practice Endocrine System Questions Answers and Explanations

Chapter 16: Keeping Neurology in Mind

Changes in Mental Status: When It's Not Okay
to Change Your Mind

Tracing an altered status to meds or
medical conditions
Dealing with dementia

Reviewing Movement Disorders

[Stressing over essential tremors](#)

[Blaming brain chemistry for Parkinson's disease](#)

[Chorea: Getting a handle on Huntington's disease](#)

[Understanding cerebral palsy](#)

[Getting the Upper Hand on Peripheral Nerve Problems](#)

[Managing peripheral neuropathies](#)

[Relieving the intensity of complex regional pain syndrome](#)

[Identifying Brain Infections](#)

[Covering meningitis](#)

[Getting into encephalitis](#)

[Handling Headaches](#)

[Managing migraines](#)

[Easing tension headaches](#)

[Clustering headaches](#)

[Losing Consciousness](#)

[Fainting: Recovering from syncope](#)

[Sorting out seizure types and treatments](#)

[Viewing the Brain's Vascular System](#)

[Identifying and preventing the transient ischemic attack](#)

[Stroke: Treating the brain attack](#)

[Treating the bleeding brain](#)

[Reviewing Other Neurological Disorders](#)

[Losing power: Mulling over myasthenia](#)

[Treating Guillain-Barré syndrome](#)

[Looking for the right signals in multiple sclerosis](#)

[Understanding Tourette's syndrome](#)

[Concussions: Bruising the brain](#)

[Practice Neurology Questions](#)

[Answers and Explanations](#)

[Chapter 17: Touching on Dermatology](#)

[Mastering Skin Malignancies](#)

[Keeping up with Kaposi's sarcoma](#)

[Intervening with basal cell carcinoma](#)

[Seeing squamous cell carcinoma](#)

[Battling malignant melanoma](#)

[Inflammation: Examining Eczematous Eruptions](#)

[Surveying Skin Infections](#)

[Treating bacterial infections](#)

[Candida and Dermatophyte: Fending off fungi](#)

[Putting a pox on viruses](#)

[Looking at Pigmentation, Bumps, and Sores](#)

[Spotting pigmentation problems](#)

[Facing acne](#)

[Horny growths: Examining keratosis lesions](#)

[Papules and scales: Putting up with papulosquamous diseases](#)

[Blistering bullous pemphigoid](#)

[Sweating over hidradenitis](#)

[Leaving lipomas alone](#)

[Eliminating hives](#)

[Pilonidal cyst: Looking at the buttocks](#)

[Bedsores: Scanning the sacrum to detect decubitus ulcers](#)

[Inspecting the Body for Insects and Arachnids](#)

[Lice aren't so nice](#)

[Treating the mite-y scabies](#)

[Sorting out spider bites](#)

[Remaining Sensitive to the Loss of Skin or Hair](#)

[Losing the top layer of skin:](#)

[Desquamating diseases](#)

[Assessing and staging burns](#)

[Alopecia: Where did the hair go?](#)

[Practice Dermatology Questions](#)

Answers and Explanations

Chapter 18: Handling Hematology and Oncology

Analyzing Anemia

Mastering the microcytic anemias

Vitamin deficiencies: Mastering
macrocytic anemias

Narrowing in on normocytic anemias

Ameliorating aplastic anemia

Harping on hemolysis: The destruction of
red blood cells

Handling hereditary anemias

Probing Polycythemia Vera: The Opposite of Anemia

Getting the Lowdown on Platelets: Testing for Thrombocytopenia

Looking for ITP: Platelet production
problems

Homing in on heparin-induced
thrombocytopenia (HIT)

Dealing with disseminated intravascular
coagulation (DIC)

Testing for thrombotic thrombocytopenic
purpura (TTP)

Helping kids with hemolytic uremic
syndrome

Sequestering platelets in the spleen

Confronting Coagulation Disorders
