iOS 6 Programming Pushing the Limits

Table of Contents

[Introduction](#)

[Who This Book Is For](#)

[What This Book Covers](#)

[What Is New in This Edition](#)

[How This Book Is Structured](#)

[Part I: What's New?](#)

[Part II: Getting the Most Out of Everyday Tools](#)

[Part III: The Right Tool for the Job](#)

[Part IV: Pushing the Limits](#)

[What You Need to Use This Book](#)

[Finding Apple Documentation](#)

[Source Code](#)

[Errata](#)

[Part I: What's New?](#)

[Chapter 1: The Brand New Stuff](#)

[What's New](#)

[Collection Views](#)

[Auto Layout](#)

[Automatic Reference Counting](#)
[In App Purchases Hosted Content](#)
[Social Framework](#)
[UI State Preservation](#)
[Other New Features](#)

[Summary](#)
[Further Reading](#)

[Apple Documentation](#)

[Chapter 2: Getting Comfortable with Xcode 4 and the LLVM Compiler](#)

[Getting to Know the User Interface](#)

[Tabbed Editor](#)
[Changes to Key Bindings](#)
[Project Settings Editor](#)
[Integrated Version Control](#)
[Workspaces](#)

[All in One Window](#)
[Navigating the Navigators](#)

[Project Navigator](#)
[Symbol Navigator](#)
[Search Navigator](#)
[Issue Navigator](#)
[Debug Navigator](#)
[Breakpoint Navigator](#)
[Log Navigator](#)

[Help from Your Assistant
Integrated Interface Builder](#)

[Interface Builder Panels](#)

[LLVM Compiler: A Tryst with the Brain](#)

[The Clang Front End
I'm a Bug! Fix Me](#)

[What's New in LLVM 4](#)

[Literals](#)

[Literals and Availability](#)

[Auto Synthesis of Instance Variables](#)

[Git Your Versions Here](#)

[Integrated Git Version Control System](#)

[Versions Editor](#)

[Git Best Practices](#)

[Schemes](#)

[Why Schemes?](#)

[Think of Schemes as Implementing Your
Intentions](#)

[Creating a Scheme](#)

[Sharing Your Schemes](#)

[Build Configurations You Can Comment](#)

[Creating an xcconfig File](#)

[Refactoring the Build Configuration File](#)

[Migrating Your Code to Objective-C ARC](#)

[Using the Convert to Objective-C ARC Tool](#)

[Xcode 4 Organizer](#)

[Automatic Device Provisioning](#)

[Viewing Crash Logs and Console NSLog Statements](#)

[Viewing an Application's Sandbox Data](#)

[Managing Repositories](#)

[Accessing Your Application Archives](#)

[Viewing Objective-C and SDK](#)

[Documentation](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[WWDC Sessions](#)

[Blogs](#)

[Web Resources](#)

[Books](#)

[Part II: Getting the Most Out of Everyday Tools](#)

[Chapter 3: Everyday Objective-C](#)

[Naming Conventions](#)

[Automatic Reference Counting](#)

[Properties](#)

[Property Attributes](#)
[Property Best Practices](#)
[Private Ivars](#)

[Accessors](#)
[Categories and Extensions](#)

[+load](#)
[Category Data Using Associative References](#)
[Class Extensions](#)

[Formal and Informal Protocols](#)
[Summary](#)
[Further Reading](#)

[Apple Documentation](#)
[Other Resources](#)

[Chapter 4: Hold On Loosely: Cocoa Design Patterns](#)

[Understanding Model-View-Controller](#)

[Using Model Classes](#)
[Using View Classes](#)
[Using Controller Classes](#)

[Understanding Delegates and Data Sources](#)
[Working with the Command Pattern](#)

[Using Target-Action](#)
[Using Method Signatures and Invocations](#)

[Using Trampolines](#)
[Using Undo](#)

[Working with the Observer Pattern](#)
[Working with the Singleton Pattern](#)
[Summary](#)
[Further Reading](#)

[Apple Documentation](#)
[Other Resources](#)

[Chapter 5: Memory Management with Objective-C ARC](#)

[Introduction to Objective-C ARC](#)

[A Brief History](#)
[Manual Versus Automatic Reference Counting](#)

[What Is ARC?](#)

[Integrating Non-ARC Third-Party Code into Your ARC Project](#)
[Integrating ARC Code into Your Non-ARC Project](#)
[ARC Code in a Framework](#)
[ARC nils Declared Variables](#)
[Objective-C Naming Conventions](#)
[Overriding the Default Behavior](#)
[Toll-Free Bridging](#)
[ARC Internals](#)

[Common ARC Migration Errors](#)

[Workarounds When Using ARC](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[WWDC Sessions](#)

[Blogs](#)

[Chapter 6: Getting Table Views Right](#)

[UITableView Class Hierarchy](#)

[Understanding Table Views](#)

[UITableViewController](#)

[UITableViewCell](#)

[Speed Up Your Table View Scrolling](#)

[Custom Nonrepeating Cells](#)

[Table View Best Practices: Writing Clean](#)

[Code with Lean Controllers](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[Other Resources](#)

[Chapter 7: Great at Any Angle: Collection Views and Auto Layout](#)

[Collection Views](#)

[Classes and Protocols](#)
[Example](#)

[Cocoa Auto Layout](#)

[Using Auto Layout](#)
[Getting Started with Auto Layout](#)
[Relative Layout Constraints](#)
[Visual Format Language](#)
[Debugging Layout Errors](#)

[Summary](#)
[Further Reading](#)

[Apple Documentation](#)
[WWDC Sessions](#)

[Chapter 8: Better Drawing](#)

[iOS's Many Drawing Systems](#)
[UIKit and the View Drawing Cycle](#)
[View Drawing Versus View Layout](#)
[Custom View Drawing](#)

[Drawing with UIKit](#)
[Paths](#)
[Understanding Coordinates](#)
[Resizing and contentMode](#)
[Transforms](#)
[Drawing with Core Graphics](#)
[Mixing UIKit and Core Graphics](#)
[Managing Graphics Contexts](#)

[Optimizing UIView Drawing](#)

[Avoid Drawing](#)

[Caching and Background Drawing](#)

[Custom Drawing Versus Prerendering](#)

[Pixel Alignment and Blurry Text](#)

[Alpha, Opaque, Hidden](#)

[CGLayer](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[Other Resources](#)

[Chapter 9: Layers Like an Onion: Core Animation](#)

[View Animations](#)

[Managing User Interaction](#)

[Drawing with Layers](#)

[Setting Contents Directly](#)

[Implementing Display](#)

[Custom Drawing](#)

[Drawing in Your Own Context](#)

[Moving Things Around](#)

[Implicit Animations](#)

[Explicit Animations](#)

[Model and Presentation](#)

[A Few Words on Timings](#)

[Into the Third Dimension](#)
[Decorating Your Layers](#)
[Auto-Animate with Actions](#)
[Animating Custom Properties](#)
[Core Animation and Threads](#)
[Summary](#)
[Further Reading](#)

[Apple Documentation](#)
[Other Resources](#)

[Chapter 10: Tackling Those Pesky Errors](#)

[Error-Handling Patterns](#)
[Assertions](#)
[Exceptions](#)
[Catching and Reporting Crashes](#)
[Errors and NSError](#)

[Error Localization](#)

[Error Handler Blocks](#)
[Logs](#)

[Logging Sensitive Information](#)
[Getting Your Logs](#)

[Summary](#)
[Further Reading](#)

[Apple Documentation](#)
[Other Resources](#)

[Chapter 11: Location Services: Know Where You Are](#)

[Core Location Framework](#)

[Tapping into the User's Location](#)

[Getting the User's Heading with the Built-In Compass](#)

[Location Services and Privacy](#)

[Background Location](#)

[Getting Continuous Location Updates in the Background](#)

[Subscribing to Significant Change Notification](#)

[Region Monitoring \(Geo-Fencing\)](#)

[Location Simulation](#)

[Keeping an Eye on the Battery](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[Part III: The Right Tool for the Job](#)

[Chapter 12: Common UI Paradigms Using Table Views](#)

[Pull-To-Refresh](#)

[iOS Pull-to-Refresh](#)

[Infinite Scrolling](#)
[Inline Editing and Keyboard](#)
[Animating a UITableView](#)
[Practical Implementations of Table View Animations](#)

[Implementing an Accordion List](#)
[Implementing a Drawer](#)
[Using Gesture Recognizers in Table View Cells](#)

[Summary](#)
[Further Reading](#)

[Apple Documentation](#)

[Chapter 13: Controlling Multitasking](#)

[Best Practices for Backgrounding: With Great Power Comes Great Responsibility](#)
[When We Left Our Heroes: State Restoration](#)

[Testing State Restoration](#)
[Opting In](#)
[Startup Changes](#)
[Restoration Identifiers](#)
[State Encoders and Decoders](#)
[Table Views and Collection Views](#)
[Advanced Restoration](#)

[Introduction to Multitasking and Run Loops](#)
[Developing Operation-Centric Multitasking](#)

[Setting Maximum Concurrent Operations](#)

[Multitasking with Grand Central Dispatch](#)

[GCD and ARC](#)

[Sources and Timers](#)

[Creating Synchronization Points with
Dispatch Barriers](#)

[Queue Targets and Priority](#)

[Dispatch Groups](#)

[Queue-Specific Data](#)

[Dispatch Data](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[WWDC Sessions](#)

[Other Resources](#)

[Chapter 14: REST for the Weary](#)

[The REST Philosophy](#)

[Choosing Your Data Exchange Format](#)

[Parsing XML on iOS](#)

[Parsing JSON on iOS](#)

[XML Versus JSON](#)

[Model Versioning](#)

[A Hypothetical Web Service](#)

[Important Reminders](#)

[RESTfulEngine Architecture \(iHotelApp Sample Code\)](#)

[NSURLConnection Versus Third-Party Frameworks](#)

[Creating the RESTfulEngine](#)

[Authenticating Your API Calls with Access Tokens](#)

[Overriding Methods to Add Custom Authentication Headers in RESTfulEngine.m](#)

[Canceling Requests](#)

[Request Responses](#)

[Key Value Coding JSONs](#)

[List Versus Detail JSON Objects](#)

[Nested JSON Objects](#)

[Less Is More](#)

[Error Handling](#)

[Localization](#)

[Handling Additional Formats Using Category Classes](#)

[Tips to Improve Performance on iOS](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[Other Resources](#)

[Chapter 15: Batten the Hatches with Security Services](#)

[Understanding the iOS Sandbox](#)
[Securing Network Communications](#)

[How Certificates Work](#)
[Checking Certificate Validity](#)
[Determining Certificate Trust](#)

[Employing File Protection](#)
[Using Keychains](#)

[Sharing Data with Access Groups](#)

[Using Encryption](#)

[Overview of AES](#)
[Converting Passwords to Keys with PBKDF2](#)
[AES Mode and Padding](#)
[The Initialization Vector \(IV\)](#)
[Authentication with HMAC](#)
[Bad Passwords](#)
[Performing One-Shot Encryption](#)
[Improving CommonCrypto Performance](#)
[Combining Encryption and Compression](#)

[Summary](#)
[Further Reading](#)

[Apple Documentation](#)
[WWDC Sessions](#)
[Other Resources](#)

Chapter 16: Running on Multiple iPlatforms and iDevices

Developing for Multiple Platforms

Configurable Target Settings: Base SDK
Versus Deployment Target
Considerations for Multiple SDK Support:
Frameworks, Classes, and Methods
Checking the Availability of Frameworks,
Classes, and Methods

Detecting Device Capabilities

Detecting Devices and Assuming
Capabilities
Detecting Hardware and Sensors

In App Email and SMS Checking Multitasking Awareness

Obtaining the UIDevice+Additions
Category

Supporting the iPhone 5
UIRequiredDeviceCapabilities
Summary

Chapter 17: Internationalization and Localization

[What Is Localization?](#)

[Localizing Strings](#)

[Auditing for Nonlocalized Strings](#)

[Formatting Numbers and Dates](#)

[Nib Files and Base Internationalization](#)

[Localizing Complex Strings](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[WWDC Sessions](#)

[Chapter 18: Selling Past the Sale with In App Purchases](#)

[Before You Start](#)

[In App Purchase Products](#)

[Prohibited Items](#)

[Rethinking Your Business Model](#)

[Setting Up Products on iTunes Connect](#)

[Step 1: Create a New App ID for Your App](#)

[Step 2: Generate Provisioning Profiles](#)

[Step 3: Create the App's Product Entry](#)

[Step 4: Create the In App Purchase](#)

[Product Entries](#)

[Step 5: Generating the Shared Secret](#)

[Step 6: Creating Test User Accounts](#)

[Step 7: Creating Hosted Content](#)

[In App Purchase Implementation](#)

[Introduction to MKStoreKit](#)

[Why MKStoreKit?](#)

[Design of MKStoreKit](#)

[Customizing MKStoreKit](#)

[Making the Purchase](#)

[Downloading Hosted Content](#)

[Testing Your Code](#)

[Troubleshooting](#)

[Invalid Product IDs](#)

[Cannot Connect to iTunes Store](#)

[You Have Already Purchased This Product,](#)

[but It's Still Not Downloaded](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[Blogs](#)

[Other Resources](#)

[Chapter 19: Debugging](#)

[LLDB](#)

[Debugging with LLDB](#)

[Debug Information File \(dSYM file\)](#)

[Symbolication](#)

[Breakpoints](#)

[The Breakpoint Navigator](#)

[Watchpoints](#)

[The LLDB Console](#)

[NSZombieEnabled Flag](#)

[Different Types of Crashes](#)

[EXC_BAD_ACCESS](#)

[SIGSEGV](#)

[SIGBUS](#)

[SIGTRAP](#)

[EXC_ARITHMETIC](#)

[SIGILL](#)

[SIGABRT](#)

[Watchdog Timeout](#)

[Custom Error Handling for Signals](#)

[Collecting Crash Reports](#)

[iTunes Connect](#)

[Third-Party Crash Reporting Services](#)

[Advantages of TestFlight or HockeyApp
over iTunes Connect](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[WWDC Session](#)

[Other Resources](#)

Chapter 20: Performance Tuning Until It Flies

The Performance Mindset

Rule 1: The App Exists to Delight the User

Rule 2: The Device Exists for the Benefit of the User

Rule 3: Go to Extremes

Rule 4: Perception Is Reality

Rule 5: Focus on the Big Wins

Welcome to Instruments

Finding Memory Problems

A Word on Memory Allocation

Finding CPU Problems

The Accelerate Framework

GLKit

Drawing Performance

Core Image

Optimizing Disk and Network Access

Summary

Further Reading

Apple Documentation

Chapter 22: Cocoa's Biggest Trick: Key-Value Coding and Observing

Key-Value Coding

Setting Values with KVC

Traversing Properties with Key Paths

KVC and Collections

KVC and Dictionaries

[KVC and Nonobjects](#)
[Higher-Order Messaging with KVC](#)
[Collection Operators](#)

[Key-Value Observing](#)

[KVO and Collections](#)
[How Is KVO Implemented?](#)

[KVO Tradeoffs](#)
[Summary](#)
[Further Reading](#)

[Apple Documentation](#)
[Other Resources](#)

[Chapter 23: Think Different: Blocks and Functional Programming](#)

[What Is a Block?](#)

[Why Use Functional Programming?](#)
[A “Functional” UIAlertView](#)

[Declaring a Block](#)

[Scope of Variables](#)
[Stack Versus Heap](#)

[Implementing a Block](#)

[Block-Based UIAlertView](#)

[Blocks and Concurrency](#)

[Dispatch Queues in GCD](#)
[NSOperationQueue Versus GCD Dispatch Queue](#)

[Block-Based Cocoa Methods](#)

[UIView Animations Using Blocks](#)
[Presenting and Dismissing View Controllers](#)
[TweetComposer Versus In App E-mail/SMS](#)
[Dictionary Enumeration Using NSDictionary enumerateWithBlock](#)
[Looking for Block-Based Methods](#)

[Supported Platforms](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[Blogs](#)

[Chapter 24: Going Offline](#)

[Reasons for Going Offline](#)

[Strategies for Caching](#)

[Storing the Cache](#)

[Cache Versioning and Invalidation](#)

[Data Model Cache](#)

[Cache Versioning](#)

[Invalidating the Cache](#)

[Creating an In-Memory Cache](#)

[Designing the In-Memory Cache for AppCache](#)

[Handling Memory Warnings](#)

[Handling Termination and Entering Background Notifications](#)

[Creating a URL Cache](#)

[Expiration Model](#)

[Validation Model](#)

[Example](#)

[Caching Images with a URL Cache](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[Books](#)

[Other Resources](#)

[Chapter 25: Data in the Cloud](#)

[iCloud](#)

[Understanding the iCloud Data Store](#)

[Third-Party Cloud Offerings](#)

[Parse](#)

[Getting Started with Parse](#)
[Parse Top Level Objects](#)
[Code](#)

[StackMob](#)

[Setting Up StackMob](#)
[Logging In and Uploading and Retrieving](#)
[Data](#)
[StackMob Custom Code](#)

[Disadvantages of Using a Backend as a](#)
[Service](#)
[Summary](#)
[Further Reading](#)

[Apple Documentation](#)
[WWDC Sessions](#)
[Other Resources](#)

[Chapter 26: Fancy Text Layout](#)

[The Normal Stuff: Fields, Views, and Labels](#)
[Rich Text in UIKit](#)

[Understanding Bold, Italic, and Underline](#)
[Attributed Strings](#)
[Paragraph Styles](#)
[Attributed Strings and HTML](#)

[Web Views for Rich Text](#)

[Displaying and Accessing HTML in a Web View](#)

[Responding to User Interaction](#)

[Drawing Web Views in Scroll and Table Views](#)

[Core Text](#)

[Simple Layout with CTFramesetter](#)

[Creating Frames for Noncontiguous Paths](#)

[Typesetters, Lines, Runs, and Glyphs](#)

[Drawing Text Along a Curve](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[WWDC Sessions](#)

[Other Resources](#)

[Chapter 27: Building a \(Core\) Foundation](#)

[Core Foundation Types](#)

[Naming and Memory Management](#)

[Allocators](#)

[Introspection](#)

[Strings and Data](#)

[Constant Strings](#)

[Creating Strings](#)

[Converting to C Strings](#)

[Other String Operations](#)

[Backing Storage for Strings](#)

[CFData](#)

[Collections](#)

[CFArray](#)

[CFDictionary](#)

[CFSet, CFBag](#)

[Other Collections](#)

[Callbacks](#)

[Toll-Free Bridging](#)

[Summary](#)

[Further Reading](#)

[Apple Documentation](#)

[Other Resources](#)

[Chapter 28: Deep Objective-C](#)

[Understanding Classes and Objects](#)

[Working with Methods and Properties](#)

[How Message Passing Really Works](#)

[Dynamic Implementations](#)

[Fast Forwarding](#)

[Normal Forwarding](#)

[Forwarding Failure](#)

[The Flavors of objc_msgSend](#)

[Method Swizzling](#)

[ISA Swizzling](#)

[Method Swizzling Versus ISA Swizzling](#)

[Summary](#)
